

## Dhaka Day by Day

### A Symbolic Interplay of Values and Ideals

by Dali Islam

AT first glance at Mominul Islam Reza's accomplishments as a painter, one would get the impression that this art has been his passion from a very early age. It is surprising to know that the artist had realised his talent only after joining Bangladesh College of Arts and Crafts in 1973. Though there is no doubt of his partiality to Fine Arts, he did not begin his career as a painter until after his graduation from University of Baroda, India, where he completed his Masters of Fine Arts while specializing in Creative Painting.

Mominul Islam's achievements as a painter are impressive. Apart from participations in various group exhibitions in Bangladesh as well as Japan, China, Malaysia and India, Mominul Islam has had three solo public displays of his works. His first major solo exhibition was held at the Bangladesh College of Arts and Crafts in 1982. Alliance Francaise hosted his second exhibition in 1986 which was closely followed by his third solo at Hotel Sheraton in 1987. His fourth exhibition is currently being held at Alliance Francaise.

Mominul Islam has received many recognitions for his painting. Among other awards, he received a special prize from Bangla Academy in painting in 1974 and was awarded the Best Young Artist prize by Bangladesh Shilpakala Academy in 1982.

Islam is currently a part time lecturer at the Institute of Fine Arts, University of Dhaka. According to him, the educational system is rather restricting to the future of painting in Bangladesh. The syllabus offered by the Fine Arts institutions do nothing to liberate and help the artists to realise their potential. Very little emphasis is given on self expression and

individuality and as a result aspiring artists feel constrained within the boundaries erected by the institutions.

Moreover, this young artist feels that the social context of the futurity of a future in Fine Arts has resulted in drawing potential artists into the more "appropriate" professions of Engineering and Medicine. However there is no denying the aesthetic sense of the public. After all it is they who have brought fulfilment into Mominul Islam's profession.

The exhibition currently being held at Alliance Francaise presents most of Mominul Islam's recent works. He deals mostly with the relationship between simple forms, colours and space. All of Islam's paintings are symbolic. Through basic, ordinary subjects, Mominul Islam depicts the intrinsic nature, values and ideals of human life.

"Composition" is a non-objective piece with its interplay of various blends of blue and white leaving one with a sense of peace and tranquillity. "Composition" is part of the "Sleep" series reflecting freedom and independence.

Mominul Islam depicts the inherent destructive nature prevalent in people through "Festival". This painting of a solitary decoration lying abandoned on a green plane is a powerful piece.

The uncertainty of future is shown in "Cradle" — a cradle suspended in mid-air against a background of infinite space.

The emotions that Mominul Islam has brought into his paintings make his work well worth viewing. His solo exhibition "My Works" being held at Alliance Francaise from 12th July to 31 July is yet another achievement in his already noteworthy career.

## Owners conceal real rent : 2,517 served with notices Huge revenue losses for building houses in 3 residential areas

Education Minister Prof Badruddoza Chowdhury told the Jatiya Sangsad Sunday that since the stated costs were less than the real costs of construction of many houses in Gulshan, Baridhara and Banani, it was causing huge revenue losses to the government, reports BSS.

Answering a question from Col (Retd) Shawkat Ali (Al-Shariatpur), the Minister said the government was also apparently suffering substantial revenue loss as there was a big gap between the declared and real rent of a huge number of houses in the areas. He said in

some cases two different deeds for rents were executed. He said a total of 2,517 houses owners in the three residential areas were served with notices to furnish necessary information.

the date and cost of construction of the houses, the quantum of rental received, if rented, and the process of renting.
