India unveils \$75b annual export strategy

NEW DELHI, Dec 28: India yesterday unveiled an export strategy focused on 15 products and 15 countries in an effort to meet an annual export target of 75 billion US dollars by the end of the decade, reports Reuter.

"Put your money where your market is," Indian Commerce Minister P Chidambaram told exporters and business leaders.

The strategy is designed to help increase India's share of world trade to about one per cent by 2000 from 0.6 per cent.

"In the short run, the focus must be on products and markets where we have competitive strength," Chidambaram said.

The 15 countries are: the United States, Japan, Germany, Britain, Hong Kong, The United Arab Emirates, Belgium, Italy, Russia, Singapore, Bangladesh, the Netherlands, France, Saudi Arabia and Thailand.

The products are: gems and jewellery, ready-made garments, cotton accessories and cotton yarn or fabric, marine products, drugs and pharmaceuticals, transport equipment, metal manufactures, machinery and instru-

ments, leather manufactures, man-made yarn and fabrics and blends of them, oil meal, leather footwear, dyes and intermediates, plastic and in-noleum products and synthetic fibres.

"We have to be more open for an export level of 75 billion US dollars by 2000," said the Minister.

Delhi approves 58 FDI projects

NEW DELHI, Dec 28: The Indian government yesterday approved 58 projects of foreign direct investment of about 6.25 billion rupees, it said in a statement, reports Reuter.

The statement said the proposals were cleared at a meeting of the Empowered Committee of Foreign Investment (ECFI) which met yesterday under the chairmanship of Finance Minister Manmohan Singh.

The statement said the projects, once implemented, will earn foreign exchange of around 21.50 billion rupees per annum.

Chidambaram said the 15 countries had accounted for nearly 20 billions US dollar of India's total exports of 26.2 billion US dollars in the year to March. "Out of that, 17.1 billion US dollars came from these 15 products alone."

He said the United States was a significant market for India in 14 of the 15 products. "We cannot underplay the importance of the US."

The government has also identified 10 products for 10 "emerging" markets.

The markets are: Australia, Brazil, Indonesia, Iran, Israel, South Korea, Malaysia, Nigeria, South Africa, and Spain.

The products targeted at them are: fruit and vegetables, processed fruit and juices, processed minerals, sports goods, cosmetics and toiletries, wool yarn or fibre and blends of them, silk garments, wool garments, electronic goods and computer software.

The minister said a 500-700 million rupees (about 14 billion US dollars) to 20 million US dollars) India-brand equity fund would be launched soon to promote Indian products abroad.

Dollar edges higher, stocks slip in Tokyo

TOKYO, Dec 28: The Tokyo Stock Exchange's key index hovered above the 20,000-point level at the end of the morning dealing Thursday, after slipping earlier in the session. The US dollar edged higher against the Japanese yen, reports AP.

Traders said stock prices fell as investors took profits early in the session after achieving the long-awaited goal the previous day to push the 225-issue Nikkei Stock Average above 20,000 points.

A Nikko Securities dealer said the Nikkei later recovered some of its early losses on arbitrage buying, finishing the morning session at 20,000.60 points, down 11.16 points, or 0.06 per cent. Trading remained light.

On Wednesday, the index had gained 107.04 points, or 0.54 per cent, closing at 20,011.76, the first closing above 20,000 points in 14 months. The average had last finished above the 20,000 points on October 13, 1994.

The Tokyo Stock Price Index of all issues listed on the first section was down 1.42 points, or 0.09 per cent, to 1,584.45. The TOPIX had risen 8.59 points, or 0.54 per cent, on Wednesday. Friday is the last day of trading for the year.

In currency dealings, the dollar was slightly higher following its overnight strength on overseas markets, traders said. Traders expect the dollar to remain in a narrow range the rest of the day.

At 11:00 am (0200 GMT), the dollar was changing hands at 102.86 yen, up 0.32 yen from late Wednesday and was also above its late New York trading overnight of 102.84 yen.

The benchmark No 174 10-year Japanese government bonds were quoted at 111.78 yen, up 0.19 yen from Wednesday's close. Their yield fell to 2.900 per cent from 2.925 per cent.

RBI intervention curbs US dollar

NEW DELHI, Dec 28: The Reserve Bank of India's (RBI) timely dollar selling intervention stemmed the spiraling rise of the US greenback against the rupee and partly calmed trade at the inter-bank foreign exchange market in Bombay on Wednesday, says Xinhua.

The intervention started as the dollar crossed the 35.10 rupees level.

'Philippines economy has done well this year'

MANILA, Dec 28: The Philippines has done well this year despite natural disasters and food shortages, Press Secretary Hector Villaneuva said today, reports Reuter.

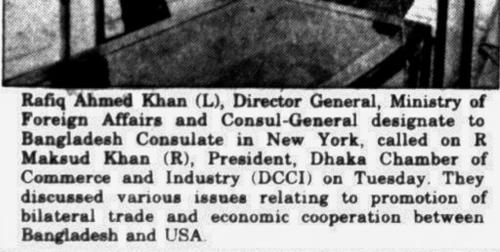

The country's Gross National Product (GNP) will likely expand by 6.0 per cent in 1995 and growth may even reach 7.0-8.0 per cent in coming years, Villaneuva told a Manila Television station.

The year has ended well despite all the disasters and calamities. If you go from zero to 5.0 per cent (growth in GNP), that's a lot," he said. It would be unfair to expect the Philippines to match the robust growth posted by its neighbours in Southeast Asia, but "we're getting there," Villaneuva added.

Bad weather in the form of drought early in the year and a string of typhoons ravaged the Philippines, causing a severe rice supply crunch in the third quarter of the year.

Rice prices soared to as high as 26 pesos (1 dollars) a kilo from 14 pesos (53 cents) five months earlier.

Surging prices of the staple food of the country's 68 million people triggered inflation, which reached 11.3 per cent in September and 11.0 per cent each in October and November.

Rafiq Ahmed Khan (L), Director General, Ministry of Foreign Affairs and Consul-General designate to Bangladesh Consulate in New York, called on R Maksud Khan (R), President, Dhaka Chamber of Commerce and Industry (DCCI) on Tuesday. They discussed various issues relating to promotion of bilateral trade and economic cooperation between Bangladesh and USA.
