# Gold consumption in India soars

SINGAPORE, Nov 22: Gold demand in developing nations surged by 17 per cent from a year ago to 1,355 tonnes in the first nine months of 1995 on the back of heavy Indian consumption. the World Gold Council said in a report received here. reports AFP.

The figure included demand for 466 tonnes recorded in the three months to September — the highestever third-quarter for gold offtake, or consumption by developing countries.

The gold-hungry developing economies included Brazil, China, the Gulf Hong Kong, India, Mexico, South Korea, South-East Asia, Taiwan and Turkey, said the Geneva-based World Gold Council, which tracks demand in leading gold-con-

> hedge," it said. Aggregate demand for the yellow metal in China, Hong Kong and Taiwan grew slowly at two per cent to 325 tonnes in the first nine months of 1995, with thirdquarter growth declining by eight per cent.

Overall demand in Indonesia, Malaysia, Singapore, South Korea and Thailand was also down by 10 per cent in the third quarter, partly due to exceptional growth a year ago.

Protest against Aussie mining co

Another report from India says: This southern Indian mining town remained paralysed Tuesday following a

strike to protest a proposed project by Australian mining firm Normandy Gold Mines Co, police said.

"The protest was total, no buses moved, all the business establishments were closed including various mines operated by the Bharath Gold Mines Ltd. police superintendent, T. Sunil said.

The protest call, given by the Republican Party of India, demanded a ban on the entry of the Australian firm into the town as "it would pose serious health hazards to the people".

A spokesman for the staterun Bharat Gold Mines Ltd. which is also engaged in gold extraction in the region, said the government has not yet cleared the Australian firm's project for extraction of gold from Kolar Gold Fields.

for movement of goods across the territories of all the South Asian Association for Regional Cooperation (SAARC) countries to give the much needed momentum to expansion of intra-regional trade, reports PTI. in SAARC states suggested concluded here on November

'Integrated transit system'

Keeping in tune with the recommendations of the IEG. the SAARC countries at the CEC meeting decided to hold negotiations early next year aimed at lowering trade barriers including border tariff concessions.

The commerce secretary level SAARC CEC meeting also decided to constitute an inter governmental group of experts to bring out a comprehensive report on proposed transition of South Asia from a preferential trading area to a free trade area with all tariff and non-tariff barriers totally eliminated.

The meeting also approved the operationalisation of the SAPTA from December 7. As per the first stage of regional trading arrangement under the SAPTA, the sevenmember SAARC countries would exchange tariff concessions among them on 226 items.

Officials and experts say the IEG study, which concentrates mainly on two major areas of regional cooperation - promotion of international trade through preferential trading arrangements and cooperation in other related areas such as payments and clearing arrangements, trade finance settlement of commercial disputes, trade facilitation measures and transit facilities can be an useful input for discussions on expansion of intra-regional trade in the SAARC region.
