Dwelling between the World of Real and the Imaginary

Maynul Islam Paul's sculpture show ends

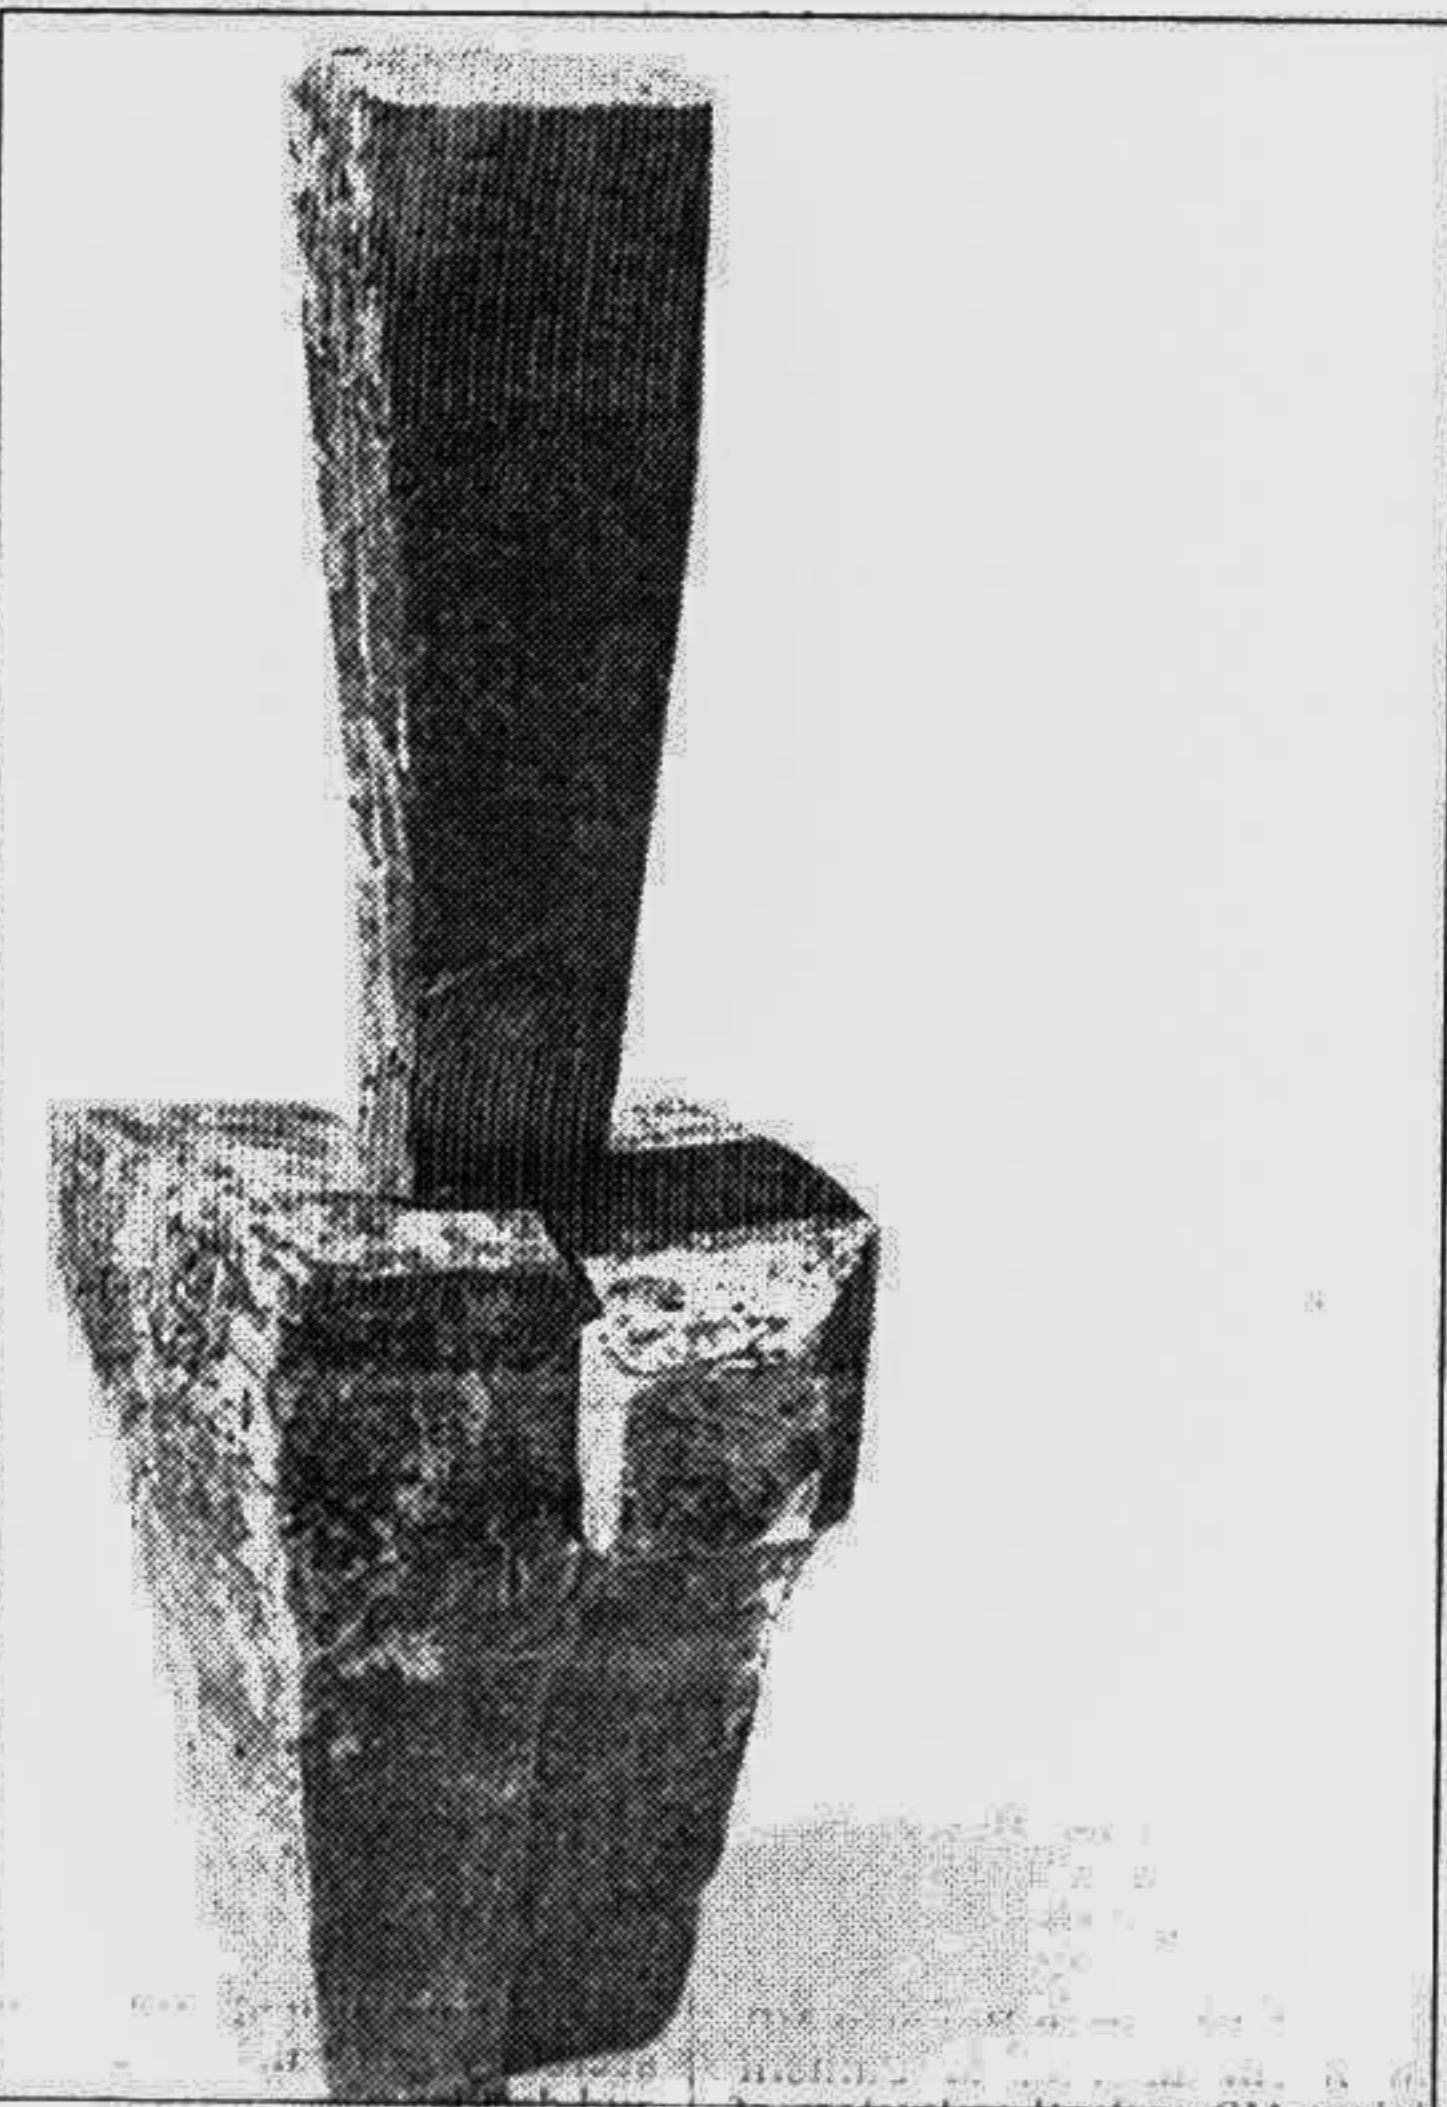

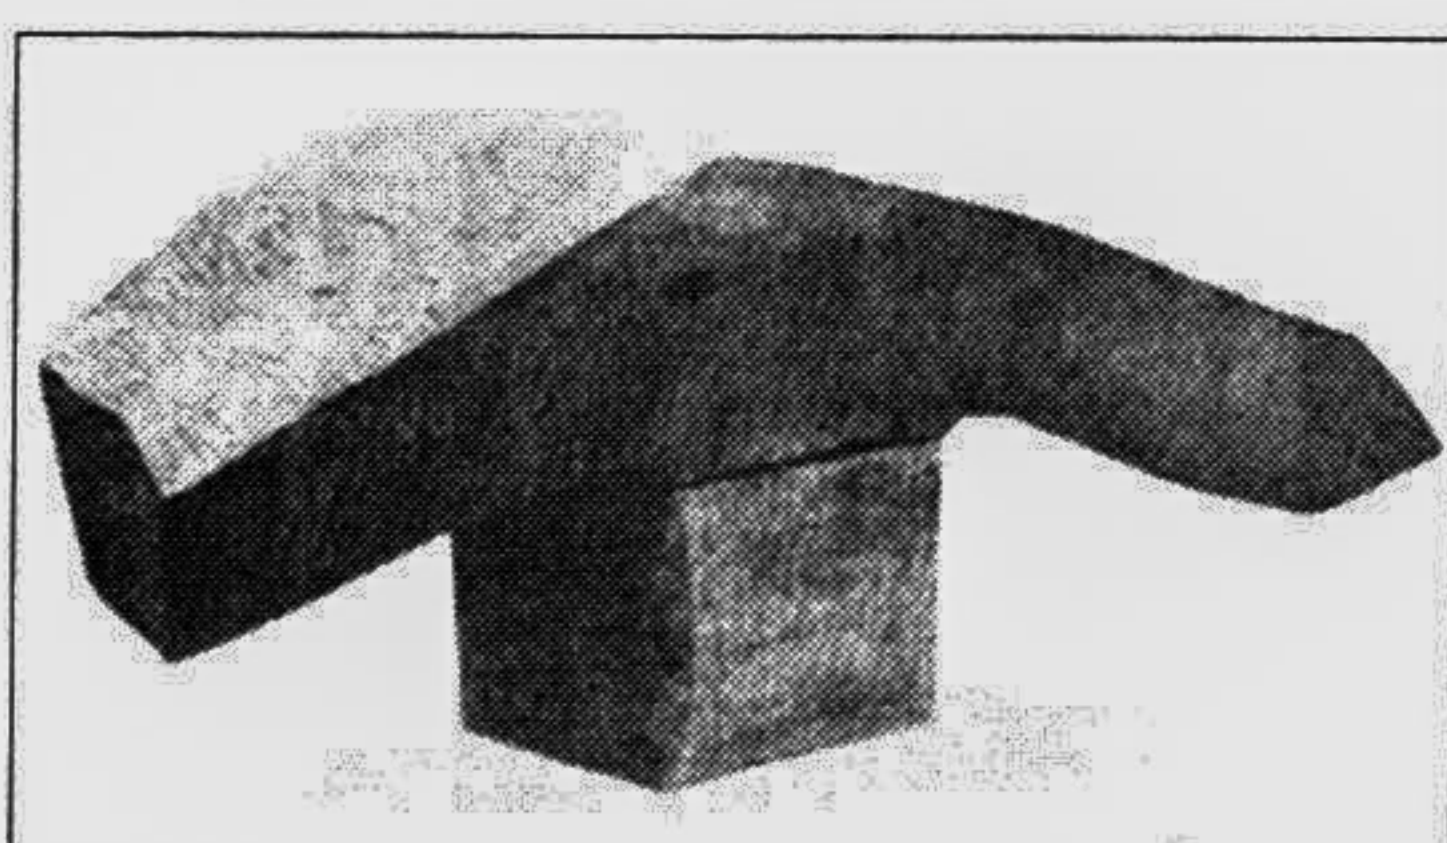

By Cultural Correspondent

MAYNUL Islam Paul is a young sculptor who displays a flair for creating interesting figures that are stretched right out of his imagination. They show a unique blend between structures that almost take form, but quite not so. It is this tug-of-war between real life structures and his imagination that makes his creations refreshing and beautiful.

His 2nd solo exhibition ended at the Zainul Gallery of the Institute of Fine Arts recently. The exhibition contained mainly clay, cement and metal models, wood curving and drawings by the artist.

Maynul's work comprises of pieces that are basically three-dimensional in structure. His work though inspired by human figures they do not quite represent human form. Maynul instead seems to concentrate on giving his pieces more lines and planes developing from human figures. In essence he uses his imagination to pull out the figures into shapes of its own. In an introduction to his exhibition, fellow artist Nasima Haque has said that Maynul tends to shift from the human anatomy towards other shapes. Thus his finished works look like as if figures have become chairs or chairs have become human figures. This is indeed a

very vivid description of most of Maynul's work.

Among some of the more eye-catching pieces at the exhibition were Conversation-2 (Wood curving). In this item two pieces of wood are placed on one top of the other in an inclined way, giving it a form that can be interpreted in various different ways. Conversation-4, another wood piece shows two similar pieces of wood, this time placed at a different angle on one another, giving a whole new shape and form to its structure. This particular shape also appears in two drawings of the artist, one in pastel and acrylic and the other in acrylic alone.

