Allegations against BUET VC baseless, say authorities

The BUET authorities described as baseless and totally faulty the allegations of corruption and autocratic excesses made by teachers' association against the Vice Chancellor, reports UNB. The Teachers' Association of the Bangladesh University of Engineering and Technology (BUET), earlier, charged VC Prof Mohammad Shahjahan with discriminatory conduct, corruption, autocratic excesses and demanded his immediate removal. The authorities, in a statement Thursday noted with deep regret that the teachers' association had demanded the VC's resignation or removal at a time when a congenial academic atmosphere was prevailing on the campus. Refuting the association's charges the authorities made it clear that the VC is far from being autocratic by temperament and discriminatory in conduct as decisions are always taken in consultation with Legal Committees like Syndicate, Finance Committee and Selection Board. Besides, the statement said, "no such allegations were heard or raised in the past against the VC." But at this stage, by blaming the VC for such conduct the association has in fact tried to tarnish the image of the university. The association gave no concrete proof in support of its allegations, said the authorities and appealed to the association to give the VC a chance to defend himself. Meanwhile, 51 BUET teachers urged leaders of the association to sit for discussion with the VC before announcing its agitation programme. On Tuesday the teachers' association took the decision not to cooperate with the VC and gave him an ultimatum to resign by October 27. Authorities called for re-suspension of the classes from November 17 of all the batches of students including the new batch of 1995-96.

Edn Minister's reaction over HSC results

Education Minister A S H K Sadeque said, control of unfair means and a poor performance in English and mathematics might be the reasons for a record low pass percentage in this year's HSC examination. "I feel pity for a large number of candidates who could not pass the exam despite lot of efforts and expenses put in by the students and their guardians," he told UNB. In his initial reaction over the HSC results of four education boards announced Thursday. The percentage of pass is 24.32 in the Dhaka Board, 30.76 in Comilla, 34.49 in Chittagong and the poorest 19.35 in Jessore Board. The average pass percentage is 25.17. Sadeque, however, disagreed with a view that the country's prolonged political turmoil had cast negative impact on the examinations.

What I think is that the trend of unfair means was less compared to the previous years and the question papers were also up to the standard. Besides, the minister said, most of the candidates could not do well in English language and mathematics as well. He said the teachers of both government and private colleges need further training, particularly on the subjects of English and mathematics, so that they could teach more efficiently. The government is planning to launch training programme for the teachers of English and mathematics soon, Sadeque said with a note of optimism that results of the HSC exam would be better next year.
