

University of Wollongong

RANKED NUMBER 1 FOR TEACHING PERFORMANCE

In August 2005, The Australian newspaper ranked UOW Australia's number one university for teaching performance, based on the Australian Government Department of Education Science and Training (DEST) 'Student Outcome Indicators for the Learning and Teaching Performance Fund'*

*The Australian, 12 August 2005

CRICOS Provider No.00102E

Think of study abroad, Think of a2z Study.

In my knowledge a2z is the most trusted and experienced consultancy house in Bangladesh. When I was thinking of going to Australia, I was really confused with the whole admission and visa procedures. I almost did my PhD on most of the consulting firms in Bdeh and procedures on visa matters. But end of the day I was really puzzled, exhausted and confused with all sorts of guidelines or requirements. At some point, I thought Australia is not possible for me. Then I heard about a2z Study. However, I was very impressed with a2z after just one visit. a2z has dedicated and friendly counsellors whom I now call Bhaya and Apni. I find a2z is very professional at work, they checked my preferences and interests to assist me selecting the right course and the right University. I am really thankful that a2z never got tired of my Qs rather they explained every details with maps, pictures, graphs and VDOs. I actually learned before hand how to settle in Australia. a2z has excellent offices at two most convenient locations in Dhaka. People feel part of Australia once they get into a2z.

Chinmoy Kumar Saha
Studying MSc of IACT at UOW, Australia

I was really surprised to know that a2z is actually admission centre for Uni of Wollongong (UOW) & few other Uni-Colleges. So a2z can issue Offer Letters & COE from Bdeh. I think, this is really unique and helpful to save time & money for Bdehi st. Whatever it is, I actually ended my search at a2z Study. What I like most about a2z is they make things simple for st. Therefore the whole process didn't take much time to complete. a2z made me feel confident not to lose my hope and have trust on them.

Who SAID: "Getting Australia St Visa is difficult?"
You will change your perception when you visit a2z. YES a2z has limitations as they can't arrange sponsorships, they don't co-operate if things are not genuine. But I find it very reasonable as a2z always insists on assisting only bona fide st. So they don't necessarily assist everybody.

Now, let me tell you Australia. I still don't know why they call "Land down under". But Australia is truly amazing, everything looks like framed pictures. There are ample opportunities for everything here. I have rediscovered sports in Australia. Sydney is truly multicultural city so I don't necessarily feel homesick. I have already made few friends from different nationalities. Keep in mind that Australia is expensive city. Possibly less expensive than UK or USA but still expensive for us. But the good news is, I have managed to get a job right after arriving here. So I am now giving best effort to balance study and work. Lastly, it would be really unfair if I don't mention about Uni of Wollongong (UOW). When I arrived here, my first impression was "Oohh My God I Can there be any beautiful campus than UOW in the world". I am really lucky to get myself admitted at UOW. On one side of the Campus there is mountain and ocean on the other side, it's truly magical. I am proud to be part of No-1 Teaching Uni of Australia. I'll be happy if my message reaches out other Bdehi st. I am here to welcome you all. Feel free to write to me at chinmoy@gmail.com
