Financial crisis may hamper potato farming

NETRAKONA, Nov 21: Potato production in the district this year is likely to fall short of the target as the growers are facing financial constraints, reports UNB.

Local leaders said most of the growers had not been able to repay their loans taken last year because of the low price of potato.

This year financing institutions would not advance credit to these defaulters, which would prevent them from potato cultivation this season, they said.

Local leaders have urged the authorities to extend time to repay the loan and sanction new loan to the potato growers to boost production.
