

### To My Teddybear

by Raihan Jamil

Y dearest Teddybear, This is probably my first and last letter to you, before you become someone else's "inspirations of life." I never thought that I'd have to write letters to you, in order to be with you! Now, I am writing to you, to relieve some of the immense pain I am now going through. A letter is probably the best mode of communication, when one can my agony. not share things with another. The very thought that I can never be the same 'old' Daddy to my dearest daughter again is

making me panic. I still remember the day, as if it were only yesterday, when you were born. When the doctor told me that you were born, I felt elated. I wanted to shout at the top of my voice until it cracked I wanted the whole world and the stars to know that, I have a little daughter now and that she has the cutest possible face anyone could ever imagine, and the cutest smile. I exactly remember the first time I took you on my laps. I kissed your cheeks and said, "From now on, you will be the sole purpose of my existence, my dearest Teddybear. You'll be my heart and my soul and my

world." How quickly time passes! Now, I can't even think of carrying you on my shoulders, like the old times, and walk through the parks late at night, under the blazing stars. Neither can I think of telling any bed time stories so quickly!

still remember the day, clearly, when you were sick one time, and couldn't sleep at night. You wanted me to carry you on my lap and walk in the garden. And I did exactly so. I carried you all night and walked in the garden, until you slept in the early morning. It was the sweetest pain any father could ever bear. And now, all I have been left with is some sweet memories. The time for creating memories are read the book we have From written for all these years. Your L

That is the only hope I am left with. I've selected someone, who will love you and care for you very much, to be your life partner. And the fact that, no matter whose wife or daughter-inlaw you will be from now on, the whole world knows that, you are only "my" daughter and will live that way, makes me a bit relieved from

Twice in my life, you've made me cry. The first time was at your third birthday, when in front of all the guests, you said, "Daddy, I love you more than anyone else in my life", and I started to cry out loud, like a baby. The guests were so surprised! However, I was the happiest person in the whole world.

And now, the pain of loving and losing has left me speechless. No one can hear the silent cries of my heart, nor can they see my tears. I am dying in pain. From tomorrow, you will be the brightest star of someone else's sky. I feel like, I am the saddest person of this whole world. I pray to God, so that I have the strength of bearing this pain.

course, I admit that, now I can save some of my earnings — maybe a huge part of it, even. But then again, how can anyone measure the opportunity cost of love?! Moreover, there were some hidden pride in knowing that, my daughter is so popular that, she gets a lot of crank calls!

to anyone. You've grown up You had come into my arms, crying, into this unknown, queer world. And tomorrow, you will be walking away from these arms, crying, into yet another world. Both of these worlds are loving and caring and yet, they are so very different. You are the only bridge between these worlds - and so you can share them both. At this moment, I can only wish that, you have the same "Teddybear" for yourself as you had been for me, and say — "I will be here always, for you."

Your Loving Father

## Tomb Raider: Hot Adventures in Lost Civilisations

mes are growing fast HREE dimensional in the PC games market today. Castle Woflenstein 3D by id software, was probably the first to take gamers by surprise. At the time of it's release, there were no other 3D, smooth moving, action games available to the 'little people' who owned a Super Nintendo or Genesis

Shortly after, home gaming systems began to drop in sales as PC's began a slow, but steady climb. To combat this, the companies who designed home game systems went to work. To bring the arcade home', seemed to be the sorry cry from most of the companies. But we wanted all those fabulous arcade games that could not be played on the mere mortal home systems. Fighting games were fun for a while, but still nothing NEW. We wanted 3D! As much as we could swallow at once.