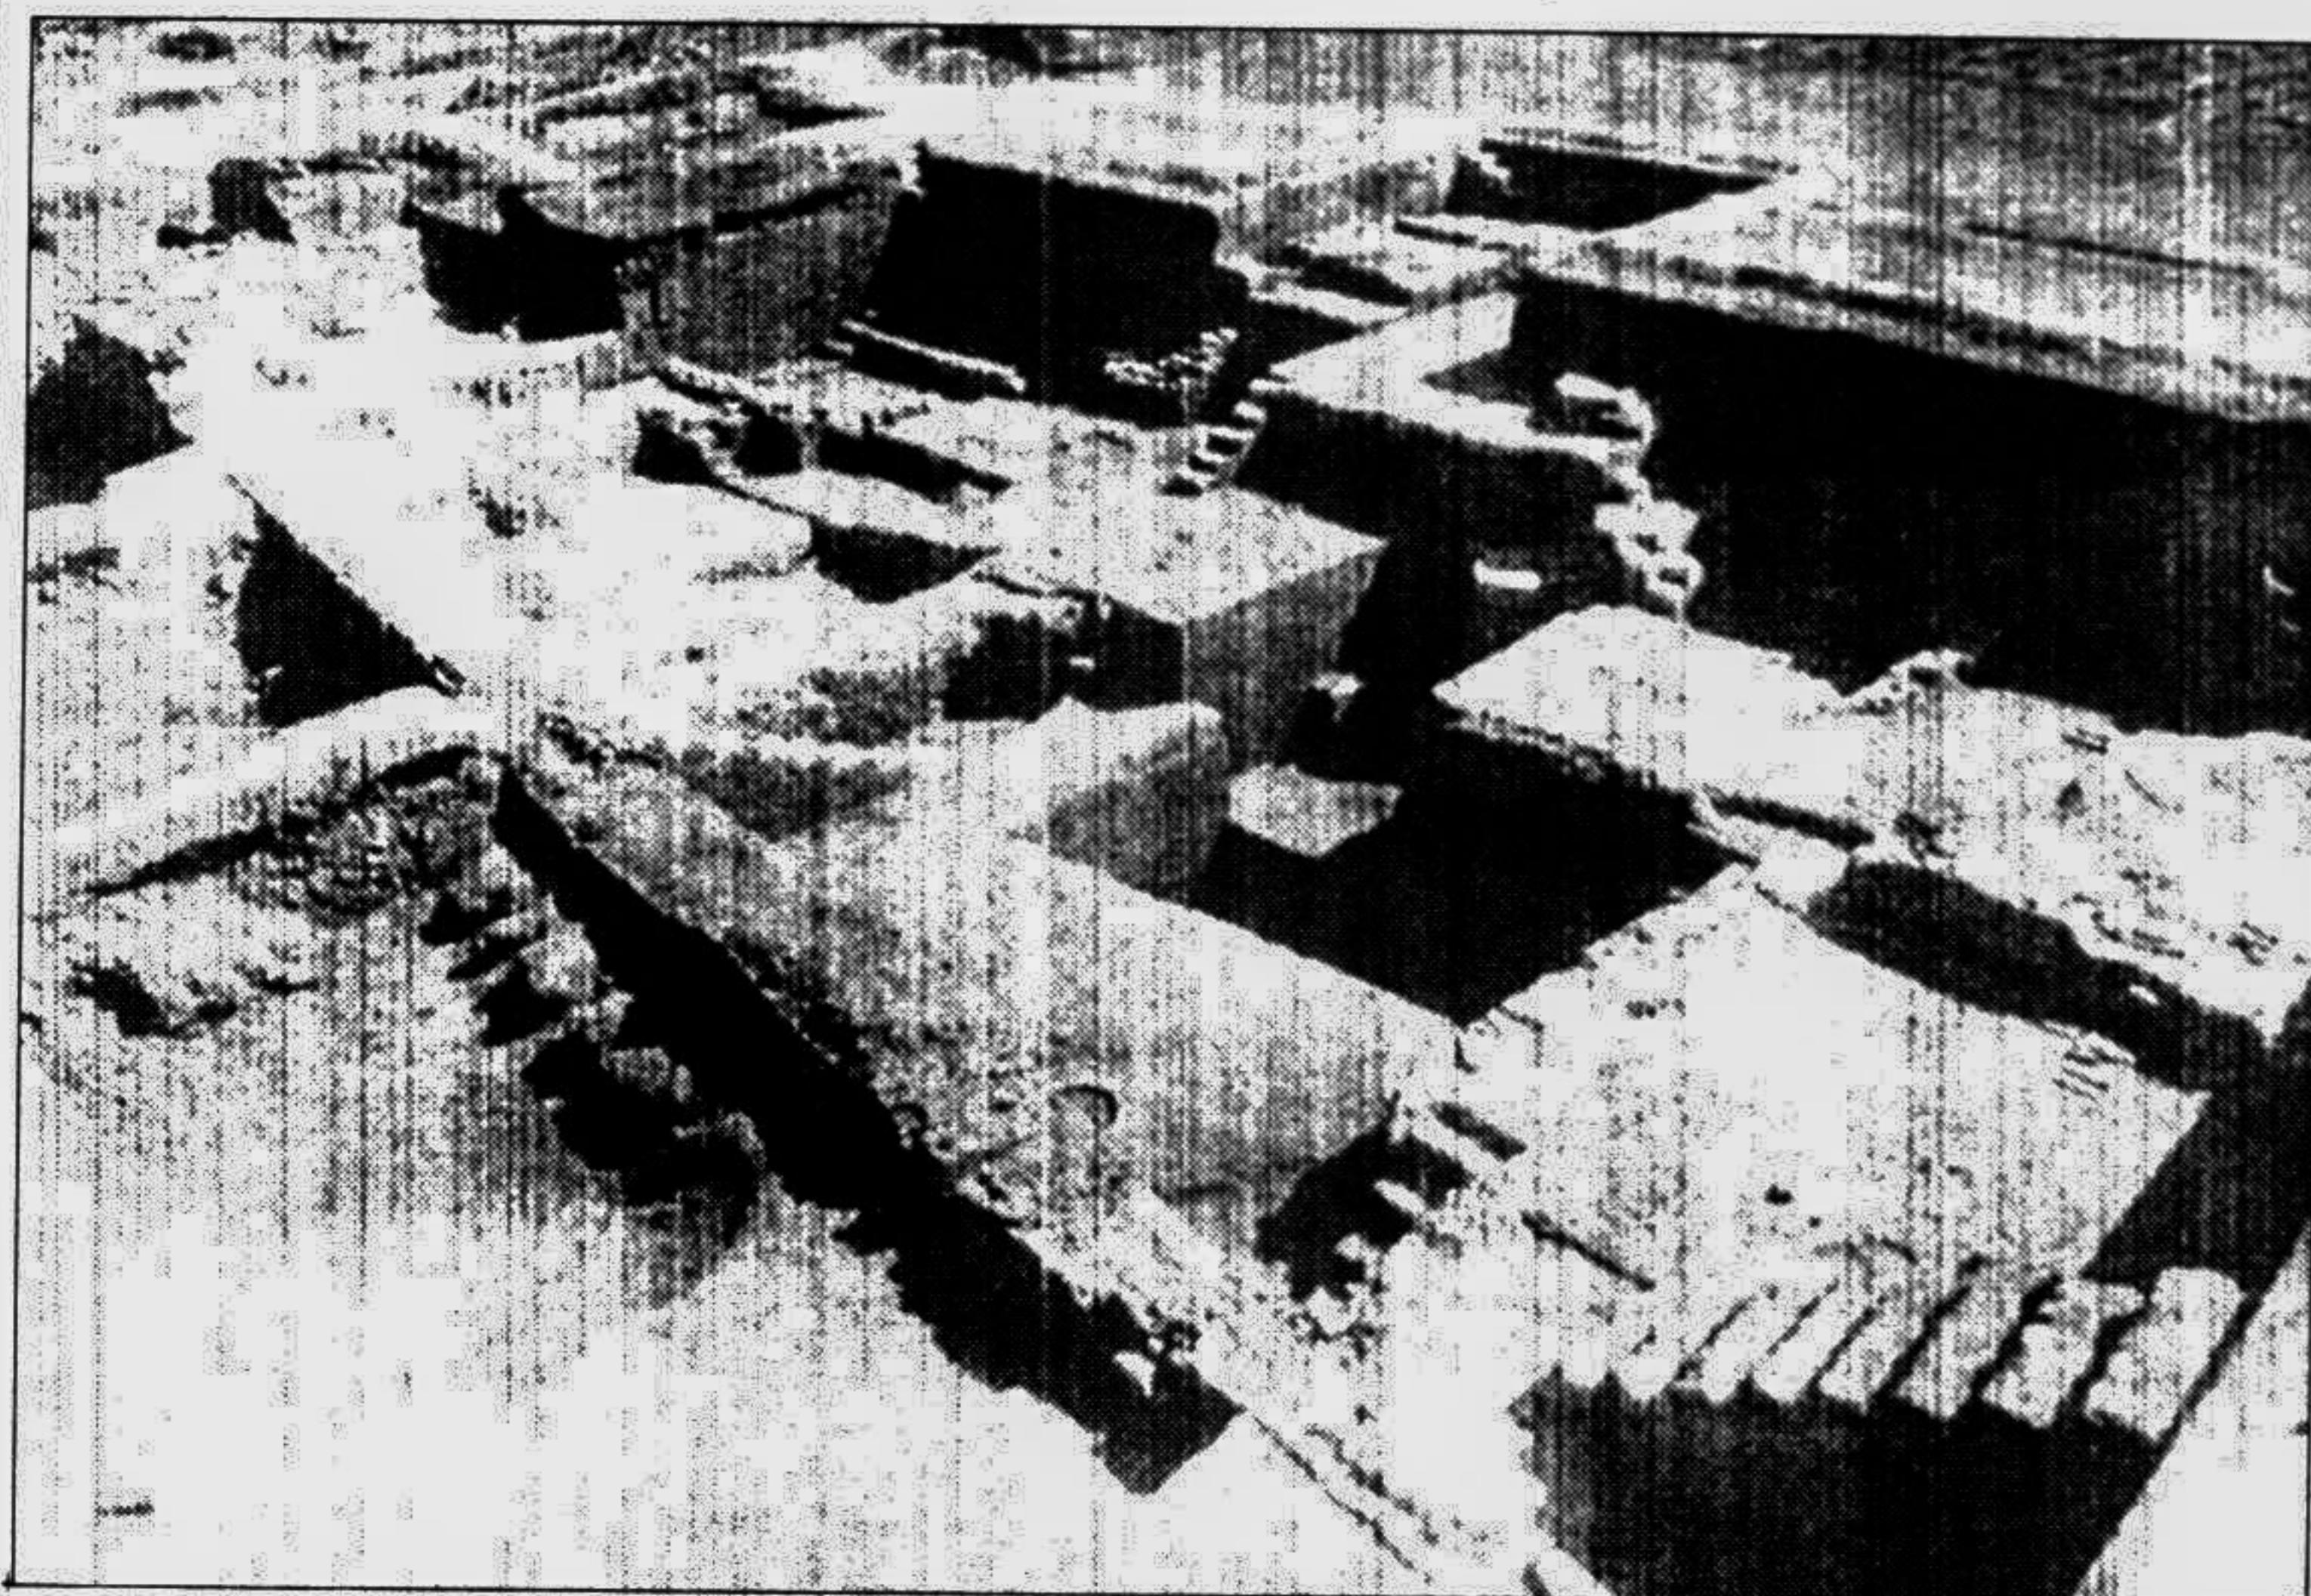

Maynul has completed his MFA from the Institute of Fine Arts of Dhaka University in 1991. He has already made a mark in the field by taking part in a large number of solo and group events in the country. Maynul has won an honorable mention at the 10th Young Artists Exhibition (1995) and also an award at the 'Experimental Sculpture' at IFA (1996).

His first solo exhibition was also at the Zainul gallery of Charukala Institute way back in 1997. He participated, among others, in the 10th and 11th National Exhibitions (1992, 1993), 10th Young Artists Exhibition (1994), 2nd National Miniature Art Exhibition at Shilpangan Gallery (1995), Three Man Show at Zainul Gallery (1996), 1st Gallery Tone International Miniature Art Exhibition (1998) etc. Maynul also participated in a Metal Welding workshop conducted by Suzanne Benton at IFA in 1994 and the first Sculpture Workshop conducted by Abdur Razzak at Shilpakala Academy in 1995.

His works are in the permanent collections of the National Art Gallery of Shilpakala Academy, Asiatic Society office in Dhaka and the Liberation War Museum.

Glories of Past Revealed

Exhibition of relics discovered from Mahasthangarh

