CARS THAT MAKE SENSE

### BRTC able to

### assemble

double-decker bus

It has been possible for the first time to assemble doubledecker bus in Bangladesh, reports BSS.

Bangladesh Road Transport Corporation (BRTC) spent Taka only 12 lakh to assemble a double-decker by its own technical expertise, an official handout said here yesterday.

"The government has to spend Taka 36 lakh to import a double-decker bus," the handout said adding that BRTC would be able to assemble such buses from now on. Only chassis should be imported, the handout said.

Communications Minister Anwar Hussain yesterday saw the newly assembled doubledecker and said assembling of such buses in Bangladesh would help the government save its toreign currency and create employment opportunities in the

Communications Secretary Sayed Rezaul Hayat and BRTC Chairman Azmal Choudhury were also with the Minister, the handout said.

### LPG crisis in Gaibandha

From Our Correspondent GAIBANDHA, Oct 12: People of the district town are suffering from LP gas crisis as the gas supply is meeting only 10 per cent of the total requirement.

While contacted the local agents of Petrobangla said they can not deliver gas cylinder adequately due to short supply from depot.

On the other hand, consumers alleged that the agents sold out bulk of the gas at the depot at a high rate. A consumer said the gas

cylinders sell in the black market here for high prices. According to a statistics, at

1,500 families of Gaibandha town depend on LP gas for the preparation of their food items.

### Textile dyeing, printing assoc team meets PM

A delegation of Bangladesh Textile Dyeing and Printing Industries Association yesterday met Prime Minister Sheikh Hasina at the Secretariat office and apprised her of various problems they are facing, reports UNB.

The Prime Minister gave them a patient hearing and assured all possible help for solution of the problems of the textile dyeing and printing sector.

Led by association President Mohammad Badrul Huda, the delegation included vice-president Ataur Rahman, Ayub Hossain, Abed Ali and Mezbah Uddin Chowdhury.

## Envoy speaks at sewing technology course

# Japan open to quality RMG

Japan has intensified its human resource development activities at grassroots level to ensure appropriate utilisation of latest technology to accelerate Bangladesh's economic uplift. Japanese ambassador Yoshikazu Kaneko said here yesterday, reports BSS.

"Cultivation of human resources is a crux of successful industrialisation of a country. Technology transfer, especially in garments industry in private sector to tap the full potentials of the country's human resources by upgrading their skill is an indispensable factor for Bangladesh to take off on to the higher level of economic growth, said Kaneko while addressing the opening ceremony of the two-week long "Bangladesh-Japan training course on industrial sewing-machine technology," divided into two batches.

Kaneko said to penetrate into Japanese market Bangladesh garment manufacturers should have to take entre-

SINGAPORE, Oct 12: South-

gladesh, the fifth largest garments supplier to the USA and the sixth largest to the European Union, exports only 0.3 per cent of its total garments exports to Japan. Japan at present imports 80 per cent of garments requirement from China. Korea and ASEAN coun-

JETRO representative Bamba said if the present dutyfree facilities on raw materials and machinery continued and the policy directions are consistent, Bangladesh could be selfsufficient in fully supporting its ever growing readymade garments sector.

Backed by the government's import promotion support JETRO has been providing information, tailored to each regions needs to the developing countries including Bangla-

AOTS representative Dr Moazzem Hossain said his organisation has so far imparted training on various trades including maintenance of agricul-

tural machines, energy conservation of industrial boilers. management of construction projects, digital telecommunications technology and garment industries.

So far, he said, AOTS has trained 75,000 persons in Japan including 750 from Bangladesh. It also trained 60,000 persons in overseas countries including 1,200 in Bangladesh.

BAAS President Anwarul Haq said his alumni society constituted with the ex-trainees in Japan runs one language course and one computer training centre here on a regular basis with experienced teachers including university teachers.

Kh Zillur Rahim said operators of thousands of industrial sewing machines being used in evergrowing garment industries need training for proper maintenance of machines for their smooth running to get optimum productions.

# China seeks foreign investment in oil industry

BEIJING, Oct 12: With fuel imports soaring to meet rising demand. Chinese President Jiang Zemin invited foreign companies Sunday to boost investment in Chain's oil industry, says AP.

Jiang told international petroleum industry executives that the Chinese government recognized that economic growth has made rising consumption of petroleum products a fact of life.

mestic production, China "will give a favourable push to the exchange and cooperation among the oil industries of China and the world, Jiang said in open-ing the 15th World Petroleum Congress inside the cavernous Great Hall of the People.

Wang Tao, the recently retired head of the China National Petroleum Corp., the national oil company, told the executives that the congress "provides a unique opportunity for the Chinese and the world oil industries to get to know one another.

The congress, which meets once every three years, has drawn 4,000 participants from more than 80 countries and regions, Wang said. The gathering this year focuses on new technology, something China is keen to make use of. With its most productive

fields in East China peaking. China has sought new reserves. mostly in the remote reaches of the northwest and the politically troubled waters of the South China Sea. Chinese oil experts estimate China has 69.4 billion tons of reserves, much of it buried deep in the northwestern Xinjiang region.

China's total crude oil output in 1996 reached 156.43 million metric tons, an 11 per cent in-

high last year of 22.6 million tons of crude oil, a 32 per cent rise from 1996, according to the official Xinhua News Agency. Imports are expected to hit 30 million tons by 2000.

state companies have gone on overseas buying and invest ment sprees. China has entered exploration projects in Peru, Sudan, Venezuela and neighbouring Kazakstan. It also has signed separate oil and gas pipeline deals with the Kazakstan and Russian governments.

# Commodity market: Silver weak, tea strong and sugar sweet

LONDON, Oct 12: The oil market flared up on a renewed outbreak of tension in the Middle East, provoking a sudden rally in prices which seemed to bring an end to the gloom of the past few months, reports AFP.

