132/33 kv sub-station commissioned in Manikganj

Country needs addl 300 megawatt electricity annually: Mosharraf

MANIKGONJ, Sept 28: A 132/33 kv sub-station to improve the power distribution system has been commissioned in the district, re-

ports UNB. Energy and Mineral Resources Minister Dr Khandaker Mosharraf Hossain formally commissioned the sub-station at a simple

ceremony on Wednesday. The sub-station having a capacity of 2x35x50 mega volt ampere was built at a cost of Tk 16.14 crore including a foreign exchange component of Tk 12.18 crore with the financial and technical assistance from the

British government. The greater Dhaka distri-

release yesterday.

DHL Worldwide Express

bution project, a unit of Dhaka Electric Supply Authority (DESA) has constructed the sub-station on 5.88 acres of land, said an official handout.

With the commission of the sub-station power distribution system in Sadar, Navarhat, Aricha, Saturia, Gheor, Shibalaya and their adjoining areas will become stable and power disruption will greatly be removed. Construction of such a substation for stable power supply was a long felt demand of the district.

Commissioning the substation, the Energy Minister said, the country is now producing about 2000 megawatt

of electricity against its installed capacity of 2828 megawatt. He said the demand of electricity in the greater Dhaka in 1991 was only 450 megawatt which has now been increased to 850 megawatt. The country needs annually an additional 300 megawatt electricity to cater to its increased demand which involves about Tk 250 million crore.

"The power generation, transmission and distribution network is very capital intensive." Dr Mosharraf said adding, "it is not possible for the government alone to provide necessary fund in the sector to cope with the ever

increasing demand of electricity. "That is why the government has opened up the power generation to the private sector to supplement the government efforts," he added.

The function was also addressed by Chief Whip of Parliament Khandoker Delwar Hossain. Member of the Parliament Alhaj Nizamuddin Khan, Chairman of DESA Amanul Islam Chowdhury and General Secretary of DESA CBA Abul Hossain.

Deputy Commissioner of Manikganj Nazrul Islam. president of DESA CBA Kazi Mosharraf Hossain and high officials of DESA were present on the occasion.

Rapport training executives held

A training course on public relations organised by Rapport Bangladesh Limited for 60 senior and mid-level executives of Singer Bangladesh Limited was held on Wednesday and Thursday at Rajmoni Isha Kha Hotel, says a press release.

Dhaka-Delhi cooperation on tourism urged

The State Minister for Civil Aviation and Tourism, Abdul Mannan, Wednesday called for greater cooperation on tourism between Bangladesh and India, reports

Addressing a meeting of West Bengal Chamber of Commerce and Industry in Calcutta, the state minister said that trade between Bangladesh and India was growing very fast. He referred to the initia-

tive taken by Bangladesh to form and strengthen SAARC and in the implementation of the SAARC Preferential Arrangement (SAPTA), a message from Calcutta said.

The minister gave an idea of various projects undertaken by the government for the overall development of tourism in Bangladesh.

He also mentioned Bangladesh's initiative to develop cooperation between the two neighbouring SAARC countries in the area of tourism.

Earlier, in the morning. the state minister attended the inauguration of a tourism convention entitled 'Hospitality Challenges-2001 and Hotelica' at Netaji Indoor Stadium, Calcutta, and visited Bangladesh Parjatan Corporation stalls.

He met Golam Nabi Azad, the Indian Minister for Tourism and Civil Aviation, and exchanged views on promotion of tourism between the two countries as well as civil aviation matters.

\$ 100 bills with special security features unveiled

WASHINGTON, Sept 28: Ben Franklin is bigger, slightly left of centre and may be even looks a little more youthful on the new 100 US dollar bill, reports AP.

The new-look Franklin was on display Wednesday as the government took the wraps off its new bill to launch the first overhaul of US currency in nearly 70

The change is primarily the result of US concern with forgers overseas, where about two-thirds of the 390 billion dollars in US paper money is in circulation. Greenbacks account for about one-fifth of

the world's currency supply. "We must stay ahead of the rush of technology," said Treasury Secretary Robert Rubin. Modern computers

and colour scanners could pose a threat to the greenback if the United States failed to act, he said.

Under tight secrecy, the Bureau of Engraving and Printing has been producing the new 100 dollar bills for 10 days. It will be early next year before the general public can get its hands on them. And it may be the turn of

the century before all the smaller denominations right down to George Washington on the one dollar bill - are revamped. The government picked

the 100 dollar bill for the first makeover because of its favoured status with counterfeiters. The portrait of Franklin, a

pioneer in campaigning for paper currency, is 50 per cent larger than on existing bills and extends from upper to lower border.

Of the numerous security features in the new bills, some are hidden while others change the appearance of the notes dramatically.

In the lower right-hand corner, the denomination of the bill has colour-shifting ink. The number 100 changes from green when

viewed head-on to black

when seen at an angle.

The watermark portrait of Franklin at the far right can be seen when held up to the

Call money rate

Money rates in the call money market during the week ended Wednesday ranged from four per cent to seven per cent, a Bangladesh Bank press release said yesterday, reports BSS.

During the same week interest rates offered by the bank on certificate of deposits varied from two per cent to 7.75 per cent.

The bank rate, however, remained unchanged at 5.75 per cent.

the treasury in 1996.

BRIEFS Bank due tomorrow

IMF questions WB's debt relief plan WASHINGTON, Sept 28: A

senior International Monetary Fund official voiced caution on Wednesday about a new proposal to allow the world's poorest nations to write off some of their 200 billion dollars in foreign debt. Jack Boorman, Director of the Policy Development and Review Department, told reporters that the IMF had some "questions" about the plan and that further work was needed to determine its feasibility, réports Reuter.

Italian cabinet okays budget plan ROME, Sept 28: Italian

cabinet late Wednesday approved a budget plan for next year aimed at cutting the budget deficit by some 32.5 trillion lire (20.2 billion dollars). Around 15.5 trillion lire of that will come through spending cuts, with the remainder coming from new receipts. The measures will reduce the public deficit from 130 trillion lire this year to 109.4 trillion lira (67.9 billion dollars) in 1996 reports AFP.

10m Americans have access to Internet

SAN FRANCISCO, Sept 28: Almost 10 million American adults have access to the Internet and another six million are expected to join them on line over the next year, according to a survey released Wednesday, reports

The survey found that 5.8 million American adults had direct access to the Internet the world's largest public computer network, and 3.9 million have access by subscribing to commercial online services such as America Online, CompuServe and Prodigy.

The survey. "Defining the Internet Opportunity," was commissioned by O'Reilly and Associates, which publishes books to help Internet users, and Trish Information Services.

Based on those figures, O'Reilly estimated on-line users in the United States will grow by another 6 million adults over the next 12
