## Krabbe & co. can run in Barcelona | Slaney's Olympic | Long jump pit is Lewis' lot

LONDON. June 29: World double sprint champion Katrin Krabbe was eleared to run in next month's Bar

celona Olympics after the International Amateur Athletic Federation (IAAF) decided on Sunday not to impose a four year ban for an alleged doping offence, reports Reuter.

A three man IAAF arbitration panel found after a two day meeting that the German Athletics Federation's (DLV) legal commission had correctly overturned a four years ban on Krabbe and two other former East German teammates imposed by the DLV in January.

The DLV suspended Krabbe, Grit Breuer and Silke Moeller after the trio returned identical urine samples during random testing at a training camp in South Africa.

On April 5 the DLV's legal commission overturned the decision and the IAAF decided to submit the case to its own independent arbitration panel.

The panel decided it had to uphold the legal commission's decision as it was correct under German law.

Significantly, though, it accepted evidence from Manfred Donike, head of the Cologne Drugs Laboratory, that the samples had come from the same person and that they had not been tampered with on the way to Cologne.

IAAF sources said the panel had been forced to uphold the legal commission's decision

world champion Seppo Raty.

Krabbe herself announced the decision when she emerged from the IAAF's London headquarters on Sunday evening and said simply: I'm free. I can't believe it."

Breuer, the world 400 me tres silver medalist, said: "Obviously we are very happy, we are extremely happy with the decision."

The trio's German lawyer Reinhard Rauball said he had been confident all along that the decision would go in their favour.

"In fact on the plane coming over I had the choice of water or Champagne," he said "I ordered Champagne."

A statement from the panel - which comprised Ellicott former Finnish Environment Minister Lauri Tarasti and Senegal's Assane Bassirou Diouf - said they had not found any serious breaches of the IAAF's rules during the random tests.

"One thing is quite clear from the evidence and that is that the samples analysed by the laboratory were identical and were the urine of the same female," Tarasti said.

IAAF general secretary Istvan Gyulai said he had been surprised at the decision.

He agreed that the trio had been cleared on a technicality and said he would be calling for legal advice to make sure were the same as the lAAF's.

### Regis ends Christie's domination

BIRMINGHAM. England, June 29: John Regis shattered Linford Christie's domi-

nation of British sprinting on Sunday after a thrilling 200 metres battle at the Olympic trials, reports Reuter.

On a day when Steve Backley handed out a warning to the world's javelin throwers, it was the battle of the sprint giants which took centre stage. Christie, in the best form of

his life, had been beaten fust once all year and hammered Regis in a 200 metres clash in Rome earlier in the month. With his 100 metres vic-

tory on Saturday, his boasts have all been about the possibility of a golden double in Barcelona. But Regis, who prefers to

let his feet do the talking, has other ideas. "There was no way he was going to get past me Olympic medal to the US today," said the 25-year-old, who burst into the home

straight fractionally ahead of Christie and used his phenomenal strength to hold off his rival's challenge at the tape.

His winning time of 20.27 sees was two-hundredths of a second better than Christie's but Regis was in no mood for gloating.

"It's been played up as the Christie Regis battle, but what it means to me is that I'm in shape and ready to go from strength to strength now." In third place was Regis's training partner Roger Black, who clocked a superb 20.65 + an encouraging sharpner for his 400 metres challenge in Barcelona. With the selectors an-

nouncing the team-today the first name of the team sheet should be Backley's. The European champion

outlined his golden credentials with an 88.14 metres first round effort, his longest since breaking the world record in January. Yvonne Murray predictably

outgunned Liz McColgan for the second time in nine days to win the women's 1,500 metres but the pair produced superb runs which bode well for their respective Barcelona 3,000 metres and 10,000 metres challenges.
