Study on use of ODS to be undertaken soon

A country study on use of Ozone Depletion Substances (ODS) would be undertaken soon to identify measures to reduce their use and ultimately phase them out, Environment Minister Abdullah Al-Noman said here yesterday, reports BSS.
The Minister said Bangladesh was concerned about the problem of ozone layer depletion created mainly by the consumptive pattern of the developed world catering to their needs.
Speaking as the chief guest at a workshop on "use and management of ODS in Bangladesh" the minister said ODS use in the country was still far below the acceptable limit of 300 grammes per capita.
According to a reconnaissance survey on "use of ODS in Bangladesh" and presented at the workshop per capita consumption of ODS was 175 grammes and total annual consumption in the country was 206 metric tons only.
They study was conducted by Bangladesh Centre for Advanced Studies on behalf of UNDP and the Department of Environment (DOE) as a part of government's obligation under the Montreal Protocol which identified five types of CFCs and three types of Halons as ODS the protocol recommended phasewise reduction of ODS production and emission with 50 per cent reduction of 1986 production level by 1998, where the developing countries will get 10 years grace period to comply with the control measures.
Organised by the Department of Environment in association with the UNDP the inaugural function of the workshop was also addressed by the Secretary of the ministry Abdus Salm Director General of DOE Risalat Ahmed, UNDP Assistant Country Representative Christin Soperel, leader of the study team Prof. Mahbubul Haq and consultant engineer Khurshidul Islam.
