## Acute water scarcity in CHT

From Our Correspondent

RANGAMATI, Apr 19: Scarcity of water and scorching heat wave made the life of people in the three hill districts of Rangamati, Khagrachhari and Bandarban miserable for the last one month.

Water shortage is so acute in the CHT region, especially the drinking water scarcity has taken an alarming turn causing serious problem to the people here.

About 10 lakh people living in the rural areas have been using contaminated water of Kaptai lake, canals, and ponds due to scarcity of supply of pure water.

At least 75 per cent tubewells, ringwells and tarapumps have gone out of order because of abrupt fall of ground water level. Ringwells, canals and fountains are drying up gradually intensifying the scarcity of water. Meanwhile, water-borne diseases have broken out in many areas.

The water of 58,300-hectare Kaptai lake which criss-cross the hill districts has apparently been contaminated beyond safe limit, local people observed it with great concern. In every 100 millilitre water contained average 700 coliforms, a type of bacteria; where as, water with only two coliform bacteria is said to be hygienically safe. This was revealed in the survey and chemical test on water

sample of Kaptai lake conducted by officials from Public Health Engineering Directorate and experts from Environmental Control Department in early 1995.

The existing arrangement for supply of drinking water to some two lakh people of Rangamati, Khagrachhari and Bandarban districts headquarters is quite inadequate. The water treatment plant in Rangamati can hardly supply less than 50 per cent of the required water.

The residents of old Rangamati town are not getting any supply since long due to leakage in the water tank, sufferers alleged. The problems have been communicated to the higher authorities but no step has yet been taken.

Besides, many choked up tubewells are yet to be repaired in the rural areas while many remote areas of 25 thanas of CHT region have no tubewells, said local leaders and social workers. The project to dig ringwells in the locality on the hill tops is not being implemented, local leaders alleged. An official from Rangamati PHED said steps are afoot to solve pure water scarcity problem. Quotation has been invited to sink new tubewells and dig ringwells and repair the existing old and disordered tubewells and ringwells, he added.

PHED in Bandarban has been supplying one lakh gallons of water daily against the requirement of three lakh gallons for about 45,000 consumers. In many areas, the consumers do not get the supply at all, it is alleged.

Only three out of seven water lifting pumps have been operating. The four pumps have gone out of order since its operation in 1985. Due to non-availability of spare parts and constraint of necessary fund, the repair work of these four pumps could not be possible, the executive engineer of Bandarban PHED said.

An estimate to modernize the existing plant at a cost of Tk. four crore was sent to higher authorities in 1988, but nothing has yet been done in the respect.

Meanwhile, some 500 people of the three hill districts died due to various water-borne diseases in the last three months due to intake of contaminated water. Of them, 32 died of diarrhoea in the last fortnight of March in the remote thana of Bandarban hill district alone, local leaders, PHED officials and physician said.

Over 2.5 lakh people have also been suffering from intestinal disorder which the PHED experts and local physicians said was due to taking of contaminated water.

## Seminar on rheumatic fever Social awareness needed to prevent many diseases

From Staff Correspondent

SYLHET, Apr 19: The communicable diseases cannot be controlled only by the physicians, rather it needs a wide social awareness. Influential professionals like teachers, imams and others should be involved with the process. Professor (Brig) M A Malik, eminent heart specialist and Secretary-General, National Heart Foundation, said this at a seminar on 'Rheumatic Fever and Heart Diseases Control' at the Sylhet MAG Osmani Medical College Thursday morning.

National Centre for Control of Rheumatic Fever and Heart Diseases and Sylhet MAG Osmani Medical College jointly organised the seminar. Professor Malik in his address said, the risk factors of heart diseases are smoking, physical inactivity, hypertension, diabetes, mellitus, obesity, stressful life, excess salts, alcohol, coffee and change in the lifestyle. To avoid the risk of heart diseases, controlled life is the most essential, he

added. A broad-based social awareness should be created to attain this, he said, adding, in this respect social leadership needs to be involved at a larger scale.

Dr Quazi Omar Faruque, Dr Sirajul Islam, Dr. ATMA Jallil, Dr. AR Lashkar, Professor Akhtar Hossain, Principal Golam Kibria, Professor KMHS Sirajul Haque and Colonel Fahim Ahmed Chowdhury, presented papers at the seminar.

The speakers dwelt on the causes of the outbreak of the rheumatic fever and heart diseases and the ways to prevent the diseases. A conservative estimate suggests that, 12 million are affected by rheumatic fever and rheumatic heart diseases with 400,000 deaths annually.

The speakers said in most developing countries, more than 50 per cent of rheumatic fever and rheumatic heart diseases patients are unaware of their diseases.

## Seminar on Dev communication

A seminar on 'Bong' Chinese (wet land) is now development communication' was held at Badia in Barisal on April 4, says a press release. Organised jointly by peasants union, 3rd world English and Darul Misking Al Ekowan University, it was attended by Dr David J King, International Development Manager and Consultant, Canada, and top expert of IUCN, and Dr M F Wallace and Dr Thiagarajah of HALCROW-NMIDP.

Chief organiser M Jahangir Khan presented the key-note paper. He proposed to build canal reservoir in the four dead rivers at Babuganj, Wazirpur, Jhalokati, Kotowali and Baranipara for eco-irrigation with micro power plant and fishing.

## Dacoity in Faridpur

From Our Correspondent

FARIDPUR, Apr 19: An armed dacoity was committed in the house of one Attar Rahman of village Hamurdi under Roypur union in Madhukhali thana on April 7, police said.

