# COMPAQ

The new Compaq ProLinea Family now combines real affordability with innovative new features that make it the most powerful desktop in its class. To start, you can choose the processor you want from extremely fast (486DX2/50MHz) to blindingly fast (Pentium 120 MHz). And the ProLinea is available in three new form factors: 3 slots/3 bays, 4 slots/4 bays, or 5 slots/5 bays.

Compaq also added TriFlex PCI Architecture, PCI Local Bus Graphics and a host of other features you'll find in the chart to the right. And, naturally, Compaq made the new ProLinea Plug and Play compliant. In short, the new ProLinea gives you a whole new way to think about business computing. And there's no easier way to get your hands on one than by calling **FLORA LIMITED**
