They said the total number of approved posts of primary school teachers in the district is 565 out of which 95 posts were lying vacant.

Some 71 schools are running without any headmaster for long, they added.

The posts of Thana Educa-tion Officers in Rwangchhari, Ali Kadam and Maikhyangchhari thanas and six posts of Assistant Thana Education Offi-

cers also remain vacant. Students of about 125 schools are suffering as there are no lavatory in their schools. These schools also lack tube-wells for pure water and play ground for the stu-

The District Education Officer said the students are being deprived of their education due to lack of these facilities in the schools. He said a good number of

school-age children can not be enrolled as there is no enough school to accommodate them. He said lack of necessary fa-

cilities in the existing schools is another hindrance for implementing the compulsory primary education programme in the district.

RAJBARI, Mar 27: A team of medical experts have detected 96 per cent tubewells contaminated by arsenic in Baliakandi thana of the district, reports

A two-week survey was conducted in the district by a 24member medical team of Dhaka Community Hospital with the help of Pabna Community Clinic to find out the extent of arsenic contamination in the tubewell water.

It revealed that 25 per cent tubewells in the municipal area here and 96 per cent tubewells of Baliakandi thana have been affected by arsenic contamina-

Leader of the survey team Dr Shah Golam Nabi Tuhin told that they had tested the tubewell waters of Vinodpur. Beradanga. Sajjankanda. Charpara and Purbapara areas of the municipality and found 25 per cent of the tubewells contaminated with arsenic.

He said they marked the affected tubewells with a red sign and suggested the local people not to drink the water of those tubewells.

He said the contamination rate of sub-soil water in Baliakandi thana is alarming
