Opec seeks better rules as prices slide

REUTERS, *Cairo*

Opec oil producers meeting this week in Cairo are likely to clamp down on excess supply has that helped lower prices from record highs and will discuss how much to raise their price target, cartel officials said on Tuesday.

Oil has fallen around $14, or 25 percent from highs hit in October as surging Opec production swells inventories in consuming nations ahead of winter. US crude dropped another $1.52 to $41.46 a barrel on Tuesday, hitting its lowest level in three months.

Gulf Opec member the United Arab Emirates said on Tuesday must comply more strictly to agreed supply limits and may need to cut their official output ceiling if price fall further.

The 10 Opec members with quotas have been pumping around a million barrels daily above the official 27 million limit as rapid demand growth in China and the US strained world supply, pushing prices to record peaks in late October.

A fall in the dollar's value has further eroded Opec's revenues from its dollar-denominated sales. Steep discounts for the group's lower-quality crude supplies have also alarmed some producers.

Oil's surge this year has persuaded most cartel members that Opec should raise its official price band although delegates have signalled that the group will not make a formal change to the target range this week.

The UAE minister, who took office just last month, backed calls from fellow Opec members Nigeria and Venezuela that want the group to target a minimum price of $30 a barrel.

Sri Lanka heads for record trade deficit

AFP, *Colombo*

Sri Lanka heads for a record trade deficit in 2004 as rising global oil prices drain foreign currency reserves and threaten economic stability, the central bank said Wednesday.

The island nation imports all of its oil needs which has fuelled a 20 percent increase in imports for the first 10 months of this year to 6.4 billion dollars, the Central Bank of Sri Lanka said.

This compared to a 12 percent rise in exports to 4.7 billion dollars over the same period, the central bank said.

The trade deficit of 1.7 billion dollars for the first 10 months exceeds the previous record of 1.5 billion dollars set in 1994 and the 2003 deficit of 1.1 billion dollars.

Sri Lanka is facing double-digit inflation and a weaker currency with the rupee falling 9.0 percent against the dollar this year.

Foreign currency reserves dropped 16 percent to 1.9 billion dollars in the first nine months of 2004.

Shell to invest $54m in India petrol stations

AFP, *Bangalore, India*

Anglo-Dutch oil giant Royal Dutch/Shell said it would invest 2.5 billion rupees (54.3 million dollars) and become the first foreign firm to operate petrol stations in India since the sector was opened up.

Vikram Singh Mehta, Chairman of the Shell Group of Companies in India, said the firm plans to open 2,000 outlets selling gasoline and diesel under the Shell brandname and sourced from state-owned firms.

"The investment of 2.5 billion rupees is for the first phase. It will be deployed as quickly as possible," Mehta told reporters. "The first phase will cover southern Indian cities such as Bangalore and Madras."

India opened its oil sector to foreign and private domestic firms in April 2002.

"We have to build the retail network from scratch," Mehta said.

Money market was active. Call money rate rose and ranged between 5.00 and 6.00 percent compared with 4.50 and 5.50 percent previously.

International Market

The dollar rose one percent against the euro and the yen on Wednesday as investors bought the US currency back to take profit before year-end.
