Strengthening the Election Commission for Improvement in the Electoral Process

(Project - BGD/96/018)

VACANCY ANNOUNCEMENT

The Election Commission of Government of the People's Republic of Bangladesh, in conjunction with the United Nations Development Programme (UNDP) Bangladesh, is establishing a national voter's database with an adequate security system and the capacity to process and analyse data for over 60 million voters. Applications are sought from qualified Bangladeshi nationals for the following position:

Systems Manager (1)

Duration: up to 30 June 2000
Station: project office, Dhaka

In close collaboration with the National Project Director, other project staff and the staff of the Election Commission, the Systems Manager will be responsible for framing and designing the electronic electoral database management system to establish a continuously updated process of voter registration. The Systems Manager will:

- undertake a systems needs assessment of the network and software requirements of the Election Commission through the project;
- prepare recommendations for an electoral database, in consultation with the National Project Director and other staff of the Election Commission;
- recommend to the NPD the hardware and software specifications for an electoral database capable of meeting national needs;
- design and install the electronic electoral system to convert the current paper-based voters list to the electronic database;
- fully operationalize the electoral database system to include training of current staff users and new arrivals in its use;
- work as the database administrator/operating system manager, maintaining user accounts/passwords, audit trails and access controls of the system;
- install an effective security system to ensure authorised access to the database and its contents;
- consider expansion capacity in installation design for future expansion projects;
- produce user-friendly manuals accessible to current staff of the Election Commission as well as new arrivals;
- supervise and co-ordinate the work of the other three members of the systems design team;
- any other related task as authorised by the National Project Director

Qualifications: The incumbent will have a minimum post-graduate qualification, preferably in Computer Science/Engineering. Other advanced degrees, such as Business Administration, Economics, Mathematics, Statistics, Commerce and/or Demography will be considered. The incumbent will have a total of at least ten years experience in the IT sector, preferably with a background in systems analysis. This will include experience in handling large databases and familiarity with the latest database hardware and software. The incumbent will have experience of office automation, systems design and installation. The incumbent will also have experience in preparing user guides and manuals. In addition, the Manager will have a minimum of five years experience in a management capacity, preferably in information technology working for a private firm. Senior membership/fellowship of a recognised professional computer society is preferred. In addition to Bangla, the incumbent will have a strong ability in both spoken and written English.

APPLICATIONS (Please read carefully)

Applications should be marked "confidential" and include:

- a cover letter with a short statement explaining your suitability for the position;
