DHAKA, WEDNESDAY, SEPTEMBER 30, 1998

Worker assaulted CEPZ workers go on wild

demonstration CHITTAGONG, Sept 29: Un-ruly workers at the Export Pro-cessing Zone (EPZ) here yester-day went on a wild demonstration in protest against assault-ing a worker by a bus assistant,

reports UNB. They damaged the bus and two other vehicles inside the EPZ creating panic in the area. Chaos continued for about an hours until police brought the situation under control through baton charge at about 8 am.

Witnesses said the trouble erupted as a private bus assistant assaulted Jamal, a worker of Mazadee Textile, at the EPZ

He mobilised other workers of the mills and also of neighbouring Modern Towels to lead the violence.

Hilsha prices fall sharply in Shariatpur

SHARIATPUR, Sept 29: Prices of hilsha have fallen in the local markets following abundance in supply over the last few days, reports APB. Consumers said that a big size hilsha fish was being sold at Tk 50 to Tk 60 compared Tk 120 to Tk 140 a couple of weeks

Now-a-days about 50 to 60 maunds of hilsha fish are sold here per day in contrast to an average sale of 100 to 120 maunds just a week ago.

In the absence of storage facilities, a huge quantity of hilsha gets rotten everyday.

High demand for dollar

Taka steady in interbank trade

The Bangladesh taka was almost steady against the dollar in the interbank trading yesterday although demand for the greenback was higher especially for foodgrain import, a foreign bank dealers in Dhaka said yesterday, reports BSS.

The taka was quoted at 47.24/47.50 per dollar yesterday against its previous day's close of 47.24/47.25.

Dealers said some nationalised banks, especially Sonali Bank, were reluctant to sell their reserves because of high demand for US dollars for opening letters of credit (LC).

This made many commercial bank to buy US dollars from the central bank, they

The dealers said that the interbank call money rates were down yesterday between 8.50 and 9.50 per cent against the previous day's level of 8.5 to 11 per cent. They further said that the pressure in the market would come down as treasury bills will mature today.

BKB monitoring teams to ensure proper credit distribution

Bangladesh Krishi Bank is sending mobile monitoring teams to the fields to ensure proper distribution of agricultural credit.

A senior BKB official told APB Monday that several teams would be working at village and thana levels to check any irregularities in the distribution of credit to the farmers.

The government has earmarked a total of Tk 3,270 crore for distribution among the farmers in its efforts to rehabilitate the agriculture sector battered by the worst flooding.

The amount is much higher than the normal annual lendings to the sector, according to the official of the agricultural

bank. The Krishi Bank has been asked to channel an amount of Tk 1,250 crore in the current fiscal, up from Tk 850 crore the bank disbursed during the last

(1997-98) fiscal. Other commercial banks and financial institutions, and the Rajshahi Krishi Unnayan Bank (RAKUB) will disburse

rest of the amount — the biggest in the country's history. The official also informed that they are going to issue directives to the local offices of the bank to open temporary booths in areas where the Kr-

ishi Bank at present has no branch. "To ensure proper distribution of credit, we have been advised to open booths in such unions and important village

market places where the Krishi Bank and other banks have no branch at all," he said. The temporary booths of the BKB would be opened soon the official said hoping that they

BOI-BFFEA meet told

Frozen food sector needs proper management, financial support

The country can earn foreign currency equivalent to 1.5 bil-lion US dollar by exporting frozen foods alone if this sector is properly managed by provid-ing financial support and other backing, reports UNB.

This was expressed at a meeting between Board of Investment (BOI) and Bangladesh Frozen Foods Exporters Association at the conference room

of BOI. The meeting also viewed that Bangladesh was poised to emerge as one of the most potential areas for setting up of joint venture industries, especially in the hatcheries, sustainable aqua-culture technology, feed meals plants and processing units for value-added products.

Presided over by BOI Executive Chairman Farooq Sobhan. the meeting was attended by the office bearers of the Association and representatives of Export Promotion Bureau and Bangladesh Bank.

Addressing the meeting. president of BFFEA Golam Mustafa highlighted the prospects and problems of this sector and gave a detailed picture indicating the statistical data on the fishery, hatchery and aquaculture of the country as compared to the position of the neighbouring countries.

He also strongly pleaded for

possible government support including financial, banking and other facilities to boost export earnings through this sec-

Khan Chowdhury Rezaul Hug has been made the President and Managing Director of United Commercial Bank Ltd. This was decided at a recently held meeting of the Board of Directors of the bank, says a press release issued yesterday. Prior to his new appoint-

ment, he was the additional managing director of the bank. Huq started his banking career in the erstwhile Muslim Commercial Bank Ltd in 1964.

He served in various capacities

in Rupali Bank before joining UCB since its inception. He was appointed deputy managing director in 1994 and was elevated to the post of additional managing director in 1997. During his long association with UCB, Hug contributed significantly to the growth and

development of the bank. Britain's global trade deficit up

LONDON, Sept 29: Britain's global trade deficit rose to 1,409 billion pounds (2.39 billion dollars) in July from a revised deficit of 1,292 billion pounds in June, official figures showed yesterday, reports AFP. The British trade deficit

with countries outside the Eu-

ropean Union rose to 1,122 bil-

lion pounds in August from a

revised deficit of 957 million pounds in July. The Office for National Statistics said that the value of worldwide exports showed that the trend in both imports and exports is "broadly flat." but economists warned that crises in Russia, Asia and parts of Latin America risked further

blighting British trade. An economist at HSBC markets, Darshini David, said: "We still feel things are likely to get worse on the export side as what's been happening in some of these other markets starts to feed through. At Royal Bank of Scotland.

Neil Parker said: 'The data suggests that UK goods are still relatively expensive in worldwide terms. Manufacturers have complained that the strength of

sterling after its interest rate

rises since May 1997 has blighted balance sheets of exporting industries. The ONS said that the value of worldwide exports of British goods in July was unchanged at 13.8 billion pounds and the

value of imports was unchanged

at 15.2 billion pounds. The global trade deficit was broadly in line with the predictions of economists, while the non-EU trade gap was slightly bigger than market forecasts of 1.0 billion pounds.

A new route along the old Silk route will seek to provide direct and modern transporta-
