FM calls for collective efforts to solve migration problem

Foreign Minister Abdus Samad Azad yesterday said the international symposium on migration, that concluded in Bangkok Friday, had succeeded with the participating countries agreeing that the problem should be addressed internationally through cooperative efforts, reports BSS.

"It was recognized in the symposium that since the problem affects many countries, it should be dealt with jointly," Azad told reporters at Zia International Airport on return from the Thai capital.

The Foreign Minister led a three-member Bangladesh delegation to the international symposium titled, "Towards Regional Cooperation on Irregular/Undocumented Migration" that ended with the adoption of "Bangkok Declaration."

Nineteen countries of Asia and Pacific Region attended the

symposium which was co-sponsored by Thailand and International Organization for Migration (IOM).

Azad said the Declaration laid paramount importance on the need for cooperation in tackling the challenge of irregular migration. The setting up of a regional office of IOM in Dhaka, which started functioning from last year, speaks of the importance the country attaches to the question of migration, he added.

The Foreign Minister said Prime Minister Sheikh Hasina recognised regional and international cooperation in this field when she permitted IOM to set up office here. He said Bangladesh is one of the few countries that are signatory to the rights of migration.

In the declaration, the participating countries, while noting the causes of irregular and undocumented migration, cited the on-going financial and economic crises and periodic natural disasters in some Asian countries which give birth to unemployment and also irregular migration.

In the Declaration the participants stated that migration, particularly irregular migration, should be addressed in a comprehensive and balanced manner considering its causes, manifestation and effects.

Since causes of irregular migration are closely linked to the issue of development, efforts should be made by the countries concerned to address all relevant factors to achieve sustained economic growth and sustainable development, the Declaration said.
