**Aminul's painting show begins**

Aminul Islam's recent solo painting exhibition began at city's La Galerie on November 7. This exposition is significant in many ways. Not only is this his show after eight years, but the veteran artist of our country celebrates his 64th birthday on that day, and with this exhibition "La Galerie" reaches its 100th show since 1991.

Aminul Islam is one of the pioneers of modern art in this region, one who has been a ladder in Modernism's final battle for abstraction.

Although the artist did not have any shows for twenty years, he was not inactive as continued to work, experiment and create. To quote the artist himself "My last solo exhibition was held in 1974 and I waited for twenty years, experimenting all the time to arrive at something unexplored, another mystery of creative process - the most important sacred and joyful experience through the primordial path of creation - my recent paintings."

This exhibit will remain open till November 13, says a press release.
