National Instruments is Looking for Distributors

Computer Based Measurement & Automation

About National Instruments

National Instruments (<http://ni.com>) is a technology pioneer and leader in Virtual Instrumentation. A revolutionary concept that has changed the way engineers and scientists approach Measurement & Automation. Leveraging the PC and its related technologies, Virtual Instrumentation increases productivity and lowers costs for customers worldwide through easy-to-integrate software, such as the NI LabVIEW graphical development environment; and modular hardware, such as PXI modules for data acquisition, instrument control and machine vision. Headquartered in Austin, Texas, NI has more than 3,000 employees and direct operations in 40 countries. In 2002, the company sold products to more than 25,000 different companies in more than 80 countries around the world.

NI India (<http://ni.com/india>) is based in Koramangala, Bangalore with a focus to provide the highest level of service to our Indian customers along with our local support, training options, and application consulting by our technical consultants.