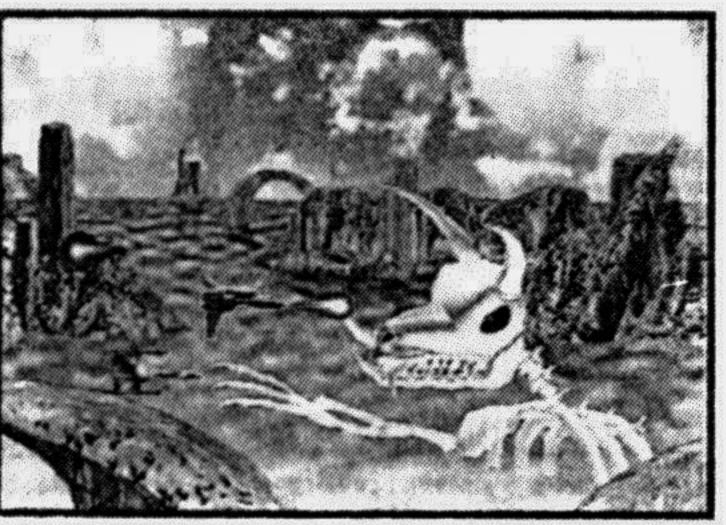

Finally with the release of the Sega Saturn, Sony Playstation, and now the Nintendo 64, they have really caught our attention. 3D games are popping up everywhere. The PC market skyrocketed in sales last year, and not just because of business applications, the internet, and making Christmas cards, but because of games - thousands of games! There are more games currently available for the PC than for the Sega Saturn, Sony Playstation, and the Nintendo 64 combined.

The catch to this is simple. Either buy all the systems available to play the best games on the market or buy one system and keep your fingers crossed. But now that plan is less sketchy, with multiplatform releases of hot off the press games. What the hell am I talking about? Here's one new game that is multi-platform and it combines arcade action with 3D texture mapping, and even some of the puzzle solving we've all come to appreciate. It's Tomb Raider.

Tomb Raider, by EIDOS, is what

you've all been waiting for. If you haven't vet heard a friend utter its name of you haven't read up on it, go buy it anyway!!! Tomb Raider combines the elements of Fade to Black's third person 3D movement, Quake's texture mapping, Indiana Jones' story line, and the action of all three. You play as Lara Crost, a world renowned archaeologist and pampered British aristocrat. At the age of 21, her plane crashed in the Himalayas. As the only survivor, she learned how to live on her wits (we don't know if she ate her friends). Two weeks later, she came upon the village of Tokakeriby, and was

changed for life. She no longer could stand the thought of going home to the suffocating atmosphere of upper-class British society. She only felt alive while travelling alone. For the eight years that followed, she travelled the globe and acquired knowledge of ancient civilisations. Her fam-

**Tomb Raider Review** "http://www.game-revolution.com/ a game by CORE DESIGN, LTD. Publisher **EIDOS** Minimum system Requirements

Pent60/ Recommended 90 8MB Ram/Recommended 16+ **DOS 6.0 or Win95** 2xCDROM/Recommend4x

SVGA/Sound Card/Joystick review by George laTourette Jr. "http://www.gamerevolution. com/misc/staff with very important footnotes by Sharier

ily eventually disowned her and she turned to writing to fund her trips. She published travel books and detailed journals of her exploits of ancient sites and civilisations. Now she searches in an almost forgotten realms of intrigue and danger for a lost artifact.

The controls in Tomb Raider are incredibly simple. There are 9 controls aside from character movement. These controls give players a myriad of possible actions in the game. The buttons: Action use this button to pick up items, pull levers, shoot, grab ledges and any other possible 'action' in the game. Draw/Holster Weapon — as described. Jump-used for jumping forward backflips. and sidetlips just push the joystick in the desired direction. Lookhold down the look button' and use the joystick to have Laura look in

do a quick roll and turn around. Walk-for walking instead of normal running mode; character will not fall off edges while 'walk' button is pressed. Inventory-used to access found items; new weapons, first aid kits, keys, etc. The last two buttons are side-step left or right.

that direction. Roll-used to

All of these controls are invaluable. For example, while running, push the walk and jump buttons together and Lara leaps into the air and does a forward roll upon landing. The jump button is used to swim and dive deeper. Before you begin your adventuring, visit Lara's mansion from the main menu. There you will be taught all the main controls

in the game by Lara herself, including some very helpful hints on how to run, jump. and grab onto far away

