## Tk 12500cr ADP for next fiscal okayed

The caretaker government yesterday approved a Tk 12,500 crore Annual Development Programme for next fiscal year, prioritising poverty alleviation and human resource development projects.

Size of the 1996-97 development budget is about 20 per cent bigger than the revised ADP for the outgoing fiscal.

The revised ADP for 1995-96 is Tk 10,447 crore, downsized from original Tk 12,100 crore.

Approval to the proposed ADP was given at a meeting of the National Economic Council with Chief Adviser Mohammad Habibur Rahman in the chair.

The NEC meeting was attended by advisers, members of the planning commission and secretaries and senior officials of different ministries.

Talking to UNB at his office later on, Finance and Planning Adviser Dr Wahiduddin Mahmud said the overall objective of the new ADP was to "sustain the process of economic recovery and to create conditions for stable and balanced economic growth."

Priority has been given to projects having potentials for alleviating poverty and human resource development, the Adviser said. Infrastructural development in support of private investment has also been emphasised.

Dr Mahmud stressed that the ADP came as part of the "Provisional Budget" for the coming year, being prepared, and could be amended by the elected government "to reflect new policy initiatives."

Share of domestic resources to the new ADP has been projected at Tk 7,300 crore while project aid component estimated at Tk 5,200 crore.

Contribution from the government has been raised to 47 per cent or Tk 5,926 crore which marked an increase by Tk 400 crore over the government's share in the original ADP of 1995-96.

The 1996-97 development budget contains a total of 1122 projects, including 148 fresh ones.

