Rural schools to be brought under computer network

STAFF CORRESPONDENT

RECKITT

Science and Information and ommunication Technology Minister Dr Abdul Moyeen Khan has said every rural school of the country would be brought under computer network with internet facilities in phases.

He said computer technology would be introduced to secondary students of rural areas to make them computer expert gradually.

The minister was speaking as chief guest at the launching cere mony of a software named 'Fixed Asset' in the city yesterday. The software has been invented by Systems Bangladesl Limited (DSBL).

The government, private sector and academicians will have to work together in order to make a revolution in the IT sector," said Dr Moyeen Khan.

He said we have to market the software not only in Bangladesh but also in foreign countries for sales promotion.

In his welcome speech, Mahbub Zaman, managing director of DSBL, said without incorporating the knowledge of technology with the education, it would be difficult to improve the IT sector.

The software Fixed Asset deals with keeping asset schedules listing of assets of any location, group and period.
