Peregrine market comment

The PBI declined by 2.5% to close at 1,032.75 with an increased turnover (+55%) in a single day trading. The rise of turnover in terms of value and volume originate hope among panic stricken investors. Out of the 19 traded issues, only 2 advanced, 17 declined and the rest remained unchanged. Monno Fabrics (+5.0%) and BOC (+1.7%) occupied the gainers list. IDLC (-5.02%) topped the losers list. Prime Textile was the volume leader as 23,150 shares were traded. The trading floor was represented by less number of brokers as the market opened for that day (Thursday) between the festival closures. No significant block trades were taken place.
