Tk 123.16 cr Coastal Green Belt Project undertaken

FENI, Nov 16: Forest Department has undertaken a Coastal Green Belt Project involving over Tk 123.16 crore in a bid to protect coastal people from cyclone, tidal surge and alleviate their poverty, reports UNB.

Officials said Asian Development Bank (ADB) and Norwegian donor agency Norad will provide funds for implementing the project.

Under the project, programmes will be taken to plant saplings alongside embankments, roads, highways, railways, vacant places of dwelling houses, educational institutions and government and non-

organisations in the coastal area.

To gear up this social afforestation programme, provisions have been made to involve local people in the project on the basis of profit-sharing process.

Under the project, the Forest Department will bring some 26,000 hectares of land of 10 coastal districts — Feni, Noakhali, Laxmipur, Patuakhali, Barguna, Chittagong, Cox's Bazar, Bhola, Pirojpur and Bagerhat — under afforestation in five years.

Coconut trees would be planted on 1,400-km cross

dams while palm, betelnut, date and other trees on 1300-km cross dams. Various fruit-bearing and wood-producing trees will also be planted on 4,720-km roads, highways, link-roads and railroads.

Besides, 150 nurseries will be set up on 500 hectares of land under the project area while coconut trees will be planted in the coastal belts on experimental basis.

Some 2.80 crore quality saplings will be distributed free among the coastal people to plant on vacant places alongside dwelling houses, educational institutions, cyclone

shelters, mosques and government and non-government organisations.

The department has already taken measures to ensure participation of the people and their due shares.

They said planters will receive 50 per cent share of the money to be saved after selling trees in addition to consuming fruits while the landowner will get 15 per cent. Forest Department 20 per cent and NGOs implementing the project 15 per cent.

Meanwhile, 10 NGOs have been selected for implementing the project.

Mukit's way of boosting food production

From Iqbal Siddiquee

SYLHET, Nov 16: The lands on which farmers usually grow single crop may produce crops thrice a year.

This has happened by dint of the tireless efforts of an agricultural scientist named M A Mukit. He is the owner of 'Bijghar Agri-Firm and Industry', a commercial firm situated in Jobeda Market of Zindabazar area in Sylhet town.

Mukit, who is also a freedom fighter, has acquired good knowledge on agriculture from Agricultural Extension Department, BADC (Seed), Crop Diversification Project, Agro-based Industries and Technology Development Project (ATDP) and Food and Agriculture Organisation (FAO). An educated and en-

thusiastic person, Mukit, 50, is always eager to acquire knowledge on agriculture whenever he gets any chance.

About 20 acres of land in Tuberbar area on the outskirts of Sylhet town were used for cultivating only a crop a year. He initiated the use of lands for three crops. At first he cultivated Aus paddy named BR-3. Its harvesting has begun where the yield per acre will be about 60 maunds, Mukit hopes. The farming has been delayed for a few days due to drought. Now he prepares for cultivating winter vegetables. He is also planning to cultivate Boro paddy on the same land.

Mukit does not own the lands, rather he took lease

from the owners for a period of three years. Confident Mukit informed that a number of people like the Deputy Director of Agriculture and other officials encouraged him in this regard.

An amount of Taka Three lakh has been spent for the programme which also provided job for 45 persons, said Mukit. He also added that job for more people would be created. He also hopes to launch another project in Ausha area. It will be bigger with an estimated budget of Taka Seven lakh, he said. Earlier, he cultivated different summer vegetables and other crops.

Mukit hails from village Silam in the Sadar thana.

Harvesting going on in Mukit's field.

to produce 12,000 tons of onion, 2,000 hectares of land to produce 11,500 tons of garlic, 500 hectares of land to produce 1,000 tons of green chili and 3,400 hectares of land will be brought under winter vegetable cultivation with the production target of 51,000 tons during the upcoming winter season.

Bangladesh Chemical Industries Corporation (BCIC) has stockpiled 30,000 tons of urea, 10,000 tons of TSP and 9,000 tons of DAP in the buffer stock godown.

Besides, almost 38 dealers have been asked to sell a 50-kg bag of urea at the maximum rate of Tk 285.

As part of the co-ordinated programme, Bangladesh Petroleum Corporation (BPC) has increased its reserve in three regional oil depots in Natore for ensuring supply of fuel to the growers considering the peak irrigation period.

