Suharto son's
move on tax
opposed

JAKARTA, Aug 11: Government officials in Indonesia's north Sumatra province are opposed to a company controlled by President Suharto's son collecting a tax on hotels and restaurants, the Jakarta Post reported yesterday, says Reuters.

Pt Humpuss, controlled by Hutomo Mandala Putra, has secured government permission to collect taxes on behalf of the local administration in the province.

The paper said the tax, in addition to taxes and levies collected from streetlighting, building permits, parking, billboards and entertainment, was a major source of revenue for most local administrations in the province.

Does the central government really have the heart to impose a ruling which favours a single private firm at the expense of local administration? official, Isidorus Sihotang, was quoted by the paper as saying.

Humpuss officials were not available for comment and the paper gave no other details about the tax.

Sihotang said such taxes should be collected by local administrations with the prior approval of local legislatures.

Ecuador devalues
currency

QUITO, Ecuador, Aug 11: The central bank announced a 7.7 per cent devaluation of the sucre hours before president Abdala Bucaram was to take office Saturday, says AP.

The bank said the devaluation would take effect Monday. The sucre is traded in a band that has ranged from 2,922 sucres to 3,229 sucres to the dollar. The bank said the new range would be 3,166 sucres to 3,500 sucres to the dollar.

Economist analysts said the devaluation was forced by uncertainty over the populist Bucaram's economic policies. The uncertainty has led to heavy demand for dollars in recent weeks, forcing the central bank to sell 80 million dollars of the country's reserves to meet the demand.

Today's market comment

The Peregrine Bangladesh Index gained 0.16% on the continued strength of financial stocks. Both IDLC and ULC gained 1.8% and 2.4% respectively as investors switch from engineering stocks which resulted in losses for Bangladesh Lamps (-1.6%) and Eastern Cables (-2.6%). Chittagong Cement gained 3.9% on speculative buying as rumors surfaced about confirmation on tie-up with Larsen & Toubro. On the losers' side, ACI continues to be depressed (down 0.8%) as foreigners maintain selling pressure following FY95 financial results.

Peregrine's Index

We have created a Peregrine Bangladesh Index (PBI) for the top 25 companies on the Dhaka Stock Exchange. We believe that it is important to have a sub-index of the top "blue-chip" companies for a number of reasons. While the DSE All Share Index gives us a picture of the stock market as a whole, it is not indicative of daily trading patterns as many stocks on the DSE trade infrequently. Accordingly we have selected 25 of the most actively traded issues (approximately a quarter of the stocks listed) and these constitute about half of the daily trading volumes of the Dhaka Stock Exchange.

The PBI also represents the largest companies on the DSE. Each company has a market capitalization of at least Tk400m and the PBI as a whole covers roughly 70% of the market capitalization of the DSE. We believe that these stocks offer the best investment opportunities on the DSE due to their relative size and liquidity. As a result, the PBI provides a "blue-chip" investable index for both local and foreign investors in the same way as the Dow Jones Industrial Average, the FTSE 100 and the Hang Seng Index. The PBI is not meant to replicate or replace the DSE All-Share Index, it merely acts as a subset of the whole, conveying different information.