A gang of armed dacoits numbering eight to ten entered the house at the dead of night by breaking open the door. They stabbed one of the inmates and at gunpoint looted cash money and other valuables worth Taka twentytwo thousand.

Hearing a hue and cry of the inmates of the house, the villagers rushed there and chased the dacoits. The villagers caught one dacoit, identified as Mstaque, and handed over him to the police.

## Acute LPG crisis in Barisal

From Staff Correspondent

BARISAL, Apr 19: Still now the acute crisis of liquid petroleum gas (LPG) is prevailing in different southern districts of Barisal division for a long time.

According to sources, only nearly three hundred cylinders were distributed by Meghna petroleum in this region during the last two months. LPG dealers in the town are keeping their shops shut for months together.

So far it is learnt, consumers of LPG in this region are not less than twenty thousands but there are only three thousands listed consumers of Jamuna Oil here.

## 19 SSC examinees expelled in Faridpur

From Our Correspondent

FARIDPUR, Apr 19: A local of 19 SSC examinees have been expelled from different centres in the district on April 15.

Centre wise break-up is as follows — eight examinees were expelled from Nagarkanda, four from Bhanga, four from Sadarpur, two from Alfadanga and one from Kamarkhali centre.

On April 13, eight SSC examinees were expelled from three centres of the district.

One was expelled from Madhukhali, three were expelled from Nagarkanda and four from Bhanga centre.

## Shark caught

PATUAKHALI, Apr 19: A big shark weighing about three maunds was caught from the river Ramnabad in Galachipa thana on April 9, reports UNB. Fisherman Abul Kashem received serious injuries while catching the shark. He was rushed to Galachipa hospital where the doctors gave him 17 stitches.

The shark was later taken to the Galachipa thana mosque premises.

## Monajat Uddin awarded gold medal

LALMONIRHAT, Apr 19:

Late journalist Monajat Uddin has been awarded a gold medal by two local organisations for his contribution in the field of journalism, reports UNB.

His wife Nasima Monajat received the award from Divisional Commissioner - AFM Yahia Chowdhury at a function organised by Lalmonirhat Foundation and Gano Shiksha Samity at Church of God High School premises.

Some 2,000 honorary teachers and 450 block supervisors of different grades of the Mass Education Programme also received certificates and cheques for various amounts for their role in making programme a success.

The Lalmonirhat Mass Education Programme ended on November 26 last year.

Deputy Commissioner Kazi Farid Ahmed presided over the function attended by officials of government, non-government organisations, local leaders, teachers and journalists of 16 districts of the division.

## Drought hits jute cultivation in Chandpur

From Our Correspondent

CHANDPUR, Apr 19: Jute cultivation in all seven thanas of the district has been adversely affected due to drought during the current season.

Jute sowing season which has already been expired started from March.

Only 50 per cent of the target has been covered. According to agriculture department sources, a total of 30 thousand hectares of land have been targeted to cultivate jute in the district. Under the jute cultivation programme, only 15 thousand hectares of land have so far been brought under jute cultivation.

According to farmers, due to deteriorating drought situation price hike of fertiliser, scarcity of high yielding variety seed and price hike of other agri-inputs and lack of smooth irrigation facilities are the main impediments in the way of achieving the target. In some places temperature has shot up and underground water level also fell by 30 feet hampering irrigation.

Agriculture experts have opined that the target of jute cultivation would not be achieved during the current season if the situation remains unchanged. Many farmers said that they can not prepare their land due to continuous drought. Moreover, scarcity of seeds and adequate capital are not available.

It may be mentioned that Chandpur is one of the large and richest jute producing area.

## JCD activist arrested in Ctg

From Staff Correspondent

CHITTAGONG, Apr 19: Police in a raid yesterday arrested a JCD activist from his residence at Shahid Lane under Pahartali.

He was identified as Shafigur Rahman alias Samrat.

Police said Samrat was wanted in connection with some criminal cases.

## 3 killed in Kishoreganj

From Our Correspondent

KISHOREGANJ, Apr 19: Two persons were killed in Savanagar and Jalapur villages here in two days while another succumbed to his injuries he received during a clash in Syedgaon village.

One Milon Khan, 18, of village Savanagar in Austagram thana was stabbed to death by miscreants on April 14.

According to the police, the victim was going to the paddy field with foods for his elder brother when he came under attack about 300 yards from his house. The miscreants stabbed him indiscriminately resulting in his instantaneous death. The cause behind the murder was reported to be the previous enmity over land property, police sources said.

A case was registered with Austagram police station. The body which bore 24 marks of injuries was sent to the morgue of Kishoreganj sadar hospital for autopsy.

In another incident, one Haji Abul Hashim, 55, of village Jalapur in Nikli thana was

killed allegedly by his elder brother and his sons on April 15.

The victim was working in the paddy field while his elder brother and his seven sons suddenly attacked him. They beat him up and hit him with a spear, Abul Hashim did on the spot.

There had been long-standing enmity between the two families, police said.

A case was registered with Nikli police station. All the accused are now in hiding.

Meanwhile, one Siraj, 30, of village Syedgaon in Pakundia thana succumbed to his injuries at Mymensingh Medical College Hospital on April 1.

Police said, Siraj sustained injuries during a clash over the possession of a tree on April 6. He was hit on the head with a lathi by his neighbours and immediately rushed to the Mymensingh Medical College Hospital.

A case was registered with Pakundia police station.
