## Mortgage Insurance

Best way to relieve family of debt burden in event of borrower's early death

\* Under this plan, sum assured decreases uniformly over the term to become zero at end. In case of 10 year term, for instance, sum assured decreases at rate of 10% every year. Decrease rate is 5% if term is 20 years, and so on. Suppose sum assured is Tk. 1 lac and term 10 years. If the insured dies in 1st year, Company pays Tk. 1 lac. If he dies in the 2nd year claim is Tk. 90,000, in the 3rd year Tk. 80,000, and so on.

\* From the claim, lender's dues are settled immediately and remaining sum is paid to the family. (If the assured so wants, full claim may be paid to the family instead.)

Annual premium per Tk. 1 lac of initial sum assured

Age at entry	Term of insurance		
	10 years	15 years	20 years
35 years or less	Tk. 200	Tk. 230	Tk. 270
36 to 40 years	" 260	" 300	" 370
41 " 45 "	" 440	" 520	" 630

Premium rate will be supplied by the Company if the age is over 45.

\* There is another mortgage insurance plan under which all instalments becoming due after death will be paid to the lender. In both, the Company may have agreement with the lender so that its dues are settled first.

\* For interest of the assured, a mortgage insurance should remain attached to an insurance policy of endowment family.