The graphics in Tomb Raider are GOOD!!!! There are very few texture mapping messups considering the phenomenal volume of the game. From all of Laura's moves to all creatures encountered. the movement and realism is fantastic. The caverns and lost temples are beautifully rendered. The water has an incredibly realistic and disorienting feel. The sound is also a rare treat. Instead of an annoying soundtrack, EIDOS implemented sound effects. Echoes, short drumbeats, and environmental sounds were used. The creatures encountered will stir those magical sounds of fear with their howls and footsteps. Surprise is the key element in Tomb Raider which makes it so enticing.

are beautiful. They could have done a bit more work on the texture mapping of enemies, but I don't think it's that important in a game of this calibre. The beauty is in the movement. Almost fluid, the wolves, bears, and the bats of the first level have a "feeling" of realism. They even sound real, making odd noises and grunts as they try to devour your flesh. The real treat and was at the end of the first level. I climbed down into a "Land of the Lost" of sorts and I heard a creature approaching. I readied my weapons and when I looked, I almost fell out of my chair! A hungry veloceraptor let out a horrifying scream and charged for

The creatures in Tomb Raider

the kill. My first instinct was to get the hell out of there! I ran, flipped, dodged, and shot like my life really depended on it. After disposing of two of them, I quickly surveyed the silent valley as I healed my wound. I began to run forward, guns ready and felt the adrenaline pumping in my veins ... "C'mon! Bring Em On!!!". As I turned the edge of a clearing. my eyes popped out of my head and I nearly wet my pants. A HUGE (and I mean **HUGE!!!!)** Tyrannosaurus Rex leered down on me and began to charge. About face!!!! Run!!! Tomb Raider is filled with chills and thrills to keep you craving for more. Spiked pits, baboons, lions, panthers, alligators, freaky skinless things, and enemy mercenaries are just a few.

Overall. Tomb Raider is a fantastic adventure with nonstop action and puzzles. think that it's one of the reasons why games even exist. It's my favourite game to date and I'm sure you'll agree when you see it. Phenomenal Graphics and Superb Sound Effects Hot adventuring in lost civilisations One of the best games of all time!!

Footnote: Hey gals and guys if you've got internet connection, you can download the free shareware version of this game from this address "http:// www. game-revolution. com/but watch out, although the compressed Zip file is only about 5 megabyte it can take hours to download. Plus you gotta have a Zpplugn7. exe to view and save the Zip file. Zpplugn7. which is a plug in filter, is also available at the same site for free (for 30 days! After 30 days, they say it will not function anymore). You have to have the Zpplugn7. exe installed in your hard drive (that is C:/ or D:/). By the way, it will take between 10 to 20 minutes to download

this one. If you have Norton Commander to back you up (Norton protected Recycle Bin/Norton utilities/etc.), don't bother to download Zpplugn7 (cause you have Pkzip programme in that case!). all you have do to, while downloading, is specify your plugin filter's path. If you don't find the filter in time, don't bother, Save the download.

The internet runs on a myth that it is cheap and the most efficient way to transfer data. Wrong!! Americans are now suing the America Online for failing to give them the service they had earlier claimed to give. In our case, the modem speed hardly matters. If you have a 28 KbPS modem or a 14.4 KbPS one, you can never expect a download at the constant maximum speed! In fact, it is amazingly slow! Instead of 28 kb per second, you should feel very happy if, ever, you can download any data at the speed of 2.8 kb per second (I never got anything above the speed of 1.4 KbPS, I swear!). So if you want to download anything, keep handy Tk. 300 to bribe your dad. You'll need it when the bill comes.

## Beauty Bites...

characterised times when you get carried away with your thoughts and actions; don't you? Some of the "very" conscious may not agree. but most of the humans are like that. I was in a same situation a few days ago. As I was changing roles, or at least trying to do so, like the jackets of a wardrobe while performing some layman duties, an emotional distance was grown between us - me and my "new" friend, because on her part, she seemed to have found some adjectives of life.