Natore Horticulture Centre has also produced about five lakh saplings of quality vegetables including cabbage, cauliflower, tomato, brinjal, bean, and cucumber to distribute among the growers.

Moreover, trainings on modern cultivation and technology transfer are being conducted for farmers in batches.

Erosion takes serious turn in Kushtia

From Our Correspondent

KUSHTIA, Nov 16: Erosion by the Padma and the Gorai has taken serious turn in recent days following the fall in water level, affecting a large number of people in Daulatpur, Bheramara and Kumarkhali thanas.

The erosion has been forcing people to move to safer places, besides threatening educational institutions, business establishments, roads and arable lands.

In Daulatpur thana four unions have been affected badly. Standing crops on about five thousand acres of land are now under threat. About five hundred houses have been devoured in the recent onslaught. The badly affected villages under Chilmari union are Chakrampur, Purbazumara, Pashchim Udaynagar, Uttar

Udaynagar, Charvabandadiar, Sarkarpar, Pashchim Amdani Ghat, Purbazumara, Pashchim Ramkrishnapur, Pashchim Raktishnapur, Dakkhin Kharizathak, Uttar Kharizathak, Dakkhin Sarkarpar, Uttar Sarkarpar and Temadia.

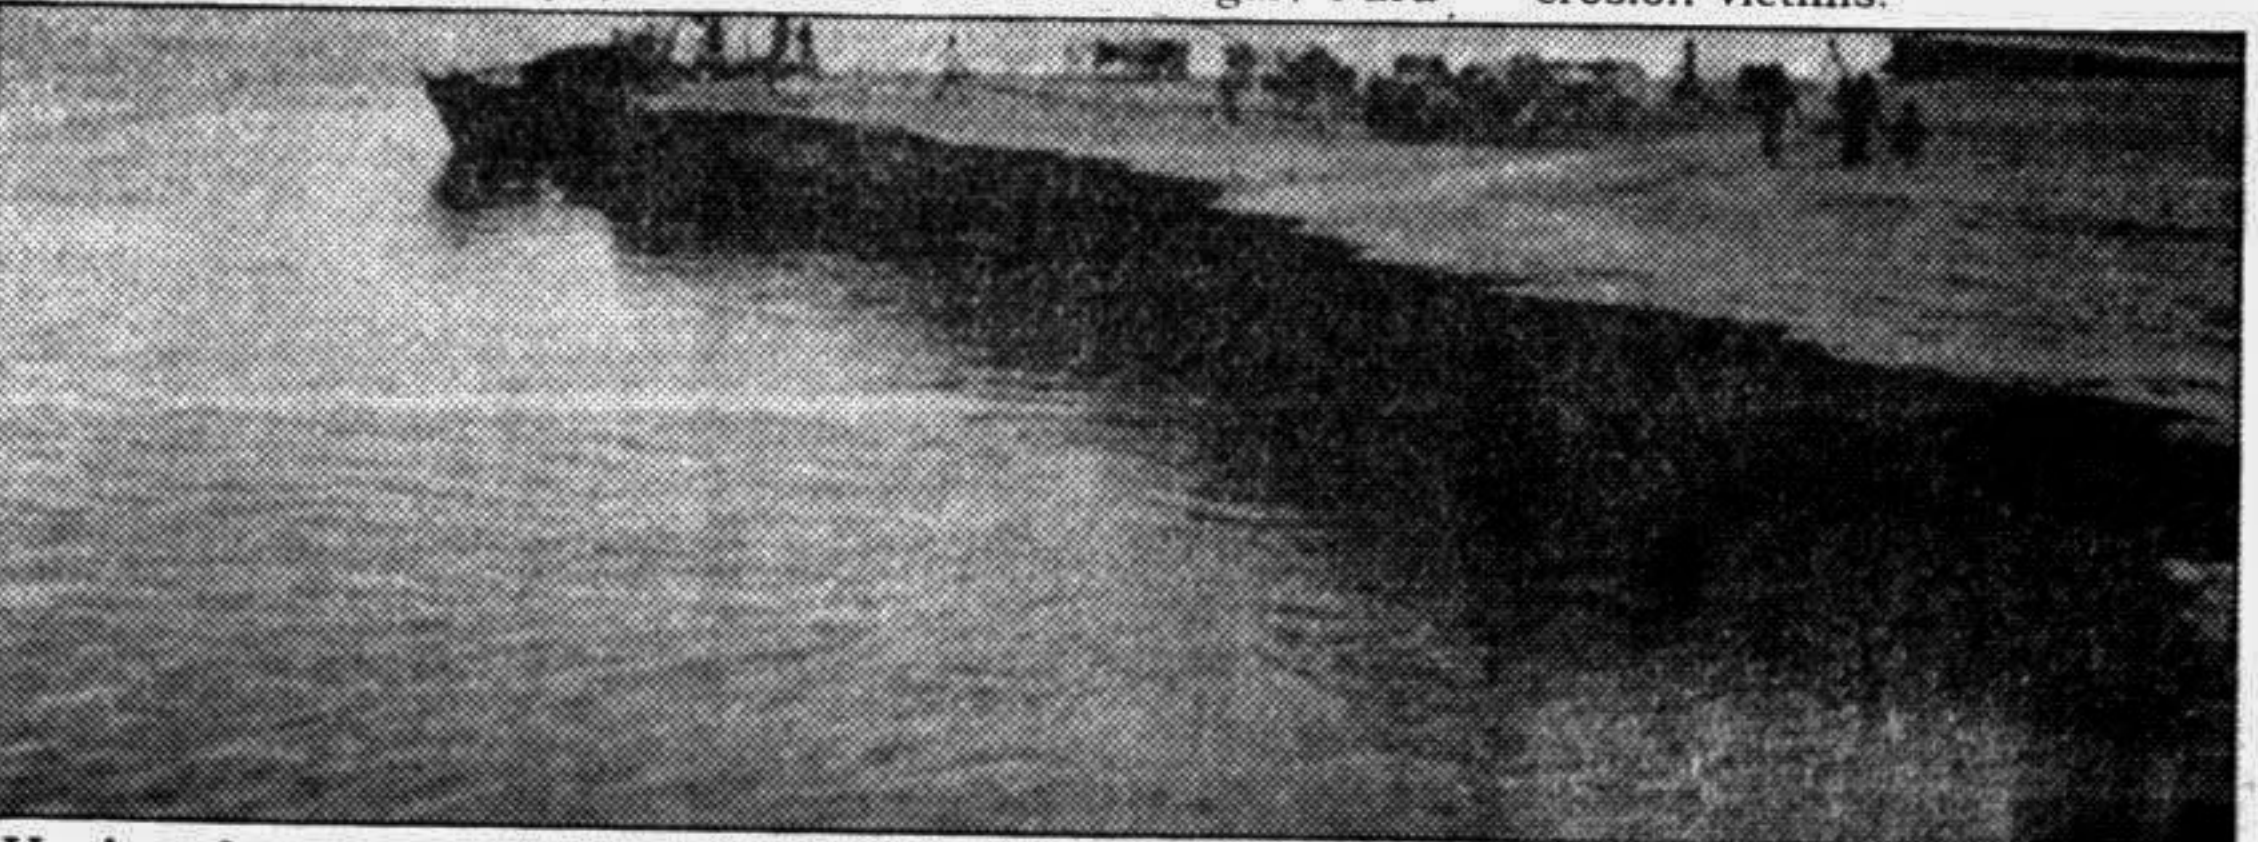

The villages badly affected under Ramkrishnapur union are Sonatala, Sarkarpara, Charbhadrar, Charukuri, Bagmari, Madhugari, Islampur, Kharibona, Dhakipara, Bhagoti, Kharizathak Purbazumara and Chakrpara. The villages badly affected under Philipnagar union include Jotashi, Natunchar, Alinagar and Abedergat. The villages badly affected under Maricha union are Laxminagar, Pura-

rdiar, Chilmari, Bhurkapara, Hatholapara, Koldiar and Machdiar.

The Deputy Commissioner recently visited badly affected areas and distributed relief materials and money among the victims.

But the erosion-hit people said they receive very little amount of relief materials. While visiting some affected villages this correspondent found many shelter-less people make makeshift houses on high land.

Thana administrations are facing various problems in rehabilitating erosion affected people, who have lost arable lands and dwelling houses. Local people have urged the authorities concerned to take immediate steps to rehabilitate erosion victims.
