"We can't help it," one chicken vendor at Mirpur Municipality Market said," few chickens are reaching by train from the rural areas and the wholesellers are making cash out of it within seconds.I managed to get only 200 chickens after a lot of tussle with the whole sellers".

Rickshaw vans, trains and boats are bringing in supply of the essentials in the city which are far less the required amount, according to vendors.

Prices of fresh vegetables also went up by one to two Taka per kg. Patal costs Taka eight from six per kg while prices of papya costs Taka eight from six a few days ago.

"If the strike continues," spices vendors say," you will soon have to buy everything at enhanced prices... no sooner our stock finishes!" However the prices of some essentials like rice and ata have shown no such notable changes.

Seoul auto firm seeks permission for jt-venture

SEOUL, June 27: The Samsung Business Group, South Korea's largest conglomerate, applied Tuesday for government approval of its plan to produce commercial vehicles in technology tie-ups with a Japanese company, reports AP.

Korea's present auto makers, however, objected strongly to Samsung's plan, fearing a production glut in the nation's slumping auto industry. Samsung plans to invest 92 million dollar to build a plant that could produce 4,800 trucks and tractors a year.

The Trade and Industry Ministry received an application Tuesday from Samsung Shipbuilding and Heavy Industries Co. the groups main subsidiary, to introduce technology from Japan's Nissan Diesel, ministry officials said.

Samsung's project will be carefully evaluated, they said. Any Korean companies seeking to manufacture cars jointly with foreigners must obtain government approval under laws designed to protect domestic businesses.

As in 1990, when Samsung's first bid to enter the auto industry was rejected, major auto makers have urged the government to turn the company down again.
