"Surely You're Joking Mr Feynman!" Adventures of a Curious Character Richard P Feynman Price: Tk 650.00 (BFM) Winner of the Nobel Prize for Physics in 1965, Richard Feynman was one of the world's greatest theoretical physicists, but he was also a man who fell, often jumped, into adventure. An artist, safe-cracker, practical joker and storyteller, Feynman's life was a series of combustible combinations made possible by his unique mixture of high intelligence, unquenchable curiosity and eternal scepticism. Over a period of years, Feynman's conversations with his friend Ralph Leighton were first taped and then set down as they appear here, little changed from their spoken form, giving a wise, funny, passionate and totally honest self-portrait of one of the greatest men of our age. The Rumour of Calcutta Tourism, Charity and the Poverty of Representation John Hutnyk Price: Tk 700.00 John Hutnyk analyses representations of Calcutta in a wide variety of discourses: in the gossip and traveller-lore of backpackers and volunteer charity workers; in writing-from classic literature to travel guides; in cinema, photography and maps. Throughout, the focus is on the technologies of representation which frame experiences of Calcutta, particularly Calcutta as decay. Hutnyk shows how specific practices and technologies--of tourism, representation and experience--intricately combine to reinforce and replicate the conditions of contemporary cultural and economic inequality.