The price of brent North Sea oil climbed to levels not seen since February of between 20 and 21 dollars a barrel. The United States issued a harsh warning to Iraq not to in-

fringe UN resolutions and a number of provocative incidents took place. Elsewhere on the commodities markets, base metals mainly weakened while gold failed to live up to the sparkling promise of the past fortnight, hit by concerted rate rises in

Europe and the threat of US monetary tightening. In a bold forecast, trading house Rufolf Wolff said that if inflation returns to haunt western countries, the base metals could rival gold as a safe haven for investors.

Palladium prices were bolstered by rumous of a fresh halt to Russian shipments. Cocoa held firm at its peaks, but coffee prices lost some

ground. GOLD: Scratched. Gold's glittering performance over the in interest rates. Gold may succumb to a re-

last fortnight came to an abrupt halt at the end of the week, after a final spurt of optimism was punctured by an upward trend

newed period of weakness, deal-

Golam Mustafa, Managing Director of Janata Bank, addressed a conference of regional

Rajshahi. He urged officials to help recover classified advance, mobilize deposit,

chiefs, corporate branch heads and branch managers of Rajshahi division

increase proper investment, earn more profit and improve customer service.

Gold prices quoted on the London bullion market fell back beneath 330 dollars per ounce (of 31.103 grammes) and closed the week at 327.70 dollars, compared with 332 dollars one week earlier.

next technical resistance level for gold prices would lie at around 325 dollars per ounce, analysts said. SILVER: Weak. The white metal was hit by gold's weakness, losing the gains it made in

If the gloom persists, the

the light of low stock levels on the New York comex market. However, these reduced stockpiles should support silver prices in the future, dealers said.

Silver prices fell to 5.15 dollars per ounce, compared with 5.2 dollars one week earlier. PLATINUM AND PALLA-

**DIUM:** Surge. Palladium prices rose on the wings of rumours that shipments from Russia, which produces 70 per cent of metal mined around the world. Would once again be inter-Palladium prices rose above

Three-month aluminum prices fell by 14.5 dollars to about 1,647 dollars per tonne. NICKEL: Stirring. Trade in nickel was slightly more intense than for the other base

But prices rose only modestly over the week, gaining 15 dollars to 6,630 dollars per

metals.

However, GNI predicted that the market might enjoy brighter times in the coming months. TIN: Sink. Tin prices fell

slightly amid quiet trade.

Three-month tin prices fell by 97.5 dollars to 5,690 per tonne. OIL: Spurt. Renewed tensions in the Middle East turned the heat on the oil sector this week, driving crude prices up. But later contradictory signals about the situation in the region caused prices to shed some of

their gains. Brent North Sea crude prices, which broke past the psychologically important level of 20 dollars during the previous week, ended around 20.70 dollars per barrel, 1.6 dollars higher than at the same

RUBBER: Firm. Rubber prices on the London market held firm at 585 pounds per tonne. Dealers continued to turn a close eye to El Nino weather patterns, which have come to threaten Indonesian rubber trees. COCOA: Firm. Cocoa prices

remained solidly at their peaks, advancing 10 pounds to 1,160 pounds per tonne. London-based trading house GNI said that the high cost of

shortfall in world supplies. COFFEE: Lukewarm, Robusta prices in London lost around 20 dollars to 1,670 dollars per tonne, despite fears that some Latin American plantations might have been

damaged by adverse weather

the tropical bean reflected a

conditions. Dealers attributed the decline to profit-taking, after a series of recent rises which took prices to high levels, and some doubts over the strength of demand.

TEA: Strong. Demand was strong for all high-quality brews, on the London tea auctions, the price for high-grade leaves reached 166 pence from 163 pence the previous week.

SUGAR: Sweet. Sugar prices firmed thanks to buying on the cash market and renewed interest from investment funds, bet ting on a rise in futures prices. On the London futures mar

ket, the price of white sugar gained two dollars to 313 dollars per tonne.

Mid-week, prices had fallen slightly after the European Union's decision to set record export quotas for the region's beetroot farmers, these quotas have been raised by 23 per cent this year to 717,825 tonnes. The International Sugar Or-

Soya oil prices on the Chicago Board of Trade (CBOT) rose by more than 40 cents to

6.70 dollars per bushel (of 27.2 kg — for delivery in November). On the Rotterdam market, palm oil prices held steady at 540 dollars per tonne. SUNFLOWER OIL: Prices rose by 32.5 dollars to 600 dol-

oil prices held at 1.085 dollars

per tonne and rapeseed oil

region and drive up prices.

gained two guilders to 117 per GRAINS: Calm. The wheat

Shifting

market remained calm this week in view of modest demand in the international market place and plentiful supply after this year's harvest in the north-

ern hemisphere. Prices on the Chicago market advanced for mainly speculative reasons. The price of wheat on the CBOT rose by 14 cents to 3.68 dollars per bushel (of 27.2 kg - for delivery in De-

cember). In contrast, maize prices rose in line with gains on the soya market.

The US Department of Agriculture's estimates of world output of maize published Friday were on the whole below market forecasts, which should drive prices still higher, analysts said.

COTTON: Placid. Cotton

prices underwent some technical fluctuation the US government said it expected US stocks to rise to 4.2 million bales of cotton by the end of the 1997-98 season, from 3.9 million at the end of 1996-97.

Cash prices covered by the cotton outlook index held at 79.5 cents per pound.

WOOL: Colder. In Bradford. British wool prices fell nine pence to 428 pence per kilo. In contrast, the Australian eastern lars per tonne, while groundnut wool index gained six cents to 7.05 Australian dollars per kg.
