## Unctad says Foreign investment up in service industries

### AFP, Geneva

Foreign investment into service industries is rising, with new areas such as telecoms attracting interest from more traditional financial and trading services, the United Nations Conference on Trade and Development (Unctad) said Tuesday. The services sector attracts

about 60 per cent of total foreign

direct investment (FDI) globally up 45 per cent of total investment in from less than 50 per cent a decade ago, the Geneva-based organisa-

tion said in a statement. "At the same time, a new pattern of services FDI has emerged, with financial and trading services, the traditional bulwarks of services stock, ceding ground to new industries," it said.

At the same time, FDI in new service industries, including power generation, telecommunications and business services, surged to 44 per cent from 17 per cent.

1990

Information and communication technologies crossed borders, According to Unctad, funds into making them more attractive areas finance and trading services fell to for investment, Unctad explained.

seek gradual end to yuandollar peg REUTERS, Brussels European Commission President

EU's Prodi to

Romano Prodi will seek a gradual services in 2001 from 65 per cent in loosening of the yuan's peg to the US dollar when European Union and Chinese leaders meet at a summit in Beijing on Thursday, an EU official said on Tuesday.

She told reporters Prodi will bring a message that China needs to continue its process of economic reform.

"He understands that there remain a number of imbalances in the Chinese economy... These include unpegging the renminbi (yuan) from the dollar over time, but he understands it cannot be done from one day to the next," the official told reporters.

Asked whether Prodi would explicitly raise the currency issue, the official said: "Yes, it's one point on the agenda."

She later said that what the EU sought was greater flexibility in the Chinese currency's exchange rate. Beijing is already under strong

pressure from the United States and other industrialised countries to revalue its currency, blamed by many US industries for a flood of cheap Chinese imports that has undercut home-produced goods.

The yuan is pegged at what many Western manufacturers consider an artificially low level of about 8.3 to the dollar.

China had a 47 billion euro (\$53 billion) trade surplus with the 15nation EU in 2002, according to Commission figures.

The EU delegation will include Italian Prime Minister Silvio Berlusconi, whose country holds the rotating EU presidency, Prodi, EU foreign policy chief Javier Solana and EU Trade Commissioner Pascal Lamy.

They will meet Chinese President Hu Jintao and hold talks with a delegation led by Prime Minister Wen Tiabao.

EU officials said the summit talks would cover an array of sensitive issues, including North Korea, Taiwan, Myanmar, human rights and the future of world trade talks after the failure of the Cancun ministerial meeting.
