Plans underway to modernise Ctg Port

· From Nurul Alam

Arab move to bolster flagging internal trade

CHITTAGONG, Jan 7: Plans are underway for restructuring and modernising the country's southeastern port of Chittagong in a bid to speed up handling of foreign cargo vessels as well as to cope with growing need of shippers by the year 2020, official sources

The recent unexpected increase in the volume of containerised cargo traffic at Chittagong port prompted the authorities to plan for expansion of its infrastructure with modern equipment and facilities to match other Asian ports, sources added,

The major port on the bank of the river Karnaphuli close to the Bay of Bengal, Chittagong port had installed a handling

Food stock in govt godowns stands at 6.50 lakh tons

Present stock of foodgrains at government godowns has stood at about six and a half lakh tons following arrival of seven ships carrying more than two and a half lakh tons of foodgrains from abroad last month, an official handout said today, reports BSS.

Besides, a quantity of one lakh seventy five thousand tons of foodgrains is expected to reach the country under food aid programme and cash purchase in the next month.

Arrangement has also been made to procure another one lakh seventy five thousand metric tons of foodgrains through international and local tenders and cash purchase in March '95.

As a result, there will be more adequate foodgrains security stock in the country before the next boro seasons.

On the other hand, total withdrawal of import duty on rice and reduction of import duty on wheat from 15 per cent to 7.50 per cent have created a momentum in the private sector to import more foodgrains from abroad. A good number of LCs have already been opened with the government and private sector banks for this purpose.

Seven ships which arrived last month with foodgrains are as follow.

M V Vera carrying 7,500 tons, MV Anengel Harizon carrying 25,000 tons, MV Kitaning carrying 78,694 tons, M V Lantau trader carrying 24,735 tons, M V Tonk Hai carrying 22,657 tons, M V Omi Clumbia carrying 82,300 tons and M V Stenbarg carrying 23,410 tons, totalling 2,64,296 tons.

47 district hospitals to be developed

HABIGANJ, Jan 7: A total of 47 district hospitals and 180 thana health complexes will be developed in phases under the government's development schemes in the next couple of years, reports UNB.

Finance Minister M Saifur Rahman disclosed this while inaugurating the newly built 100 bed Habigani Sadar Hospital here on Friday, said an official handout today (Satur-

Rahman said government have already taken up construction of some 18 district hospitals under the development schemes of the current fiscal year with World Bank assistance.

He said another 55 thana health complexes will be brought under the programme in the next couple of years, each with a capacity of 31

This year alone government has allocated Tk 1560 crore in the health sector including a development budget of Tk 900 crore with a view to achieving "Health for All" by the year of.

Government's contribution in health sector development budget is 61 per cent.

The function was also addressed by Nazir Hussain, MP. Health Secretary Syed Ahmed and BNP leader Haris Chow-

The Habigani Sadar Hospital has been built at a cost of Tk 7.7 crore.

Earlier, the Finance Minister laid the foundation stone of

the proposed Habigani Purashava Bhaban to be built at a cost of Tk one crore.

Addressing the function the Finance Minister said the government in the last three years had sanctioned substantial amunt to the pourashavas for improvement of facilities extended to the people as basic civic needs.

Pakistan trying to cultivate pineapple on large scale

KARACHI, Jan 7: The scientists of Pakistan Council of Science and Industrial Research (PCSIR) laboratories, have undertaken studies on the cultivation of different varieties of pineapple, reports

Like banana, papaya and chikoo extensively grown in Sindh province the pineapple, a fruit of tropics can also attain the status of cash crop if grown on a large scale.

PCSIR said pineapple has a great potential for its cultivation in mild climate of lower Sindh province. Prelimmary trials on the introduction of this crop at certain, selected places, have given encouraging

The pineapple is biennial with short stem and rosette of stiff leaves. It has spiny tips and prickly margin and can attain a height of 3 feet.

China's nuclear power source produces electricity

BEIJING, Jan 7: China's first commercial nuclear-power source, the station at Daya Bay Enar Hong Kong, has produced 11.3 billion kilowatt hours of electricity since opening on February .1. 1994, the China Daily said today, reports Reuter.

The plant's two generating units, up until January 3, generated 10.78 billion kwh that were transmitted for commercial use, completing its annual target 29 days early. General Manager Zhou Zhanling told a news conference. the newspaper said.

The plant, equipped with French reactors, is expected to generate 12 billion kilowatt hours a year.

