Cairn Energy Sangu Field Limited

Cairn Energy Plc. is the largest independent oil & gas exploration and production company in the UK. It was founded in 1988 and is listed in the London Stock Exchange. Cairn's core area of focus is South Asia, in particular India and Bangladesh. Cairn explores for oil & gas offshore and onshore in India and Bangladesh. The company's producing offshore fields in India are the Ravva Field in Andhra Pradesh, Lakshmi & Gauri Fields in Gujarat and the Sangu Field in Bangladesh. In 2004, Cairn also made a number of major oil discoveries in the desert region of Rajasthan in India. Cairn is an existing client of the International Finance Corporation (IFC) and is now seeking further loans. IFC's proposed investment will help finance Cairn's medium term capital expenditure program (the "Project") which will focus primarily on Rajasthan and is expected to comprise additional exploratory, appraisal and development drilling as well as the construction of oil and gas processing and export facilities. The Project will also include a component covering currently producing fields, as follows: (i) in Gujarat: further exploration and development work; (ii) in Andhra Pradesh: infill and exploratory drilling; and (iii) in Bangladesh: the potential development of a satellite gas prospect. An Environmental Review Summary report for the project has been prepared by IFC as part of its environmental and social due diligence. The Environmental Review Summary report together with a number of other environmental and social documents will be available for public review commencing on 13th February 2006 on the IFC website and at the following places:
