another letter to the Aponjan A so-called social welfare organisation appears to have scant regard for the welfare of pair the ground floor under people whose lives may be en the "supervision of a deputy dangered by its own unauthoassistant engineer of the concerned ministry" in a manner rised actions.

Unfortunately, the relevant authorities, although fully aware of the wrongdoings and subterfuge, being resorted to by the guilty party, have made little effort to rectify the situation. This rectitude may prove fatal, for God knows how many

The incident relates to a rundown, three-storied 'vested property" building in the older part of the city and plans of one of its co-tenants to 'repair' or 'remodel' the nearly 80-year-old structure. According to those who disagree with the repair plans, the building is in imminent danger of collapsing on unwary passersby, anyday, because of

faulty reconstruction. Ramdas Sarker and his family have been living in the three-storied building, a vested property controlled by the Ministry of Land, at 74, Shakharibazar Road since 1975. The district administration granted Sarker the first and top floors of the residential building on a 99-year lease. Meanwhile, the ground floor of the building was allotted, on similar terms to a "social welfare" organisation called Aponjan.

However, recently, the Aponjan men have seriously damaged the walls, and broken two beams, from the same side, supporting the roof of the ground floor, in the name of repairing their part of the leasehold.

Consequently, the building has now been exposed to the threat of collapsing, with the Ramdas family, still living in side the structure, on the passersby on the busy Kabiraj Gali, a link lane between the Shakharibazar and Sadarghat

Ramdas informed the authorities, concerned about the danger of any unplanned repairing steps of the old building, immediately after the Aponjan authorities had secured permission from the Additional Deputy Commissioner (ADC) (Revenue) to begin the repair works. But the ADC, curiously, took more than a week to reverse his previous decision. And by that time, the Aponjan men had enough scope to break a wall of their part of the leasehold.

Recently the ADC, issuing

state - both for the residents of the building and pedestrians using the Kabiraj Gali.

He has put forward a suggestion that the building should be repaired under a new plan designed by a professional engineering firm very soon.

Presently, a member of Aponjan and founder general secretary of the organisation. Shantanu Sur, while talking on the issue over the telephone. claimed that his organisation had obtained co-tenant Ramdas Sarkar's consent prior to the repair work.

Sur, however, admitted that

The building in question at 74 Shakhari Bazar in the older - Star photo part of the city.

hreatened her with eviction. However, Ramdas once again lodged a complaint with

the district administration and informed the deputy commissioner that the collapsed building was now only 'a matter of time'. The tilted building with severe cracks, both on the walls and floors of the first and top floors, is now resting on the broken walls of the ground floor and wooden supports from a building on the other side of the lane.

When contacted, Hafizur Rahman, the engineer who was supposed to supervise the repair works, said that the beams had been broken in his absence.

Describing the present situation, Rahman said: "It has reached a really dangerous he had no documents proving that Ramdas consented to any repair work on the dilapidated building.

Meanwhile, Ashraful Moqbul, ADC (Revenue), Dhaka, is learnt to have now endorsed a revised plan for repair of the building following a new design drawn by a professional engineering firm. But he did not specify any particular time schedule for completing the work to reduce the risk of the building collapsing on the passing pedestrians.

Talking to The Daily Star, the ADC admitted that the Aponjan authorities had violated the rules relating to repairing of a vested property,

and that his administration is