She should have been by now (the time we spent together) become more than a friend. But like human merry-go-round sees many changes, my Book of Life culminates with a dream fantasy of a fancy-dress ball in which I feel the barrier between "she" and "I". What I was feeling is like this — "I would sample life's tortures once more and shoulder one more at its senselessness. I would traverse not once more, but often, the hell of my inner being. One "day", I would be a better band at the

Well, that's what "I" was thinking, but she was least purterbed, or rather least bothered, about it. For she thinks her 'past' and 'present' to be the most grueful (she has a preoccupation to laugh at Life) undermining everybody else's sorrow. She pretends like the Angel of the Duinese Elegies to see and summarise human life as a whole. If you ever happen to meet a lady with such striking ability (I think there's a lot out there) to beautify her sorrows, never let her go away. I try more to interact with her, taking her to my library to read out the very first sentence from Tolstoy's Anna Karenina: "All happy families are like one another; each unhappy family is unhappy in its own way." Her face illuminates and to

tell you frankly, at that time, she looks exactly like my Laksmi with Pagan eyes full of nocturnal mysteries. But unfortunate "me"; if she really were "my" Laksmi, she wouldn't have hesitated to let me nestle in her beauty — beauty that disturbs my human hunger.

Many of you may be bored to death reading about my Laksmi again and again, as my friend Romel once again asked me about her existence. I answered in affirmative. And I wish -

HERE must be some and you have every liberty to differ — that you see what I see and feel what I feel. I think if someone like my Laksmi exited in your life, you wouldn't have to project yourself as "toosmart" whenever you come close to the female species of human beings.

Let's start with beauty. In beauty. Laksmi is a Greco-Bengalee version of Hardy's Eustacia Vve. and unlike Eustacia, she would have done more than well on Olympus without any preparation. You must forgive me for comparing Laksmi to one of my once-imagined female strangers. But again, I often do feel like shouting at her: "Oh thou art fairer than the evening air/Clad in the beauty of a thousand stars." This was what Marlowe's Faustus was wasting his soul to Helen. But do not mistake me — I'm not entertaining any sentinel from Hell. I already have enough within my "self"

See, how much I am engrossed in and carried away with 'one' person's beauty! And for that. I sometimes rebuke myself from the Old Testament. saying: "A wise son maketh a glad father; but a foolish son is the heaviness of his mother.

But as I was born handicapped from my mother's cradle with all the elements of an anarchist and a non-conformist hemmed in my hectoring lifestyle, I was trying to get back at a hypocrite browbeater. Definitely. I was carried away accompanying my characteristic flaws. I whispered to Laksmi with all the punctuations of my inner wrath that "I had learned that society imposes insults that must be borne, comforted by knowledge that in this world, there comes a time when the most humble of men, if he keeps his eyes open, can take his revenge on the most power-

These are the times Laksmi plays her "beauty" card - from heavens, she takes me drawn into her, pressed onto her human limbs, spreading her swan-like anchol over my body and soul. Resurrected, I feel like the Eagle who finally has dived into the Ocean, illumined by the morning Sun. But no.., a little later when

realise that it was just a passing dream, I go up, up to the rocks where beauty can only bite...

## "Bahe Anandadhaka" on BTV

by Kazi K Arafat

HERE'S a theory in economics called the Law of Diminishing Returns. The Law actually talks about the value of efficiency of economic products, policies, etc, but it's uneconomic application can be uneconomical, if you think about it. Everything yields a certain amount of reciprocation that keeps on increasing to a certain extent, until it reaches it's climax and starts it's downward climb. In a graph, it looks like a cross between a "u" and a "v" turned upside down.

Before my article itself starts achieving Diminishing Returns, as anybody who's been unlucky enough to suffer a couple of minutes of BTV (I'm still looking for someone who, can endure more than that) will know, the programs, when euphimistically described, are so inane that the only thing they're good for is there for spiritualists who crave a taste of eternity. So we could all maybe, raise a crystal tumbler of iced Pepsi and unanimously agree that they couldn't get any

That's where my ramblings about the Diminishing Returns come in — a great thing about the law is that it works even if you turn the upside-down "u" downside-up. Therefore, since BTV positively can't get any worse, it has to get better. And if readers are interested in seeing just how this phenomenon is going to take place, tune in to "Bahe Anandadhaara", which is to be aired the night before Eid.

