Khas lands being grabbed in Jessore
Alleged corruption in Revenue Deptt

From Atiur Rahman

JESSORE, Aug 9: An unhealthy competition of grabbing khas lands has been reported in a beel situated under two thanas of greater Jessore district recently.

Alleged corruption by the local Revenue Department has triggered this situation.

The land grabbers have been filing cases and counter cases to establish their right and title.

According to sources, all the khas lands under 'Dobeel' are still in possession of these groups despite rejection of their cases by the court.

They filed cases in local civil court against the government to win a decision in their favour.

But the court decisions went against them. This decision was given by the court when the deeds and documents, submitted in the court in support of their ownership, were found totally false and fabricated.

All deeds and documents in connection with the cases were allegedly manufactured locally by professional forgers.

The illegal possessors of land have collected DCR from local Revenue Office through foul means.

It may be noted here, the DCR bears no value in the court of law.

It has been proved beyond any reasonable doubts that all these khas lands have been grabbed in connivance with the Revenue Department.

According to another source, 900 bighas of land arising out of this beel have been grabbed for cultivation.

'Dobeel' comprising nearly 1,000 acres of water area, has been reduced due to continued drought and sitting up.

Besides these 900 bighas of land a segment of the total beel area was brought under cultivation after the Liberation War. A group of persons are reportedly in possession of the land and enjoying the ownership.

According to revenue office sources, any plot of land arising from water area and becoming for cultivable can not be treated as agriculture land until its character is changed.

The office sources further told that these are certain formalities to change the character of land.

The source further said that acting on the report from local Tahasil office, district kanonguwa or surveyor would go to the spot and verify it physically for reporting to Deputy Commissioner. The Deputy Commissioner, on receipt of the report, will give directives to Additional Deputy Commissioner (ADC) Revenue to process and finalise the matter under

intimation to him.

So bill completion of the process, the character of such land cannot be officially changed and accepted in the eye of law.

Dobeel is now a closed beel. It is surrounded by villages namely Kadabila, Mangipara, Hogoldanga, Borokhanpur of Chougachha thana and Bidudharpur, Nowdagam, Balivadrapur, Azampur, Syedpur of Moheshpur thana in greater Jessore.

The ownership of Dobeel was transferred to the erstwhile government of Pakistan during the partition of India in 1947. Originally it was the property of Hindu Zamindars. They left the country before the partition leaving the property unclaimed.

The beel is still khas to the government and remains recorded in Volume No. 1.

A source of local District Fisheries Office told that Dobeel has been selected for inclusion in the aquacultural development project. Accordingly the work is supposed to begin from the coming fiscal.

During a recent visit to the Dobeel area, this correspondent met with a number of opinion leaders including Sofuddin Ahmed, a teacher of Hogoldanga Non-government Primary School, a social worker Bazulur Rahman Khan, ex-union member Abdul Malik of Kadabila. They demanded distribution of the khas lands under the beel among peasants either individually or by forming a co-operative society. This will help rehabilitate the landless and land-poor. This will also ensure poverty alleviation in rural Bangladesh.