The excavation site of Mahasthangarh

By Saima Islam

OUR present holds the key to our future as our past designs our present.

Department of Archaeology Bangladesh, Bangladesh National Museum, Maison De l'Orient Meditteraneen, Alliance Francaise de Dhaka, and Embassy of France, jointly organized an interesting exhibition of the relics excavated from Mahasthangarh at The Bangladesh National Museum from November 12 to December 1.

The exhibition is the result of an excavation programme done between 1993 and 1999 as part of an agreement signed between Bangladesh and

France. Among the exhibits, 300 pieces are found in the latest excavation and the rest 129 are from earlier collections.

The excavations at Mahasthangarh are financed jointly by the Directorate of Archaeology (Bangladesh) and by the commission des Fouilles du Ministere des Affaires Etrangeres (France).

The excavation site is located about 20 km north-west of Bogra. The archaeological facts prove Mahasthangarh was built during the Mourza period and lasted till the Muslim period.

The first mention of the site in modern literature dates back to the early 19th century with Buchanan's description of the Dinajpur district.

Archeological exploration of Mahasthangarh started in the late 19th and early 20th century. As a result of these excavations, it is now quite clear that the chief interest in the antiquities of Mahasthangarh is Buddhist.

Regular excavations were carried out by the then Department of Archaeology of Pakistan in 1960/1961, which revealed, the earliest period of occupation here goes back to the 3rd century B.C. Since 1971, the Directorate of Archaeology of Bangladesh has conducted many conservation and restoration works.

The exhibition is getting a good response which shows the general people's interest in such exhibition. To make the exhi-

bition more interesting there is a video display how potters work. But there are some drawbacks of the exhibition, there is no Bangla literature describing the objects found in the latest excavation, which may prove difficult for the general public. The catalogue priced Tk 125 is targeted for whom? Students and, general public are complaining about the expensive catalogue.

The catalogue apart, this unique exhibition will definitely prove worthwhile for interested people, academics and researchers.

Mahasthangarh holds mystery of our past and this exhibition may reveal the undiscovered secrets of our glorious past.
