Parliamentary system

From Page 1 Col. 2 The bills were put to vote on Tuesday after five days of intensive discussion on their general principles and clausewise amendments. A total of 700 amendments of the bills were proposed by MPs. Three amendments to the 12th Amendment Bill and one ame ndment to the 11th Amendment Bill were accepted. The rest of the amendments were rejected by voice votes.

The Constitution 12th Amendment Bill proposes to bring about the following basic changes:

1. President, to be titular head of state, will be elected by Parliament;

2. The Prime Minister will be the Chief Executive; 3. The Cabinet will be collectively responsible to the

parliament; 4. MPs defying the leader of their party in parliament will lose membership;

5. President will act on the advice of the Prime Minister: 6. Written advice will be re-

quired in respect of calling, proroguing sessions and dissolution of the Parliament. However, before dissolving a Parliament the President will have liberty to determine if anybody else enjoys support of a majority of the MPs to become Prime Minister.

7. Referendum will be required to amend the Preamble, Articles 8 and 48 of the Constitution:

8. Gaps between sessions of Parliament shall not exceed 60

9. Treaty connected with national security shall be laid in a secret session of the Parliament, and

10. One-tenth of ministers can be appointed from amongst non-MPs.

The amendments moved by MPs mainly stood for making provisions for election of President by secret ballot, instead of keeping the constitution vague on the point, guard against appointment of non-MPs as ministers, ensuring that members of the cabinet were responsible to the Parliament not only individually but also collectively, and for vesting the executive power of the republic in the President who is to exercise such power on the advice of the Prime Minister in accordance with the constitution; and to restrict the President's prerogative of mercy to the extent that sentences against murderers cannot be reprieved without the consent of heirs of murdered persons. Jamaat MPs also moved an

ernments for elections of Parliament.

Law Minister Mirza Golam Hafiz who piloted the bills in the House defended the provision for appointment of non-MPs as ministers citing eximples in United Kingdom which, he said, was the model of parliamentary democracy. He said that provision of referendum was there in many constitutions including those of Australia, South Korea and Turkey. He argued that this was not against sovereignty of parliament which was the possessor of legal sovereignty. The popular and political sovereignty lay with the people who can chance parliaments. He told the Parliament that the cabinet of Winston Churchill of UK was wiped away by the British people after the second world war.

He said that provisions against floor crossing was needed to ensure stability and continuity of government. The Law Minister felt that it would not be good to tough the President's prerogative of

Mirza Golam Hafiz said that there could be no constitution which is free from defects. Again a foreign model cannot

The report which further stated that some Awami League leaders had communicated their party's intention in this regard to the Acting President on Monday last is mischievous, false and baseless.

The Acting President has absolutely no intention to be a presidential candidate either under parliamentary system or

Minister noted that a large number of industrial units had turned sick and unprofitable because of malpractices, corruption and serious economic mismanagement under long nine years of autocratic rule. The overall economic and fi nancial discipline was seriously violated by the vested interests tied up with the authoritarian regime, she said.

Begum Zia reminded the leaders of trade and industry that it was their responsibility to extend a helping hand to the elected government to enforce discipline, and infuse new vigour and dynamism into the economy under a democratic environment. "We are committed to a competitive free market economy and will expect you to respond to our programmes for economic rejuvenation," she said.

Assuring total support to the private sector, she sought constructive suggestions from it to break the fetters of economic stagnation and backwardness to attain the governments basic objective of self-reliance in national life. The present bills were of great national importance, he said adding these would lead to political stability and widen the path to economic self-reliance, help establish rule of law and peace improve the administration, and accelerate the process of development. Passage of the bills would automatically lead to solution to many problems. Terrorism would go, he hoped.

The Law Minister reongratulated all MPs for discussing the bills with great interest. The bills would create the basis for further amendments to bring about more improvements to the Constitution, he

Awami League Chief Sheikh Hasina said that her party was accepting the bills despite the fact that these contained some problems with the hope that further improvements could be brought about in future.

Deputy Speaker Sheikh Razzak Ali in his concluding remarks said that the JS had paved the way for establishemnt of parliamentary democracy at the cost of blood of martyrs of democratic movement. Paying rich tributes to them, and praying for their salvation; the Deputy Speaker thanked all who made the democratic movement a success. He also thanked the MPs for passing the two Constitution Amendment Bills. The clock struck 12-40 am when the House was adjourned till 7-30 pm today (Wodnesday).

Bill. It was a rare and heartwarming sight to see them literally walking towards making constitutional history. What they had worked for together over the years with the masses, they were now giving legal shape to with the support of their respective elected members in the House.

The spectators, violating the Rules of Procedure of the House burst into spontaneous applause as they saw their two leaders converge on the narrow passage between the galleries on their way to the voting lobbies. As they moved closer one could see the gentle nudge of Sajeda Chowdhury and Matia Chowdhury trying to bring them even closer as they walked. TV cameras and the official photographers jostling with one another in their at tempts to capture these historic scenes for posterity.

Turning point

From Page 1 Col. 8 eration, seemingly signalling an end to the days of autocracy in this country. By this act, our politicians showed respect to the martyrs who made supreme sacrifice for establishing democracy.

The Bangladesh Constitution was adopted on December 16, 1972 and since then it has been changed 12 times. The most radical change was effected in 1975 through the Fourth Amendment which introduced a presidential system and one-party rule.

The Fifth Amendment, passed in 1979, changed the basic state principles of secularism and socialism and barred the trial of the killers of Sheikh Mujibur Rahman. The latest change reverting

to parliamentary democracy comes in the backdrop of a long struggle against the autocratic rule of ousted President Ershad. The people fought for a system where the rulers will be accountable to them and there would be transparency in the administration. The unity showed by the politicians in the Jatiya Sangsad on Tuesday raise the hope that the nation may achieve the desired goal. But that can be achieved

only through the democratic culture of dialogue and tolerance. The change of system will mean nothing if we do not practice democracy in all spheres of our national life in administration, in decision making and in handling moot national problems. The administration under

the new system will no doubt confront lot of problems which will need a concerted effort to tackle them. The terrorism in the educational institution remains a vexing problem and the politicians should demonstrate the same unity of purpose to cleanse the campus and to steer the national economy towards self-reliance.
