was thought of, and used, as a foreign policy tool. The paper shows that intelligence sharing was an important policy consideration because it provided the United States with access to the highest levels of Iraq's government", he said.

One document on policy options lists ending intelligence cooperation as among 15 potential sanctions the United States could apply.

As an argument in favour of doing so, it states that the exchanges 'still provide Iraq with limited information on Iranian military activity that would be missed," if they were cut off.

But on the other hand, ending this contact would close off our very limited access to this important segment of the Iraqi establishment," the paper said.
