#### BASIC helps develop industrialisation

Star Economic Report

The Bank of Small Industries and Commerce (BASIC) has been playing a vital role to help develop country's industrialisation process.

This was stated by Industries Minister Shamsul Islam Khan at the inaugural ceremony of the 9th branch of BASIC at Moulvibazar, Gulbadan Market in Dhaka on Sunday.

He said BASIC is a scheduled bank of the country and the government has a share of the bank. The minister called up the people to make all kinds of transactions with the bank without any fear or anxi-

Lt General (Rtd) Mir Shawkat Ali (Bir Uttam), who attended the function as the special guest, said BASIC has developed an improved customers' service introducing computer technology and complete banking facilities.

He called upon the local people to strengthen lending operations with the bank for the greater interests of the country...

BASIC Chairman Alamgir M A Kabir, speaking on the occasion said the bank had approved Taka seven crore loan for 27 small and cottage industries so far. This will create employment opportunities for 1826 people. The profit of the bank goes to public exchequer and is spent in the welfare ori-

Management problem is one of the key issues which is responsible for no-income from the disinvested units.

The government authorities together with semi-government sector corporation had been holding the majority portfolios in the management, This created the biggest crisis in the management.

On the other hand, it is alleged that the minority members in the managing commitof selling by tender comes tee i.e. the directors from outside the government holding again take place and the portion of shares in most of these cases become interested for their personal gains in collaboration with the government and corporation representatives. Such step-motherly attitude of the government and corporation representatives, the private portion representatives also started becoming satisfied with certain amount of personal benefits which included improper advances in case of banking companies, which are alleged to be so thousand crores of Taka and in cases of companies other than banking companies i.e. industrial units, crores of Taka in the form of advances of different types of materials suppliers and other private parties of their own, where those directors have their financial involvements and personal interest. Misuse of company vehicles for their personal use is also alleged. It is alleged in particular that, inspite of the fact that the company failed to earn profit, brand now costly cars were procured for these members in the Board of Directors. Besides, there are instances of not holding Annual General Meetings of some of these companies in time, which is also a very big type of irregularity. All these are the additional causes of

With a view to driving away these types of irregularity and corruption, dual management should be withdrawn first. According to the recent announcement of the government, steps are scheduled to be taken for the withdrawal of dual management. Government holdings are going to be sold to the investing public, it is learnt. But, the policy and system of selling these shares must not be improper. If it is improper and not perfect, the entire privatization policy will fail and that create a very serious problem in the field of industrialisation in the country.

As such, it is expected that

the government will take very careful steps by way of very proper valuation of those units which will be fully distnyested and thus the privatisation policy will be successful. In this case, if the Government again fails to take proper steps, the entire policy of privatisation is bound to fail as it has actually been disturbed by the behaviour of subsidiary companies. So, it will be proper to divest the Government owned shares through prospectus on the basis of proper valuation and not by auction. If again the process of auction is taken into consideration scopes of manipulation will seriously jeopardise the entire privatisation policy of the government (concluded).
