Rotarians in Bangladesh have played a "very dynamic role" in trying to help improve the quality of life of the people said Dr Robert Barth, the visiting President- elect of Rotary

In an interview with The Daily Star at his hotel suite yesterday, the incoming Rotary International (RI) President for the year 1993-94 also dwelt on the progress of Rotary programmes initiated in Bangladesh, possible areas of future projects, the recent inclusion of women in the 88year-old service organisation and the overall future direction of Rotary's activities world-

wide. The first Swiss national to be elected to the post, Barth, accompanied by his wife. Gerty, is here to participate in the three-day RI Asia Zone-4 Institute due to begin in the capital today.

Terming Zone-4, with 11 member countries, an important zone among the organisation's 186 member nations, he said "I am happy that the Institute is being held in Bangladesh" as the Rotarians here "are very strong and ac-

Divided into 502 districts, RI has 26,000 clubs with over one million members around the world.

In Bangladesh, there are 87 Retary Clubs with some 1500 members and 100 Rotaract Clubs.

This is for the first time the Zonal Institute is being held in Bangladesh, which will be participated by senior Rotary officials from the Asia-Pacific re-

The Asia Zone-4 comprises Brunei, Republic of China, Hongkong, Korea, Macao, Malaysia, Indonesia, Philippines, Singapore, Thailand and Bangladesh.

Underlining the importance of a Rotary Institute meet, Barth explained: "The Zonal Institutes are the real force behind an idea to serve humanity and local Rotarians are ideal partners in developing such ideas."

Each of the 26,000 clubs around the world have its own programmes and activities, he said, but there are ideas which a single club alone cannot fulfil This is where cooperation among different clubs can help and holding the institute helps achieve that goal.

"Through the Foundation, Rotary International has become an enormous power to fulfil the ideals of Rotarians. Barth said.

He said all the major projects undertaken in

Rotary International chief interviewed

RI plans to eradicate polio by 2005

Metropolitan =

By S Y Bakht

Bangladesh are progressing satisfactorily. Rotary is involved in the immunisation programme as part of its worldwide 'Polio Plus' project and provides all vaccines and also provides services of local clubs in the immunisation activities,

Rotary has donated over eight million US dollars for the immunisation programme in the country.

Dr Barth

Rotary's involvement in the Polio Plus programme began as a regional initiative in the Philippines. "The success of the programme made it seem that Rotary could make a major effort to control polio through out the world," he added.

Towards that effort R! raised 240 million US dollars for the programme and now has an ambitious plan to cradicate polio by the year 2005, the 100th founding anniversary of the organisation.

He pointed out that after the extended programme on immunisation (EPI) was initi-

ated in Bangladesh by UNICEF with the help of Rotary, in 1986, the immunisation rate increased from around three per cent of the children to about 91 per cent in 1992.

"Rotary is a high standing civil voluntary organisation," he said. "It is a model as to how a state organisation and a private organisation can work together."

Rotary has also helped set up an inland fisheries project in Comilla, a poultry and livestock project in Mymensingh, the first cancer detection centre in the city and also or ganises rural eye camps regularly. Over 27,000 patients were operated upon in the eye camps last year, he added.

On the future projects likely to be initiated by RI, Barth said that worldwide programmes on literacy, prevention of drug abuse and fighting the Acquired Immune Deficiency Syndrome (AIDS) will get pri-

Rotary will give special emphasis on removing illiteracy throughout the world. Removing illiteracy is some thing each employer should help in and it also goes to Rotarians in their function as employers, he added.

On the inclusion of women he said "it was a very good move and corresponds to reality." There are currently some 40,000 women members around the world, including some in Bangladesh, while there are two all women Rotary Clubs in Taiwan and the Philippines, he added.

Barth noted that Rotary involvement in many "hands-on" social services have increased after women became members

What's on today •
