Valuable trees being plundered in Mymensingh, Jessore

From Aminul Islam

MYMENSINGH, May 9: Valuable trees belonging to Roads and Highways Department and Bangladesh Railway are being stolen away by miscreants frequently. The timber lifting activities are increasing day by day.

The miscreants allegedly in connivance with a section of employees of Bangladesh Railway (BR) are lifting away hundreds of trees from both the sides of the railway track from Sutiakhali to Awlianagar Railway Station in Trishal thana.

The miscreants are cutting down the trees of the Railway Department at broad day light under the very nose of the members of law enforcing agencies without facing any hindrance.

Two palm trees worth about Taka 10 to 12 thousand were stolen recently which were very close of Fatema Nagar Railway Station.

When contacted with an official of Mymensingh GRP thana he told the Daily Star that they know about the lifting incidents and a case was lodged in this regard. But none was arrested in this connection so far.

Besides, the organised gangs are engaged in lifting away the roadside trees belonging to Roads and Highways Department at night on Dhaka-Mymensingh, Mymensingh-Sherpur, Mymensingh-Kishoreganj, Mymensingh-Tangail roads.

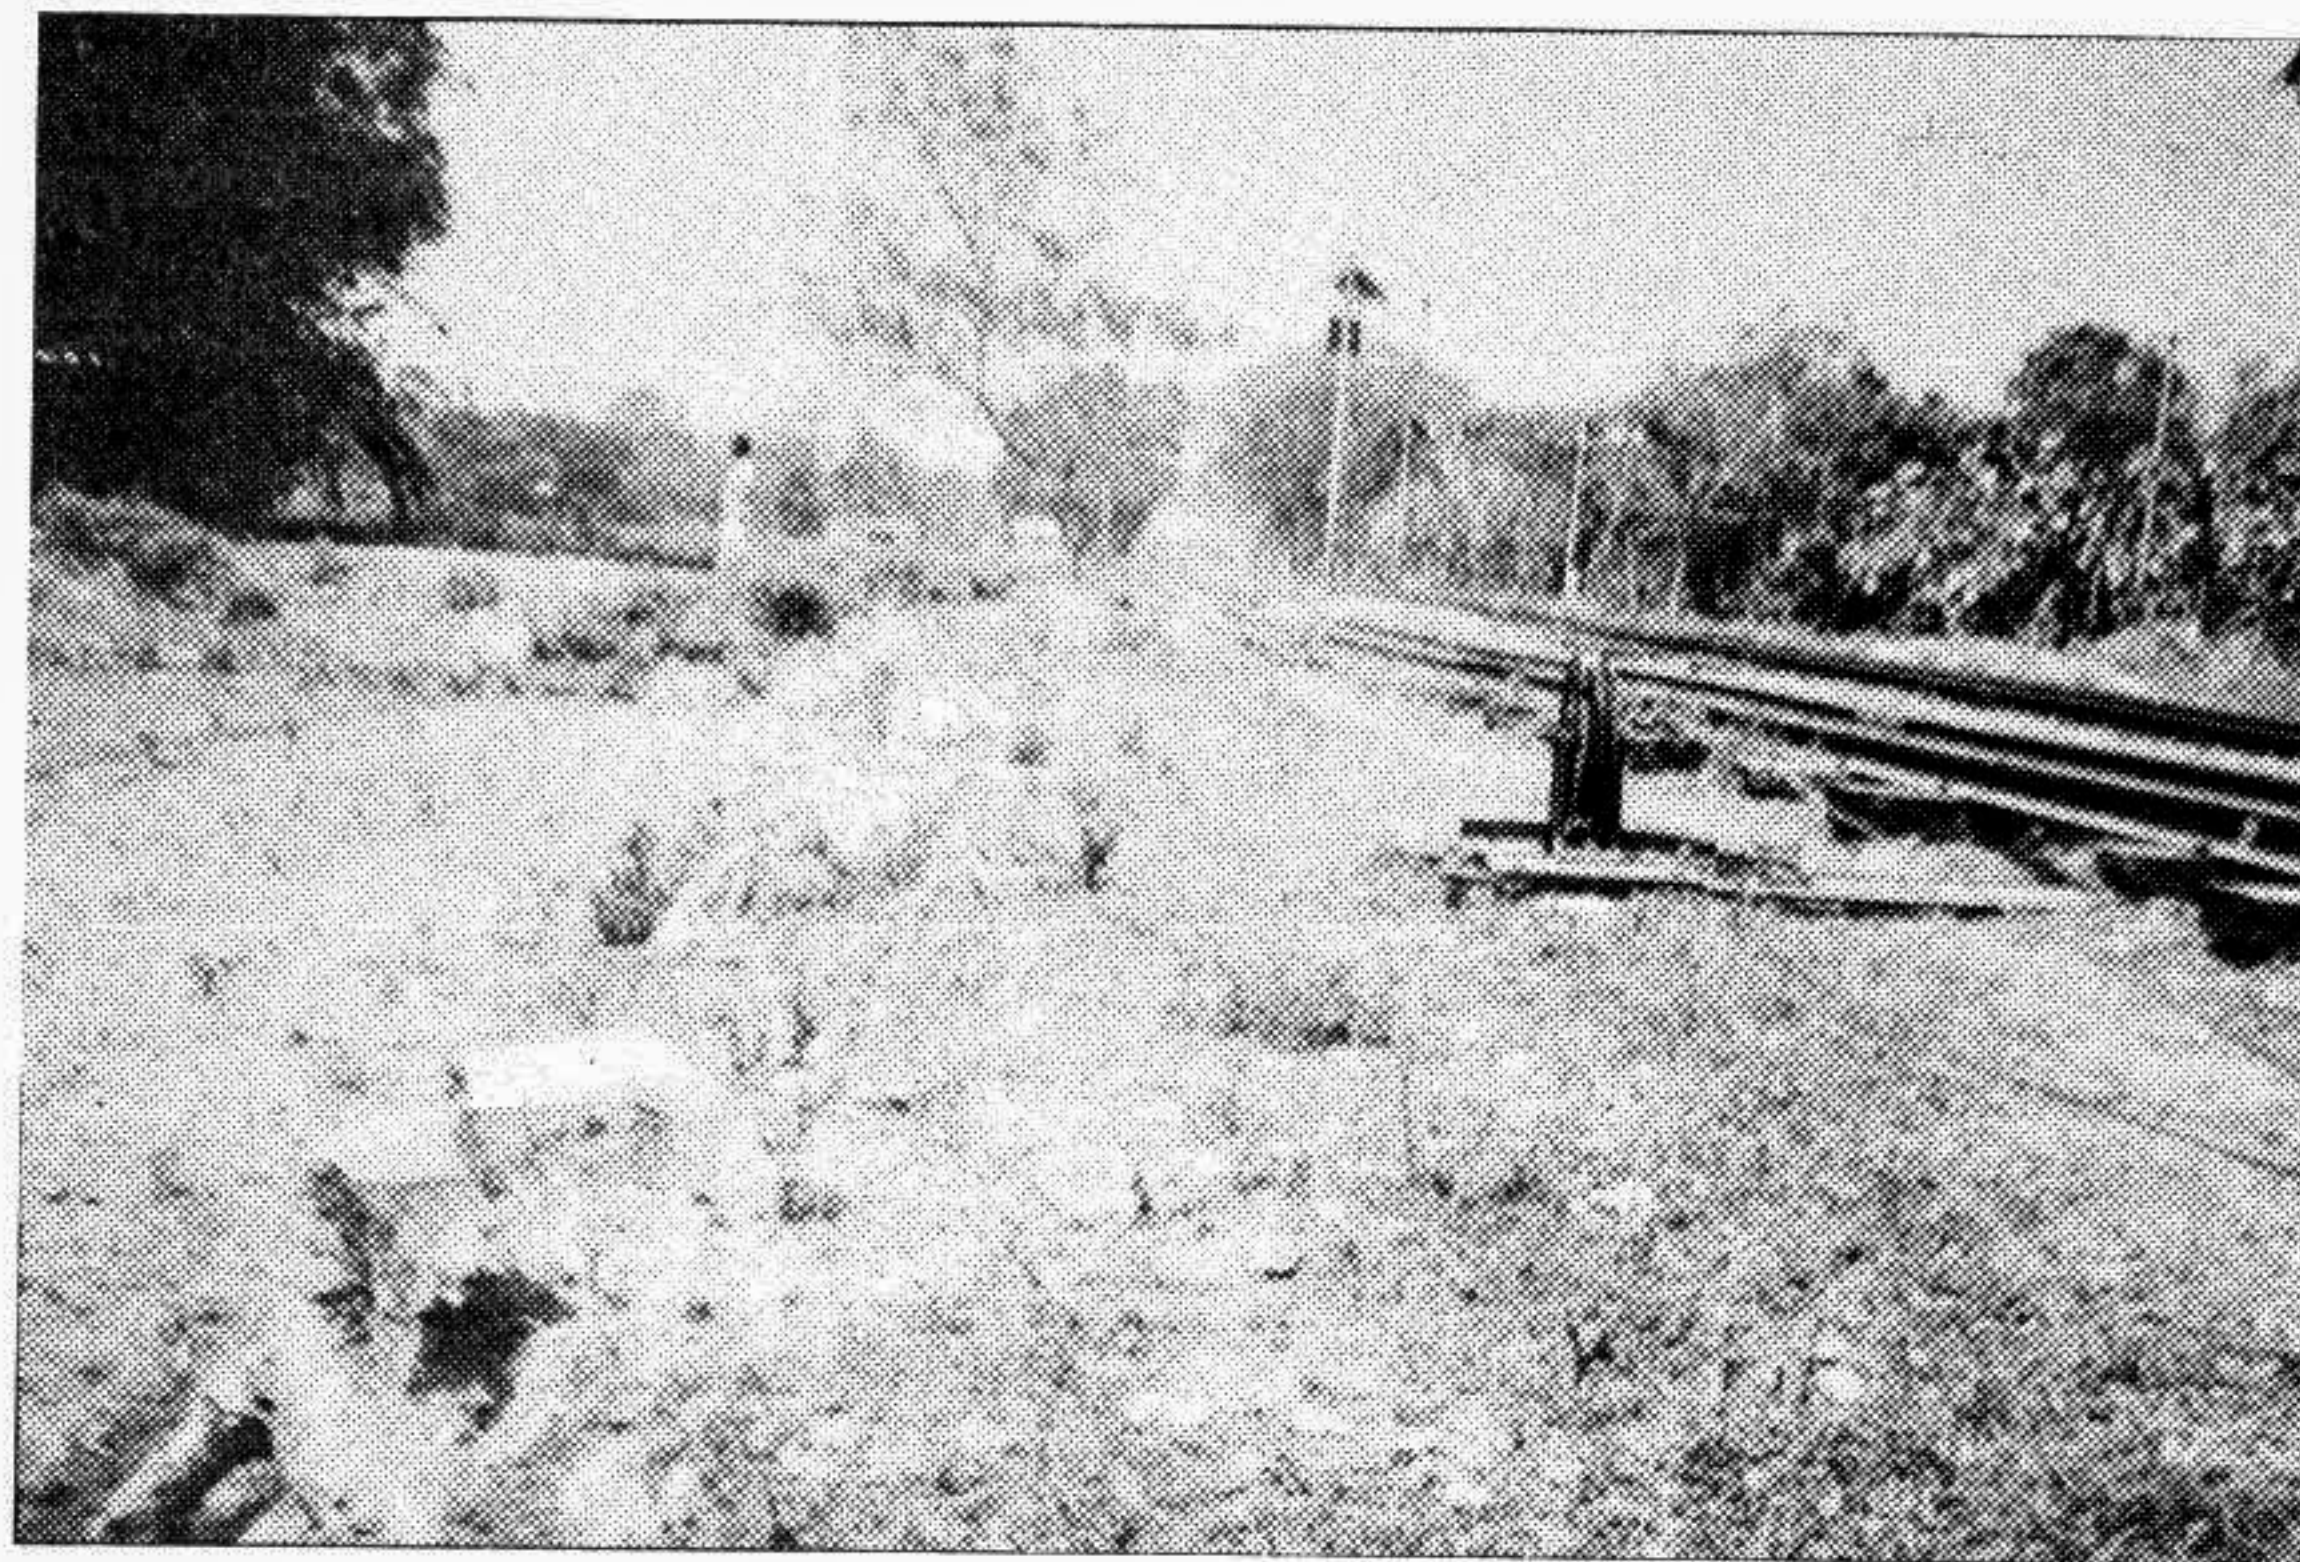

At first the miscreants cut the branches of the matured trees. As no action was taken for reasons known to the authorities concerned, the culprits become more active to cut down the trees with impunity. In such way huge loss to the government is being incurred by lifting away valuable trees including Shil Korai, Raintree, Mehagani, Ukalipatas and other trees.

Local people alleged that the law enforcing agencies are not active to check such lifting activities which encourages the miscreants to do their illegal job unabated.

Many trees on the sides of roads and railway tracks are also getting over matured resulting in loss of timber values.

Many of the trees were put on auction in the past and the rest are required to be put on auction to save the huge revenue loss of the government. Most of the over matured trees are Korai, Raintree and Mehagani.

UNB from Jessore says: Organised groups have been plundering trees on the roads and

This railway track has been passing between Sutiakhali and Awlianagar railway stations in Mymensingh district. Trees beside this track are being lifted very frequently by the miscreants. As a result the Railway authorities are facing huge losses. Picture shows the remainders of some sawed-off trees.

highways in the district seriously hampering ecological balance as well as depriving the government of a huge earning.

Sources in the local District Council said that there were 680 large trees on Jessore-Chougachhia and Jessore-Kali-ganj roads. The trees were planted during the Pakistan era and the average price of each of the tree at present was estimated at Tk 10,000, they added.

The maintenance of the trees was very difficult by the District Council and the organised groups have been taking away these trees without any resistance for long.

But the incidents of plundering of the trees increased much during the last two years, said the sources.

They alleged that local influential people, organised criminals, terrorists and a section of unscrupulous employees and officials of the Roads and Highways Department and police are mainly engaged in the plundering of trees.

They further alleged that some people's representatives also get share of the tree plundering.
