Post-flood rehabilitation assistance Response from int'l bodies excellent, says Kibria
The country got good response to its appeal for international help to the tune of 900 million dollars after the floods and the aid pledged is fairly around the requisition placed, reports UNB.
The bailout came in different forms — emergency flood relief and post-flood rehabilitation assistance, import and reserve supports and so.
"The response is excellent," said Finance Minister Shah AMS Kibria appreciating the support of international community in times of Bangladesh's national exigencies.
Talking to UNB Thursday he said it would be difficult to sum up the total post-flood rehabilitation assistance as it came in different forms and types.
The government has already received 191 million US dollars as emergency flood relief till Nov 30 last year, including food and other relief materials, an official of Economic Relations Division (ERD) said.
"There was no need for emergency relief after Nov 30. Then we started receiving long-term rehabilitation assistance," he said.
The ERD official said they had not yet totalled the short-term and long-term assistance for post-flood rehabilitation as many funds are in the pipeline.
According to the finance ministry officials, the government received 138 million dollars from IMF as reserve support which directly went to Bangladesh Bank.
Besides, the World Bank gave 200 million dollars as import support to help the government foot the post-flood emergency import bills.
