### D-8 summit likely to be held end February

The second summit of D-8 economic bloc will be held in Dhaka late February or early March, the Foreign Minister said yesterday, reports UNB.

The tentative time of the summit has been agreed upon by the member states, a specific date will be finalised soon. "Abdus Samad Azad told newsmen at the weekly briefing at the Foreign Office.

Eight members of the OIC — Bangladesh, Pakistan, Iran, Indonesia, Malaysia, Egypt, Turkey and Nigeria — launched the group in Istanbul in 1997 to foster greater economic cooperation among them.

The meeting of heads of state or government of the grouping was due in Dhaka last November, but was postponed due to prolonged flooding calamity in the country.

The Foreign Minister further said a conference of BIM-STEAC comprising Bangladesh, India, Myanmar, Sri Lanka and Thailand would begin in the capital on December 17.

He told newsmen that the three-day meeting "is expected to deal with trade and economic cooperation within the group." Officials of the BIM-STEAC countries will deliberate on possible cooperation in different fields on December 17 and 18 leading to a ministerial meeting.

### Britain to fund Tk 115cr projects

An agreement between Bangladesh and Britain was signed in the city yesterday for financing three new projects involving Tk 114.72 crore, reports UNB.

Visiting permanent secretary of Britain's Department for International Development (DFID), and Economic Relations Division secretary Dr K M Masihur Rahman signed the formal exchange of letters, officials said.

One of the projects, "Managing at the Top," is a new training programme for senior civil servants which will assist the government in developing the leadership and management skills of future top civil servants.

The second one is "Bridge Replacement Project" taken up for widening bridges on roads in the western part of Bangladesh, which have recently been upgraded to two-lane highways.

"Institutional Development Component of the Road Rehabilitation Maintenance Project," the third scheme being funded by UK under the deal, will support the establishment of a sustainable capacity for the Ministry of Communications and Roads and Highways Department to plan, manage and deliver the full range of their responsibilities in respect of main road-and-bridge network.
