

31 more dengue patients hospitalised

STAFF CORRESPONDENT

Thirty-one more dengue patients were admitted to different hospitals and clinics in the capital yesterday, raising the number of dengue infected people to 1007, according to a Dhaka City Corporation (DCC) press release.

The DCC said 319 patients are now undergoing treatment at different city hospitals and clinics and 25 people were released from hospitals on Saturday.

While visiting the hospitals and clinics, health workers of the DCC found 17 new dengue patients at Holy Family Hospital, four at

Sumona Clinic, three at Shamaria Hospital, two each at Mitford Hospital and Bangladesh Medical College Hospital (DMCH) and one each at Bangladesh Community Hospital, Police Hospital and Parkway Hospital.

The DCC asked the city dwellers not to panic saying it is contin-

uing to fog and spray larvicide within 500-yard perimeters of the houses of a dengue-infected patients.

It also appealed to all to keep their houses and surroundings clean to help stop the spread of Aedes mosquitoes.
