DCC biological mosquito control programme

The Dhaka City Corporation has started a biological mosquito control programme by releasing mosquito-fish called "guppy" in over 2000 kilometres surface drains of the corporation, reports BSS.

Guppy, a small fish which lives on mosquito and other insect larvae, zoo planctons and diatoms in the drains, was introduced by the British in 1930 in the cities of the subcontinent as a biological agent. for mosquito control.

Chief Health Officer of Dhaka City Corporation Dr Mohammed Ashraf Uddin told BSS that they have started the programme on January 21 and it will continue for 45 days.

The Safeway Pest Control, a private firm, is executing the programme with the help of competent scientists and teclinicians.

Dr Ashraf said within 45 days guppy fish will be released in three cycles consist ing of 15 days each. He said in the first cycle eight out of 10 zones in the city have already been covered. Guppy fish are collected from the known sources especially from the drains of the city and then also released to the drains at the rate of 50 per cycle for every 100 feet of the drains, he

Dr Ashraf said simultaneously the drains are being filmed with malarial oil-B, a condensate of petroleum, and
