Tangail is famous for sarees. The weavers of Pathrail, Nalsodha, Bazitpur and Suvki are behind these attractive sarees. Ignoring personal comfort they work round the clock to meet the tremendous demand of Tangail saree at home and abroad. But the lion's share of profit goes to Mahajans. It is not unlikely that their spouses remain unclad due to abject poverty. Fortune does never favour them. ## Cattle lifting on rise in Sunamganj

SUNAMGANJ, Mar 1: Panic has been prevailing among the farmers due to rampant cattle lifting by an organised gang in the district, reports UNB.

The farmers said cattle lifting took an alarming proportion in Rangarchar and Mohanpur unions in Sadar thana. They said some 60 cattle were lifted from Rangarchar union alone last month.

Farmers alleged that the lifters with the help of influential quarters are lifting cattle almost every night and sometimes force them to pay ransom.

It is learnt that the lifters demand Tk 2000 to Tk 2,500 for each cow through letters which is beyond the reach of the poor farmers.

Meanwhile, police arrested Ali Ahmed and Iqbal Hossain, two alleged cattle lifters on February 20.

The poor farmers are passing their sleepless nights in cow-sheds to protect their cattle. They urged the authorities to take immediate action against the increasing number of cow-lifting.

## Unlicensed shrimp farms depriving govt of revenue

From Our Correspondent

SATKHIRA, Mar 1: The government is being deprived of huge amount of revenue from the shrimp farms every year as nearly two thirds of shrimp farms, out of 5,000, in greater Khulna district have no license for the cultivation of shrimps and lobsters.

Besides, armed clashes between the shrimp farm owners and the owners of the lands (within the shrimp farms) are increasing gradually, over the compensatory payment to the owners of the land as per scheduled rate. Owners of small and marginal farmers are being evicted from their lands by the shrimp producers.

There are about 5000 shrimp farms in Satkhira, Khulna and Bagerhat districts and more than 91 hectares of paddy land remain within the shrimp farms. But only 2,000 farms have licenses as per the shrimp cultivation rules and the owners of the rest 3,000 shrimp farms are cultivating shrimps and lobsters without government recognition.

The government has already made a number of rules and regulations with a view to encouraging shrimp and lobster cultivation.

Besides, the shrimp cultivators have to fulfill the following terms and conditions before getting licenses. The terms and conditions are: Written consent of the owners of 80 per cent land where shrimps will be cultivated; clearance of compensatory payment of land (locally known as hari) to the owners; written assurance of causing no damage to the paddy lands and their crops in and around the fish farms; written assurance of not breaking the embankment illegally; payment of the government taxes for each bigha of land.

It was alleged that shrimp farms are established hither and thither by the influential shrimp producers defying all those rules of shrimp cultivation. These influential shrimp cultivators possess paddy lands and managed the big and influential owners of lands to allow the saline waters to enter the paddy fields within the shrimp farms with the help of the hired musclemen.

The saline water is very helpful for shrimp cultivation, but it affects the paddy lands and crops very badly. The

marginal farmers or the owners of small quantity of land are against this system and do not get any compensation. Even the marginal farmers can not go to their land in order to cultivate paddy there for fear of musclemen.

It is alleged that shrimp producers register false robbery, dacoity, looting cases against the owners of land who protest against all these tyrannical acts of shrimp producers.