This show from Nadiya Movie Live Features, among other things, the "Eid thoughts" of celebrities like ministers Mohammed Nasim and Mizanur Rahman Chowdhury, movie directors Etesham and Azizur Rahman, actress and actors Shabnoor and Omar Sunny, and singers Agun and Akhi Alamgir.

It's also got a performance by Taranga Lalitkala Kendra, and Selim Chowdhury's rendition of Hasan Rajas "Agun Lagaiya Dib Kone" to which the graceful Alia Rahman will be dancing along. It's not missing in, what's inevitable BTV "magazine show" — an attempted music video which in this case, will be less half-hearted than most people would give them credit for, since this show allegedly has some technical wonders (something called image dissolving) which were explained to me but which I did not understand one bit.

Last and least least — it's also got a fashion parade choreographed by Bibi Russell. The whole thing is written, composed, directed and presented by Bulbul Zilani Chowdhury.

I'm not sure if the last para sounded like an advertisement or not — I want it to, since I'm expecting a lot from this program and BTV has to improve, we know all that and since I know too that the marginal utility of this write-up is turning sour, I'll say a hasty goodbye and wish a happy Eid to 60th my readers.

#### People of The Soil

by Fardeen Chowdhury

Spoken word, challenged down to the last syllable Challenge met by those young and able They gave speech to those yet unborn Their spirits live, yet bodies torn. Years passed and aliens still roamed the land People resolved to claim their very own sand The time for sacrifice was certainly at hand They will not accept any reprimand. Untrained yet strong to the core They won't take the abuse any more For one land they dearly fought Like the speech they costly bought. Red permeated the greenery of the soil Blood of men and women who didn't recoil It matters not if you're young or old It matters not if you're willing and bold.

The hyenas run, the people celebrate

HE beast in Man is free! Oh! It's free — Oh! Please

The beast in Man is free. And cares not what may be. It growls in its joy, And in fury, as in Troy. It howls in its joy

Oh! It's cruel — so cruel Oh! Look it's so cruel No law can bring it down It's so crafty — so cruel.

The man I love so much Is no match — no match This beast can bring him down And burn him — like a match. Oh! see! Oh! It's free! As ruthless as can be. My body it has battered

A boundless, guiltless joy.

Oh! see — Oh! Please see.

#### War-and the beast by Mariam Kabir

My child it has held My child — Oh! my child Will mercy stir its heart? For my child is so mild.

Oh! No! My house! The beast has burnt it down. My neighbors it has killed There's nothing called "My Town".

Blood is running wild. Yet there's no case to be filed. For the beast is a ghost,

Of which no man can boast.

My family is gone, My Dad and Sis — all gone And at daybreak - at dawn I cry for mum — alone.

My brother has lost too: There's nothing he can do. For the beast fears no law, So my brother has lost too.

Oh! war, is it you. Who brings sorrow to, A poor lonely soul, . who wants nothing as a whole. But a tie to her heart And a shield from all that heart.

Oh! war, why have you. Obscured what is true. Played life and hue, And scarred what is true?

The beast you've set free, Has a killing spree. Which you can't dominate. For it is too late.

Oh! war, why have you? ... why have you?! ... Why have you?!!

# Quotations!

Only the ox is consistent in that it always chews grass.

Bismarck

But that world has gone and another takes its place. Eyes see differently, emotions react to other themes. Men weep at jazz, and violence has become sexual. **Charles Chaplin** 

The absurd man is he who never changes. Barthelemy

Thus all things are altered; nothing dies.

Change everything except your loves.

All things change, creeds and philosophies and outward system -but God remains. **Mrs Humphry Ward** 

Every change makes the favourite of fortune anxious. Schiller

In government change is suspected, though to the better.

Francis Bacon

It is natural for a wise man to change his opinion, a fool keeps on changing like the moon. Latin Proverb

Our charity begins at home. And mostly ends where it begins.

The poor man alone, When he hears the poor moan,

From a morsel a morsel will give. And now abideth faith, hope, charity, these three; but the