The results of seven monitoring stations within a 10-km (six-mile) radius show to damage beyond that originally forecast and no radiation leak. Zhou said.

"It is no different from any nuclear-power station in France in production, management and safety standards." the Xinhua news agency quoted Pierrre Decaix, Manager of Production at the power

station, as saying. . The dollars 3.9 billion plant is expected to pay back investment capital plus interest within 15 years, with a repayment rate of 12 per cent

per annum, Xinhua said. China has approved a second phase of the plant, to be built at Linago, six km (3.6 miles) away, that will have two 900,000 killwatt generating

US, EU agree on interim 6-month tariff schedule

units.

WASHINGTON, Jan 7: The United States and the European Union (EU) have agreed on an interim sixmonth tariff schedule while negotiations continue about EU enlargement's trade effects, according to USIS.

However, the two sides failed to reach even an interim accord on agricultural and paper products.

US Trade Representative Mickey Kantor announced the areas where agreement was reached January 4 in written

statement. Upon joining the EU January 1, Austria, Finland and Sweden raised tariffs on some imports to EU levels, which are higher on some products than these three countries had committed in prior agree-

ments with the United States. As a result, the EU must compensate the United States by reducing other tariffs. Under the interim agreement, the three new members will establish tariff-rate quotas

for imports of semiconductors. computers and computer parts, chemicals, records and tapes, optical fibers and lenses, medical instruments. oscilloscopes, orthopedic equipment, crayfish, plywood and aluminum. Up to some agreed quota

level each country will apply the tariff that would have applied had it not joined the E'J. and beyond that quota it will apply the normal EU tariff

lows the vast majority of US exports to Austria. Finland and Sweden to continue unimreach a negotiated agreement on permanent compensation."

Kantor said. Negotiations on agricultural and paper products will con tinue in the first half of 1995.

DPRK needs massive food imports Administration said.

Harvest fell abruptly last yr

SEOUL, Jan 7: North Korea needs massive food imports because its 1994 harvest fell one-third short of the amount needed to feed its people. South Korea's agricultural research body said Saturday, reports AP.

But analysts say the hardline communist country doesn't have enough foreign currency for such purchases. With a shrinking economy, the North is suspected of raising money through drug and arms sales as well as distribution of fake US currency.

which offset a 10.9 per cent North Korea's 1994 grain, rise in operating and developbean and other food harvests totalled 4.12 million tons, far ment expenditure. The trade deficit jumped short of the 6.72 million tons 541 per cent to 969 million needed to feed its 22 million ringgit from 151 million ringpeople, the South's governgit over the second quarter. ment-run Rural Development

Germany repaying Americans for pre-World War II bonds

BERLIN. Jan 7: Americans who've waited over 60 years for the interest on German bonds from before World War II now have a firm promise to get back 40 million dollars of their money by 2010, reports

Advertisements in some US newspapers this week advise Americans who hold four types of German Reich bonds, dating from 1924 to 1930, on how to exchange them for new issues from the Federal Republic of Germany.

"We've had quite a few claims already." Frank Gillick, an administrator of the programme at Deutsche Bank Securities Corp in New York. said Friday. The new bonds mature

October 3, 2010, and pay

three per cent annual interest

for 36 per cent to 40 per cent of face value, depending on the it's not the best little

until then; Or they may be sold

earner these days but better than zero, which is what the bonds looked like when Adolf Hitler stopped payment in the 1930s. Gillick said in a telephone

interview the biggest claim so far was for 40,000 dollar in face value, and several of the claimants wanted to sell once their claims were validated. Many original bond-holders or their heirs already received repayments of principal.

What's at issue now is interest that wasn't paid for varying periods between 1937 and 1952. and back interest to 1990. Germany's Federal Debt Administration is still trying to

identify those Americans who are believed to be eligible to claim 4.3 million dollars out of a total of 31.7 million dollars set aside for two of the bond issues. About five million dollars is unclaimed from 7.6 million dollars for the other two bonds. The bonds involved include

the German External Loan of 1924, called the Dawes Loan; the German International Loan of 1930, called the Young Loan; and the 1926 and 1927 External Sinking Fund Dollar Bonds of the State of Prussia.

Claimants need proof of original ownership or a chain of legitimate sales. Most bondholders registered with West Germany after Germany's old debts were regulated in the London Conference of 1953, when Germany was divided.
