

## Rights to land, vote of CHT people won't be denied, says Nasim

Telecommunications Minister Mohammad Nasim yesterday said the "smoke-screen of fear and confusion created by the opposition" has cleared from the minds of the Bengalees who are getting back confidence about the peace accord.

Talking to UNB at his residence, Nasim, who extensively toured the remote villages in the Hill Tracts in last five days, said the "evil designs" of BNP and its allies about the agreement have been exposed to the people in the three hill districts.

"Bengalees, living in the Hill Tracts permanently, are now

assured that their rights to land and vote will not be denied and army will continue to be there," he said.

Nasim said, "Alongside the implementation of the peace agreement, all development works in the CHT will start soon to give the benefit of the accord to both tribals and Bengalees there."

Nasim, who was accompanied by Chief Whip Abul Haq and Abdulla and State Minister for Planning Dr Mohiuddin Khan Alamgir during his CHT trip, said steps are being taken for surrendering arms by the Shanti Bahini and to bring

back refugees from Tripura as per provision of the agreement.

He said the peace agreement will be discussed in details in the coming session of parliament and broadcast live through radio and television to prove the transparency of the government.

The present peace accord is just a modification of the local government hill district council acts, framed by the Ershad and Begum Zia governments," the minister said.

Referring to the opposition's anti-accord agitations, Nasim said having failed to make any substantive issue, the BNP and its allies, including Jamaat, have concentrated on the CHT and are trying to confuse the people.

In a pointed reference, he said some big fishes, including some former BNP ministers, who had taken lease of hundreds of acres of land in the name of rubber plantation and got huge bank loans and made no investment there, are now raising hue and cry about the peace accord.

These parties and vested groups are trying to impose programmes like hartals and blockades on the innocent people in the Hill Tracts.... but their designs will not succeed as people want peace."
