Major's rise and fall with Euro '96

LONDON, June 27: England's quarterfinal victory against Spain last week in the Euro '96 soccer tournament boosted the ruling Conservative Party in the hearts and minds of voters, said a poll published on Thursday. reports Reuter.

But it was not enough to put Prime Minister John Major's party ahead of the opposition Labour Party

The Mori Poll, carried out last weekend, showed the Conservative would win 31 per cent of the vote in a general election, which must be held by next May. This was four points up on last month.

Labour had 52 per cent, down two points from the last poll, while the Liberal Democrats dropped three to 12 per cent.

King, who won a record 20 Wimbledon titles in the 1960s and 1970s, suffered one of her biggest embarrassments over

doing one curtsy too many.
"I can't remember the year but we went on for a match and turned around to curtsy. The whole place cracked up as there was no-one in the Royal

The curtsying tradition dates back to 1922 when King George V officially declared the new grounds open by striking three blows on a gong. But he was not the first re-

gal visitor to Wimbledon. That honour goes to crown princess Stephanie of Austria who came to watch the tennis in 1895. Queen Elizabeth, who much

prefers a day at the races watching her horses, last visited Wimbledon in 1977 to mark the Centenary of the Championships.

The visit must have given a boost to British tennis - the Centre Court erupted with joy when Virginia Wade won the women's singles title.

SLIMMING AIDS

Judging by the huge amounts of money spent every year on slimming aids, it would appear that slimming is as profitable business indeed. It is only natural that you should know well about the programme or product that is going to help you lose those extra pounds with your hard earned money. These are many slimming aids some work, others don't, some used incorrectly can be very harmful. But, are any of them real substitutes for will power and better eating

DIET FOOD

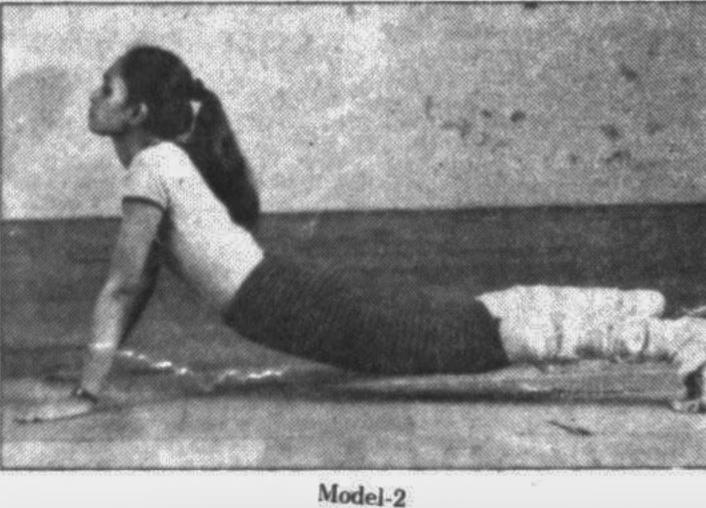

Most meal replacement foods work by expanding in your stomach to make you feel full. They contain proteins and vitamins, so you are unlikely to become undernourished, but at the same time they can lack essential nutrients. Low calorie soups, bread, drinks, artificial sweetness make dieting interesting. Always add a couple of slices of bread in your diet for fibre. Make sure you consult your DOCTOR before going into any of these 3 weeks diets. Otherwise it can be dangerous if not supervised.

PILLS

Appetite suppressant PILLS definitely need doctors supervision and approval. It's only prescribed to extremely OBESE PEOPLE who are unable to do any activity. Once they start losing weight with proper diet it's no more required. If you are healthy and need to lose only a few pounds just exercise and watch what you eat and be careful.

DIURETICS should never be taken unless the doctor prescribes it. Diuretics cause water to pass more frequently and after some time, the kidneys may get damaged by ones working . Initially, you'll be pleased because the body consists of 80% water and the scales will impress you, but the damage later on will be permanent and irreversible. Doctors give these to patients who have water retention problem or women who have unusual swelling during menstruation. LAXATIVES should never be

used as slimming aids, they
