

We'd like to share some of our deepest secrets with you.

http://www.chevron.com ©1997 Chevron Corporation

They go by the names of seismic data compression, CHEARS Reservoir Simulation and AROMAX among others. Sound a bit dull? Not to our partners. Each of our innovations has been painstakingly designed to help them explore for, produce and process petroleum products in the most effective and cost-efficient manner possible. See, Chevron doesn't create superior technologies just so we can succeed, but so you can, too.

 **Chevron**
The symbol of partnership.