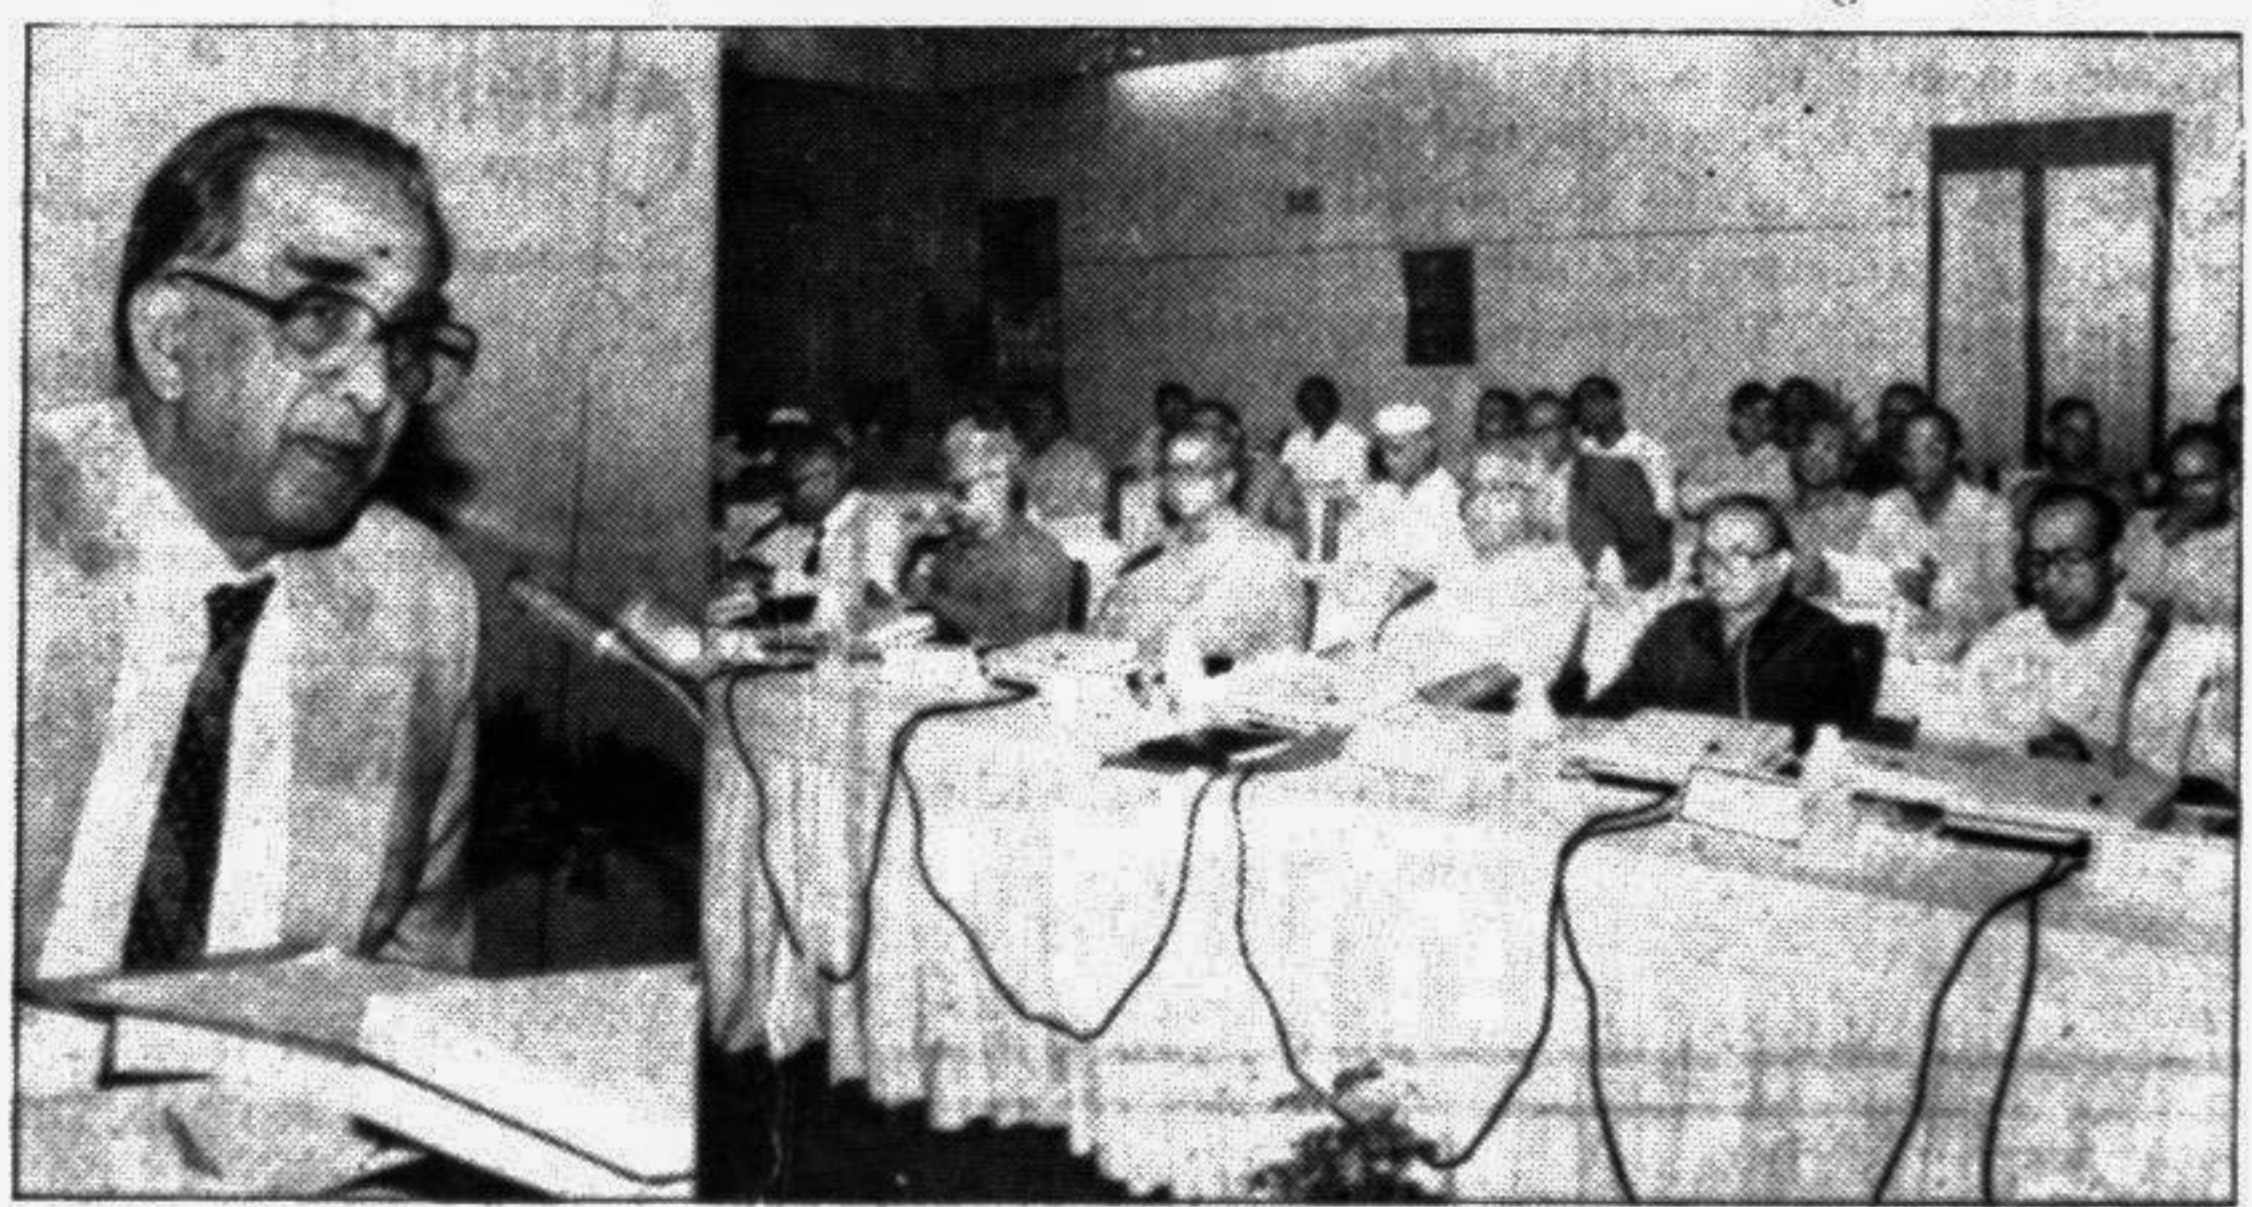

In a unique way of programming, the caretaker government has drawn up a Tk 11,300 crore "core ADP" within the new ADP, keeping in mind any resource constraints that might hit the fiscal year midway.

The core ADP allocation comprises Tk 6,400 crore in local currency and Tk 4,900 crore in project aid. It proposes to implement 1104 projects, including 131 new ones.

Further explaining the policy guidelines followed in preparing the ADP, Dr Mahmud said efforts were made to limit the number of locally funded new projects so enough funds could be made available for speedy completion of ongoing projects.

On the rationale of the core ADP, he said an ADP of Tk 11,300 crore was necessary to

MOSCOW, June 16: As the world watched anxiously, Russians voted today in a momentous presidential election that could deal a fatal blow to Boris Yeltsin's reforms and return the country to Soviet-style communism, report AP, Reuters.

Reforms or retreat — the enormous stakes were expected to generate a high turnout in the world's largest country. The higher the turnout, the better President Yeltsin was expected to fare in his bid to defeat Communist leader Gennady Zyuganov.

Yeltsin was in a good mood as he voted with his wife today in northwestern Moscow. The 65-year-old leader "ruled out" a Communist victory and said he intended to continue his reforms into the next century.

After casting his ballot at a former "House of Pioneers" named after the old Communist youth organisation, Zyuganov said he was confident many people had voted for him.

Early voting figures point to a lower-than-expected turnout of around 65 per cent, a top official at the central electoral commission said today.

Interfax news agency quoted commission chief analyst Dmitry Oreshkin as saying
