Hurd urges UK businessmen to invest in India

LONDON. Nov 22: British Foreign Secretary Douglas Hurd on Sunday urged British businessmen to make the most of India's changing investment policies and invest more in the fast expanding Asian market, reports Reuter.

He told BBC television: "India has changed its policy. It is now deregulating liberalising, welcoming outsiders.

"All one can see here is a market in which we have a distinct advantage which, having been a very difficult market, is now becoming easier because of liberalisation and policies which actually make sense from a British point of view.

The climate has changed substantially in the last two years, and is much more favourable.

Russian economy won't start recovering until '95

MOSCOW, Nov 22: Russian Privatisation Minister Anatoly Chubais said on Saturday the countrys' struggling economy would not start recovering until 1995, ITAR-Tass news agency reported, says Reuter.

Chubais told factory directors and intellectuals in the western town of Vladimir that industrial production, which has slumped by around 20 per cent since radical economic reforms were introduced last year, should stabilise next year. "This Russian economy will

The real situations different. These things cannot be done tomorrow or the day after tomorrow, he said. stressing only the current government could be trusted with reforms.

Chubais said the governments' strict financial policies had helped cut monthly inflation from 2.6 per cent in August to what he said would be only 15 per cent in November.

He also said the government was considering whether to raise the question of a cut in central bank interest rates. which would make credits cheaper.
