Stocks gained slightly last week

STAR BUSINESS REPORT

Dhaka stocks gained slightly last week amid speculative investment in engineering, services and real estate and miscellaneous sector shares.

Price appreciation of Aftab Automobiles, National Housing and Beximco Limited boosted these sectors.

The benchmark index of the Dhaka Stock Exchange, DSE General Index, rose by 13.3 points, or 0.53 percent to 2,506.89 on week-on-week. The DSE All Share Price Index also increased by 12.38 points, or 0.6 percent to 2,090.83 on Thursday, the last trading day of the week.

Turnover in the engineering and real estate and services sectors has increased to a large extent. These sectors also saw considerable gains in their prices. "As a result of this, the fundamentally strong shares saw decreases in their prices," said an analysis of Equity Partners Limited (EPL), an investment bank.

"It was a week of mixed results for the market. Even though the week started bearishly, some gains were noticed on the following days," the analysis added.

On the opening day, the market ended mixed with all indices finishing flat. The market finished slightly lower on the final day of trading.

Banking sector, now undervalued, ended the week almost the same as previous week. The investors were reluctant to invest in this sector, which resulted in a 14 percent decrease in turnover.

The total and daily average turnover fell by 8.62 percent to Tk 2,158.03 crore and Tk 431.60 crore respectively.

A total of 11,64,93,793 shares were traded on the premier bourse, a 7.45 percent fall. The advancers beat the losers 180 to 80. Three securities remained unchanged.

Market capitalisation increased by 0.43 percent to Tk 1,02,563.48 crore.

Titas Gas topped the turnover leaders, with 54,18,700 shares worth Tk 291.56 crore being traded, followed by Beximco, Summit Power, Eastern Housing, BD Online, Bextex, S Alam Cold Rolled Steels, Summit Alliance Port, Beximco Synthetics and Shinepukur Ceramics.

On the Chittagong Stock Exchange, the CSE Selective Categories Index rose by 0.22 percent to 5,309.49. The CSE All Share Price Index also increased by 0.18 percent to 8,190.51.

A total of 2,44,24,818 shares worth Tk 275.79 crore changed hands on the port city bourse.

Of the traded securities, 110 advanced, 71 declined and 13 remained unchanged.

Beximco topped the turnover leaders on the CSE with 8,26,558 shares worth Tk 23.09 crore being traded. The week's other turnover leaders were AB Bank, Titas Gas, Beximco Pharma, Beximco Synthetics, Eastern Housing, Shinepukur Ceramics, BD Online and LankaBangla Finance.

India's Jet Airways may cut jobs

AFP, *Mumbai*

India's largest domestic carrier Jet Airways said Friday it may have to cut jobs and flights to curb losses caused by a fall in passengers.

"The company is in the process of rationalising operations. We may need to cut back capacity, which is likely to impact staff operations too," a Jet spokesman said, declining to say how many jobs might be affected.

"Implications in terms of fleet and personnel requirements, both operational and supporting staff, are being finalised," the company added in a statement.

Jet and other Indian carriers are reeling from a fall in passenger traffic amid cooling demand.

The number of domestic flyers dropped 15 percent in April from a year earlier, according to civil aviation figures.

Jet said it was "restructuring activities" in terms of its domestic and international routes as part of a bid to "revive the economic health of the company."

Indian newspapers earlier this month said Jet had laid off over 50 employees, including cabin crew staff, but the airline called the reports "grossly overstated."

Weekly Currency Roundup

May 11-May 14, 2009

International Markets:

The international markets continued to remain volatile this week. At the beginning of the week, positive news on the US economy boosted risk appetitive. The US dollar fell to a four-month low after positive jobs data was released.

This fueled hope for a quick US recovery, and led to the US dollar index falling to its lowest since January. The increase in risk appetite led to a rebound in oil as well as share prices.

The euro in particular hit a 7-week high as the risk rally appeared to show resiliency. However, weak US sales data put a damper on the risk rally and boosted the US dollar. Sluggish US retail sales figures reminded investors that recent optimism about a global economic recovery may be premature and kept risk aversion high. Ongoing economic weakness was highlighted by a slide in European shares, which fell more than half a percent in early trade and kept traders keen to dump aggressive short-dollar positions accumulated earlier in the week. With few major economic numbers and events due in European trade, traders focused Wednesday's data which showed cash-strapped US consumers continue to hold back from purchases due to job losses, falling home prices and tighter credit.

This cut short a rally in the euro and other currencies perceived to be higher risk earlier in the week, and analysts said the realisation the economic recovery will be a long slog prompted short covering in the dollar, which is often considered a safe-haven bet in times of uncertainty.

Local Market FX:

The USD remained steady against the BDT throughout the week. The market was active and there was ample liquidity.

Local Money Market:

The call money rate was in an uptrend this week and traded in the range of .25-2.5 after a long period of very low rates.

Euro under pressure

AFP, *London*

The euro was under pressure Friday after data showed the eurozone economy slumping a record 2.5 percent in the first quarter. The European single currency fell to 1.3547 dollars from 1.3638 dollars late Thursday in New York.

The dollar rose to 95.37 yen from 95.20 yen late Thursday.
