Killings by BSF up in southwestern border areas

16 killed, over 100 injured in four and a half months till December

AMANUR AMAN, Kushtia

The Indian Border Security Forces (BSF) killed at least 16 Bangladeshi citizens and injured over 100 at different border points in the southwestern region in four and a half months from August 17 to December 31 last year.

This figure of killings is higher than any other period in last several years, sources said. They said BSF also abducted at

least 70 Bangladeshis during the Of them about 40 were still in different jail in India and the rest

were released. According to data available from BDR, police and newspaper reports. BSF killed eight people in earlier eight months from January 1 to August 17 last year.

Killings by BSF in the border areas increased after the August 17 countrywide serial bomb blasts in Bangladesh by Islamist outfits.

After the August 17 incident, BSF was put on high alert and ordered to take any measure to 'resist entrance of Islamist militants into Indian territory", BDR sources said. Some innocent Bangladeshis including traders, particularly cattle traders, became victims as the Indian border guards shot any body they saw near the border, they said.

BSF also reinforced it strength in all border outposts and increased patrol. It did not allow any adult

Bangladeshi near the border even during day time. BSF also erected at least 15 kilometers of barbed wire fence along the border in Chuadanga, Kushtia, Meherpur, Jessore, Jhenidah and Satkhira and is using searchlight at night to check cross-border movement.

Of those killed, seven were in Chudanga border, five in Kushtia, two Satkhira, one in each in Jhenidah and Jessore border.
